

CORVETTE 2023

—
7 0 Y E A R S O F
D E F I N I N G
T H E F U T U R E .

For 70 years and eight generations, Chevrolet Corvette has defined what's possible for car enthusiasts around the world and helped mainstream many new automotive technologies we take for granted today.

But perhaps its biggest contribution has been to our collective psyches. Because when it comes to ultimate freedom, it's difficult to surpass the exhilaration of a Corvette, racing along the dotted white lines toward whatever's on the other side of the horizon.

It all adds up to Corvette being the longest continuously produced passenger car nameplate in world history. Today, we celebrate with the magnificent 70th Anniversary Edition, as well as the first mid-engine Corvette Z06, which heralds a new plateau for race car-like performance combined with surprising comfort.

D R E A M
M A C H I N E .

The 70-year history of Corvette has brought us to an exceptional moment in time. The eighth-generation Z06 is the most ambitious Corvette to date. With the available Z07 Performance Package, it powers from 0 to 60 mph in 2.6 seconds¹ and is capable of 1.22 g on the skid pad². Z06 embodies the full realization of original Corvette Chief Engineer Zora Arkus-Duntov's dreams in every respect: an edgy, visceral mid-engine masterpiece bred alongside a championship race car. It emphatically reinforces the historic Corvette mission: To be the best sports car in the world.

Z06 3LZ coupe in Accelerate Yellow Metallic (extra-cost color) with available Z07 Performance Package and options.

Z06 3LZ interior in Jet Black leather with Yellow stitching and options.

¹ Based on initial vehicle movement. Requires available Z07 Performance Package. ² Requires available Z07 Performance Package.

A DESTINY FULFILLED.

The world finally got its much-anticipated mid-engine Corvette in 2020, and the influence of this car is still profound. Stingray represents a quantum leap in terms of everything a Corvette should stand for – beauty, balance, power-to-weight ratio, traction, precision and craftsmanship. Here's one payoff: Stingray goes from 0 to 60 mph in an astounding 2.9 seconds!¹ Stingray is available as a coupe with a removable roof panel or as a hardtop convertible. Either way, it's close to perfect.

Stingray 3LT coupe in Rapid Blue (extra-cost color) with available Z51 Performance Package and options.

¹Based on initial vehicle movement. Requires available Z51 Performance Package.

— STINGRAY AT A GLANCE.

- 2-passenger coupe or convertible

To use Android Auto on your car display, you'll need an Android phone running Android 6 or higher, an active data plan, and the Android Auto app. ⁷ Functionality is subject to limitations and varies by vehicle, infotainment system and location. Select service plan required. Certain Alexa Skills require account linking to use. Visit onstar.com for additional details. ⁸ Third-party trademarks are the property of their respective third-party owners and used under agreement. Requires active service plan and paid AT&T vehicle data plan. Visit onstar.com for details and limitations. ⁹ Connected Navigation and Real-time Points of Interest (POI) only available on properly equipped vehicles. Requires paid plan or trial. Map coverage available in the United States, Puerto Rico and Canada. Visit onstar.com for details and limitations. ¹⁰ The system wirelessly charges one compatible mobile device. Some phones have built-in wireless charging technology and others require a special adaptor/back cover. To check for phone or other device compatibility, see my.chevrolet.com/learn or consult your carrier.

¹ A NOTE ON CHILD SAFETY: Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and the child safety seat instructions for more safety information.
² Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for important feature limitations and information. ³ When you select a monthly plan within 30 days of activating your 1-month trial, you'll receive the next 2 months of the plan you select at no additional charge when you associate an approved payment method on file to your account and authorize recurring payments for your service plan. The amount and frequency of each recurring payment is based upon the service(s) and payment interval(s) you select from the options provided. After the trial expires, OnStar will automatically bill your payment method monthly at then-current standard monthly rates. Plans containing 4G LTE data will be billed every 30 days by AT&T. You may cancel at any time by pushing your blue OnStar button or calling 1-888-466-7827. May not be combined with other offers or retroactively applied. Offer subject to change.
