Now and forever, Dodge is about performance, power and muscle. But that formula isn't simply calculated by the amount of insane horsepower and fierce torque our vehicles produce. Performance is also measured by advanced safety and security features as well as the onboard technology that keeps occupants connected and entertained.

The 2022 Challenger showcases muscle-car performance and unique style. The driveline components are engineered for an exhilarating driving experience. The lineup includes the potent 797-horsepower, 707-lb-ft-of-torque Challenger SRT Hellcat Redeye, 717-horsepower, 656-lb-ft-of-torque Challenger SRT Hellcat and the 807-horsepower, Challenger SRT Super Stock. Add the new Jailbreak Package to SRT Hellcat Redeye Widebody to bump the car's power from 797 to 807 horsepower. The Jailbreak Package also allows buyers to select colour combinations for interior and exterior features that were once restricted. Regardless of which model you choose, you'll feel the thrust of bold power and premium performance.

Each Challenger delivers an interior with track-inspired details, award-winning features and user-friendly technology.

POWER, PERFORMANCE AND MUSCLE

BLACK
BOOK

Best Retained Value
2021

/// 2022 CHALLENGER

Canadian-made Dodge Challenger has once again taken the top spot in the “Sport Car: Main” category in the 2021 Canadian Black Book Best Retained Value Awards. This award recognizes vehicles that have retained the greatest percentage of their original MSRP over the past four years (since 2017).

Every Dodge Challenger harnesses nostalgic styling, retro-muscle attitude and modern mechanics that give this legend the chops to uphold the weight of its storied reputation. Whether you’re looking for the efficient savviness of a Challenger SXT, the drag race prowess of an SRT® Super Stock or something in between, there’s a Challenger waiting for you.

1320

BORN TO RACE

/// NATURALLY ASPIRATED MUSCLE

It's named for the 1/4-mile distance (1,320 feet), but if you're eyeing this trim level, you already knew that. While you can certainly drive this beast to work, what you're most excited to do is take it to the drag strip. Challenger Scat Pack 1320 is the drag-oriented, street-legal muscle car for the grassroots drag racer. It's outfitted with everything needed to floor it on the last yellow: TransBrake, drag suspension, Adaptive Damping Suspension, 275/40R20 102Y Drag Radial tires and 20 by 9.5-inch Low-Gloss Black drag wheels with knurled bead seats.

The unique fender badge lets everyone know you aren't messing around; the badge on the instrument panel reminds you that you're well-equipped for the run. Settle in, select Drag Mode to adjust the traction and stability control settings, grip the Alcantara® wrapped performance steering wheel, wait for double yellow lights, then engage the TransBrake, release when the Christmas tree goes green and move down the 1/4 mile with the full force of the 6.4L HEMI® V8 engine and its 485 horses and 475 lb-ft of torque.

/// SCAT PACK 392 IN HELLRaisin
WITH 1320 PACKAGE

SCAT PACK 392

/// SCAT PACK 392 HEMI® ORANGE PACKAGE

Opt to equip your Challenger with the new HEMI® Orange Package. Available on Challenger Scat Pack 392 Widebody or GT RWD, this Package brings race-inspired style to your vehicle. A sporty, offset Orange and Gunmetal stripe runs tip to tail for maximum impact. Orange brake calipers are visible through the spokes of the 20 by 11-inch Carbon Black Warp-Speed aluminum wheels on Scat Pack 392 or the 20 by 9-inch Mid-Gloss Black aluminum wheels on GT. The trim-level badging with pops of Orange does the rest of the talking.

Inside, Desert Orange accent stitching gives a custom feel to the instrument panel, steering wheel, shifter boot, seats and doors. K-Black and Gloss Black accents are found on the three steering wheel bezels, the cluster mask trim, HVAC rings and the shifter body (automatic transmission only). An Orange-accented “392” instrument-panel badge also sets this Package apart.

/// **SCAT PACK 392** gets its muscle from the legendary 392 HEMI V8 engine. The numbers tell the rest of the story: 485 horsepower, 475 lb-ft of torque, 0 – 60 mph in the low-4-second range and a 1/4 mile at 204 km/h (127 mph) in the mid-12-second range. This power is underpinned by four-piston Brembo® brakes, Three-Mode Electronic Stability Control (ESC)™* with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20 by 9-inch Low-Gloss Granite aluminum wheels.

/// **SCAT PACK 392 WIDEBODY** features a beefed-up stance and booming exhaust notes. The available Shaker Package supplies a bigger performance kick through a Mopar® Cold-Air Intake and full-floating, open-element Shaker hood scoop.

/// **ALL SCAT PACK 392 MODELS** include Dodge SRT® Performance Pages and race-inspired seats featuring a Scat Pack Bee logo embroidered on either a standard high-performance premium cloth or available Nappa leather faced with Alcantara® suede inserts.

* A note about this catalogue: all disclosures can be found on the back cover.

SRT HELLCAT® 717^{HP}

/// INTENSE PERFORMANCE

Powered by a 6.2L Supercharged HEMI® SRT® V8 engine, Challenger SRT Hellcat delivers 717 horsepower and 656 lb-ft of torque. SRT Hellcat uses tough drivetrain components, specifically designed for an exhilarating driving experience. Two fully functional, air-sucking snorkels on the hood and an illuminated Air-Catcher® headlamp feed cold air to the engine to keep it cool and efficient. SRT Hellcat clocks the 1/4 mile at 204 km/h (127 mph). The available Widebody Package (shown above) adds 8.8 cm (3.5 inches) of overall width, offering improved performance with wider 20 by 11-inch wheels and sticky 305/35ZR20 tires.

SRT HELLCAT[®] REDEYE

UP TO

807^{HP}

/// HIGH-POTENCY POWER

Challenger SRT Hellcat Redeye houses a high-output version of the 6.2L Supercharged HEMI[®] SRT[®] V8 engine. Combined with 25 major component upgrades, the engine unleashes an unthinkable 797 horsepower and 707 lb-ft of torque. Redeye reaches a top speed of 326 km/h (203 mph) and runs a 10.8-second 1/4 mile at 210 km/h (131 mph). A fully functional dual-snorkel hood provides maximum air intake to the powerplant. SRT Hellcat Redeye shows up race-ready with standard Torque Reserve, SRT Power Chiller[®] and After-Run Chiller, all grabbed from the SRT Demon archives. Two final drive ratios are offered: a standard 2.62:1 or available 3.09:1 for increased launch capability. Enthusiasts will also appreciate special details such as the SRT Hellcat Redeye badging that features a sinister Red jewel-like eye design on the exterior, and a die-cast SRT emblem on the supercharger housing also showcases the Redeye logo.

/// BREAK FREE FROM CONVENTION

For the first time ever, Dodge designers are riding shotgun, and you're in the driver's seat. The new, optional Jailbreak Package for 2022 Challenger SRT Hellcat Redeye Widebody models unlocks ordering restrictions, allowing owners to run wild in more than 20 categories, including seven options for seats, stripes and wheels; six brake caliper colour options; five exterior badging finishes; four choices each for steering wheels; four seat belt colours and floor mats; and much more. The SRT Hellcat Redeye Widebody is bumped to 807 horsepower, thanks to a revised powertrain calibration.

GO TO WWW.DODGE.CA TO CUSTOMIZE YOUR CHALLENGER.

PICK IT MAKE IT JAILBREAK

/// BREAK FREE FROM CONVENTION Exclusive to the SRT Hellcat® Redeye Widebody, the available Jailbreak Package unlocks 10 additional horsepower and creates a Challenger that's uniquely yours. Jailbreak unleashes more colour availability, previously restricted colour combinations and, for the first time, a choice of badge colours. Buyers can also choose their wheels, stripes, interior seating and exterior colour preferences.

/// DECEIVING BY DESIGN

Challenger SRT Super Stock gets its name from the “Super Stock” class of vehicle in drag racing. The class is defined by vehicles purposely built to look like an ordinary passenger vehicle but are really highly modified race cars. What this powerhouse lacks in badging, it more than compensates for with the beast under the hood. The only tells are 18 by 11-inch wheels with a Low-Gloss Granite finish and Nitto® Drag Radials.

/// CHALLENGER SRT SUPER STOCK

This trim uses the same 6.2L Supercharged HEMI® high-output V8 engine that powers SRT Hellcat® Redeye but adds a revised powertrain calibration. The result is 807 horsepower (on pump gas), 3.25-second 0 – 60-mph acceleration, elapsed 1/4-mile time of 10.5 seconds at 211 km/h (131 mph) and a 270-km/h (168-mph) top speed. SRT Super Stock is built on a standard Widebody and features a competition suspension, standard lightweight aluminum four-piston Brembo® brakes, and a wheel and drag radial combination designed to give better grip off the line.

/// FAMILY OF LEGENDS

All SRT trim levels feature Drive Modes specific to the vehicle. The available SRT tuned Bilstein® Three-Mode Adaptive Damping Suspension provides driver-selectable settings including Street (Auto) Mode = sporty but compliant ride; Sport Mode = firm, maximum handling; and Track Mode = firm, maximum handling plus performance shifting and a gear-holding feature to suit any driver’s needs. The SRT Drive Modes, accessed via the Uconnect® touchscreen, offer selectable settings for Street (Auto), Sport and Track.

A custom setting lets drivers tailor their experience by individually adjusting horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard SRT Performance Pages brings critical vehicle performance data to the driver’s fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock.

EXPERIENCE TRUE PERFORMANCE

SRT HELLCAT IN TORRED WITH AVAILABLE DUAL CARBON STRIPES

/// CANADA'S BEST-SELLING ENGINE⁵ – 3.6L PENTASTAR™ VARIABLE VALVE TIMING (VVT) V6

The potent 3.6L, with a fuel efficiency rating of 7.8 L/100 km (36 mpg) highway⁶ on Rear-Wheel-Drive (RWD) models, produces 303 horsepower and 268 lb-ft of torque. Standard on SXT and GT models.

/// 5.7L HEMI® VVT V8

Standard on R/T models, this powerplant generates up to 375 horsepower and 410 lb-ft of torque, moving you from 0 – 60 mph in the 5-second range. When equipped with the standard TorqueFlite® 8-speed automatic transmission, the FuelSaver Multi-Displacement System (MDS) technology allows the vehicle to transition from eight cylinders to four to optimize fuel efficiency when full power is not required. A TREMEC® 6-speed manual transmission is optional.

/// 6.4L SRT® HEMI V8

Get ready for the authority that comes from 485 horsepower, 475 lb-ft of torque, an impressively flat torque curve and a 0 – 60-mph time in the 4-second range. With the standard TorqueFlite 8-speed automatic transmission, the FuelSaver MDS technology deactivates four cylinders when eight are not needed, creating a double threat of power and efficiency. Standard on Scat Pack 392. A TREMEC 6-speed manual transmission is optional.

/// 6.2L SUPERCHARGED HEMI SRT HELLCAT® V8

The standard SRT Hellcat engine feeds your appetite for performance with a hefty 717 horsepower, 656 lb-ft of torque and a fierce 0 – 60-mph time in the low-3-second range. Models equipped with this engine have a special hood design that helps create these intense numbers. The high-performance TREMEC 6-speed manual transmission boasts an internal cooling pump and external vehicle-mounted oil cooler and is optional on Challenger SRT Hellcat models.

/// 6.2L SUPERCHARGED HIGH-OUTPUT SRT HELLCAT HEMI V8

On Challenger SRT Hellcat Redeye, this track-inspired engine unleashes a fury of intense power and performance. The engine can output 797 horsepower, 707 lb-ft of torque and a top track speed of 326 km/h (203 mph). These numbers take Challenger Redeye from 0 – 60 mph in 3.4 seconds and a 1/4 mile in 10.8 seconds. To reach 807 horsepower, the Challenger SRT Super Stock and new SRT Hellcat Redeye Widebody Jailbreak feature a revised powertrain calibration that boosts rated power output by increasing the shift point from 6,300 rpm to 6,400 rpm.

WEATHER OR NOT, HERE WE COME

/// FOUR-SEASON ACTION

When Mother Nature gets sloppy, there's no need to park your ride. All-Wheel Drive (AWD) is available exclusively on 3.6L Pentastar™ V6 engine-powered Challenger SXT and GT models. The system delivers reassuring control exactly when you need it. The advanced automatic front-axle disconnect technologically, intuitively and seamlessly transitions between Rear-Wheel Drive (RWD) and AWD without driver intervention. Under normal driving conditions, the front axle is disengaged, and 100 percent of the engine's torque is directed to the rear wheels. When sensors indicate more traction is needed, the system automatically engages the front axle and instantly transitions to AWD Mode. These systems work with the vehicle's Electronic Stability Control (ESC)* System to deliver precise front-to-rear torque control while preserving unrelenting drive.

SAFETY & SECURITY

/// PARKVIEW® REAR BACK-UP CAMERA¹⁰ This system displays the area directly behind your vehicle when the vehicle is in Reverse. Dynamic grid lines adjust with steering input to assist in parking. Standard.

/// PARK-SENSE® REAR PARK ASSIST¹⁰ When your vehicle is in Reverse and moving at a low speed, the system can detect objects in your vehicle's path. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Standard.

/// BLIND-SPOT MONITORING (BSM) WITH REAR CROSS-PATH DETECTION¹⁰ Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons in the sideview mirrors and by audible chime. The system includes Rear Cross-Path Detection,¹⁰ which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of parking spots or driveways. Available.

/// ADAPTIVE CRUISE CONTROL (ACC)¹⁰ Automatically adjusts vehicle speed to maintain desired distance from the vehicle ahead and can bring the vehicle to a full stop without driver intervention. Available.

/// FULL-SPEED FORWARD COLLISION WARNING WITH ACTIVE BRAKING¹⁰ Radar and camera technology combine to alert you when the system senses potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes with the ability to bring the vehicle to a complete stop. Available.

/// LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST¹⁰ This system measures your position within lane boundaries. If it detects an unintentional lane drift, it will alert you and can correct the vehicle back into the lane. Available.

/// ELECTRONIC STABILITY CONTROL (ESC)¹ This system is designed to assist the driver in maintaining control of the vehicle when a loss of traction is detected. ESC¹ senses when a vehicle loses steering control and attempts to correct the vehicle's course by automatically applying the brakes at individual wheels. Standard.

/// RAIN-SENSING WINDSHIELD WIPERS System sensors automatically detect moisture on the windshield and activate the wipers. Standard.

/// READY ALERT BRAKING The system anticipates situations when you might initiate an emergency brake stop and uses the ESC¹ pump to pre-charge the brake system in order to decrease the time required for full brake application. Standard.

/// RAIN BRAKE SUPPORT When your car's windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard.

/// DODGE AIR FILTRATION SYSTEM The enhanced air filtration system provides even cleaner air for you and your family. The new Dodge Air Filtration System filters 95 percent of air particulates, reducing many types of solid and liquid airborne matter, such as dust, smoke, droplets and aerosols, making it the cleanest cabin air ever in a Dodge vehicle. Standard.

*Whichever comes first. Some conditions may apply. ¹The 5-Year/100,000-Kilometre Powertrain Limited Warranty does not apply to vehicles sold for certain commercial uses. See your retailer for full details.

MOPAR VEHICLE PROTECTION: FCA Canada Inc. has a vested interest in your satisfaction and owner experience with your new vehicle. Mopar Vehicle Protection offers extended service and maintenance plans to help ensure you'll enjoy your vehicle for many years down the road – for just pennies a day. For more information on comprehensive vehicle coverage, see your local Chrysler, Jeep, Dodge and Ram retailer or call 800-465-2001.

DISCLAIMERS: 1) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 2) Based on engine horsepower. 3) Based on 0 – 60-mph time. 4) Based on 1/4-mile time. 5) Based on IHS Markit Automotive Canadian New Vehicle Total Registrations for combined years CY2016 to CYTD September 2021. 6) Based on *EnerGuide* fuel consumption ratings and fuel tank options. Government of Canada test methods used. Your actual fuel consumption will vary based on driving habits and other factors. Ask your retailer for the *EnerGuide* information. 7.8 L / 100 km highway and 12.4 L / 100 km city on Challenger RWD models equipped with the 3.6L engine and 8-speed automatic transmission. 7) Never program while driving. GPS mapping and 3D navigation may not be detailed or available in all areas or reflect current road regulations. 8) If you decide to continue service after your trial, the subscription plan you choose will continue and you will be charged according to your chosen payment method at then-current rates unless you cancel your services. Fees and taxes apply. Some services and features are subject to device capabilities and location availability. Please see the SiriusXM Customer Agreement at www.siriusxm.ca/terms for complete terms and how to cancel, which includes calling SiriusXM at 1-888-539-7474. All fees and programming are subject to change, provided that we will notify you in advance of any price change. We use personal information in accordance with our Privacy Policy, available at siriusxm.ca/privacy. 9) All SiriusXM Guardian equipped vehicles come with a 12-month complimentary trial effective on the date of purchase or lease of a new vehicle. Enrolment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States, Puerto Rico and Canada. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. 10) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his or her surroundings and be prepared to take corrective action to avoid collisions.
