

2024

IONIQ 6

“The Hyundai IONIQ 6 is already cooler
than the Tesla Model 3.” – Autotrader⁶

¹Estimated all-electric range for SE Long Range RWD trim based on a fully charged battery and combined MPGe rating. ²Claim based on comparison of specifications on manufacturer websites. ³Charging rate and time estimate varies based on factors including battery charge level, output of the charging unit, vehicle and battery settings, and outside temperature. ⁴Available on new 2024 IONIQ 6 vehicles purchased from an authorized U.S.-based Hyundai dealer (excluding Alaska). Some restrictions apply. Two years of 30-minute complimentary DC fast charging sessions at Electrify America charging stations begins upon date of vehicle purchase or lease. Non-transferable. Not available for commercial use, such as ride-hailing or ridesharing. Requires Electrify America app, account, enrollment in IONIQ 6 Charging Plan, acceptance of Terms of Use, and an initial deposit to fund idle fees and charging after initial 30 minutes. Complimentary charging time does not include any idle fees and associated or applicable taxes assessed at the charging station. After user-initiated charging session stops or vehicle reaches full charge, and following a 10-minute grace period, idle fees and applicable taxes will apply and user is responsible. After the initial 30 minutes of each eligible charging session, charging continues uninterrupted at then-current Electrify America pricing. There is a 60-minute waiting period between eligible charging sessions, and the IONIQ 6 Charging Plan benefits will not apply to a charging session initiated within this period. In the event of suspected fraud or abuse or other unforeseen events, Hyundai Motor America may discontinue or modify the offer in its sole discretion. Electrify America charging stations only available in the continental U.S. ⁵July/August 2023 issue of *Car and Driver*. 2023 Hyundai IONIQ 6 tested. ⁶For more information, visit Autotrader.com. Autotrader is a registered trademark used with permission.

IONIQ 6 Limited in Transmission Blue

The all-electric sedan that's all-powerful.

At Hyundai, our IONIQ line of electric vehicles has been revolutionizing the EV driving experience. Our latest model, the 2024 IONIQ 6, blends sophistication and simplicity in a manner that is stunning to behold. And a revelation on the open road.

Let's start with this critical factor: Range. IONIQ 6 has an available all-electric range estimated at up to 361 miles on a full charge.¹ This exceptional efficiency flows from a pure coupe-like form that results in a drag coefficient of 0.22, making IONIQ 6 one of the most aerodynamic production vehicles.² From its parametric pixel LED lighting to its flush power door handles and see-through shark fin antenna, IONIQ 6 slips through the air with minimal resistance.

IONIQ 6 pushes ultra-fast EV charging fast-forward, too. In as little as 18 minutes, it can go from 10 to 80 percent charged using a 350 kW DC Fast Charger.³ Enter a recognized DC fast charging station into IONIQ 6's navigation system, and a battery

preconditioning feature can automatically initiate to warm the car's battery for quicker recharging in a variety of weather conditions.

IONIQ 6 owners receive two years of complimentary 30-minute charging sessions on Electrify America's DC fast-charging network.⁴ And thanks to Hyundai's proprietary Electric Global Modular Platform (E-GMP), IONIQ 6 owners will be among the few EV drivers who can take advantage of the network's 350 kW charging speeds.

Clearly, IONIQ 6 isn't just an EV for daily commutes or around-town errands. It's a spacious touring sedan that serves as a full partner for all of your driving needs. In naming IONIQ 6 its 2023 EV of the Year, *Car and Driver* declared, "The IONIQ 6 is both a well-executed electric and a car we want to drive. This polished EV makes few missteps as it puts Hyundai's E-GMP platform in the winner's circle. Again."⁵

Electrifying performance.

No matter which of the three IONIQ 6 trim levels you choose, one thing happens when you press the accelerator: A quiet, urgent whoosh of thrust propels you forward. On RWD models, power comes from a 77.4-kWh battery that energizes an electric motor to the tune of up to 225 horsepower and 258 lb-ft of torque.¹

The added traction of All Wheel Drive is also available, with dual electric motors channeling up to 320 hp and 446 lb-ft of torque for optimal performance. Want to enhance the mood of your IONIQ 6? An available EV sound system boosts the sonic thrill as you accelerate, while available ambient lighting subtly changes intensity to match your speed.

IONIQ 6 performs with aerodynamic efficiency. Active grille shutters funnel cooling air to help keep the battery at an optimal temperature. Side vents lower resistance by directing a slipstream of fast-moving air around the front tires. And a rear spoiler creates downforce to add stabilizing grip.

Paddles on the steering wheel let you adjust the amount of energy captured during braking – energy IONIQ 6 uses to charge its battery. Energy is captured when coasting, too, thanks to a radar-based regenerative system. Choose one of four driving modes – Eco, Normal, Sport or Snow – to satisfy your driving style or road conditions. There's also a customizable drive mode that lets you alter IONIQ 6's motor, steering and available AWD settings to suit your preferences.

All-encompassing safety.

To safeguard you and your passengers on the road, IONIQ 6 surrounds you with an array of cameras, radar sensors and ultrasonic sensors. It's all part of Hyundai SmartSense, our suite of advanced safety and driver-assist features.

Around town, standard Rear Cross-Traffic Collision-Avoidance Assist² and front/rear parking sensors work with an available Surround View Monitor³ to help navigate parking maneuvers. On the highway, standard Blind-Spot Collision Warning⁴ monitors your flanks, and an available Blind-Spot View Monitor⁵ displays live video from either side of the car in the instrument cluster of your IONIQ 6.

Highway Driving Assist (HDA) is an advanced cruise control that not only maintains a safe distance from the vehicle ahead, but also maintains your position within the driving lane, automatically adjusts for changing speed limits and reduces your speed as you approach curves in the road.⁶

Available Highway Driving Assist 2 (HDA 2) enhancements help respond to vehicles that cut into your lane at low speeds, as well as vehicles that drive too close in the adjacent lane. When operational parameters are met, it can even assist in making lane changes.⁷ And as part of HDA 2's Smart Cruise Control,⁸ machine learning can mimic the driver's tendencies for acceleration and spacing with the vehicle ahead.

Blind-Spot View Monitor

Hyundai SmartSense Technologies⁹

¹ Ratings for SE Long Range, SEL and Limited RWD trims. ² Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross-traffic behind the vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when your car is in reverse gear at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. ³ The Surround View Monitor is a parking support system. It cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for details and limitations. ⁴ Blind-Spot Collision Warning (BCW) assists the driver by warning of other cars in the blind-spot region. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. BCW may not operate if sensors are obscured in any way. Do not rely exclusively on BCW. BCW is a supplemental system and the driver must be attentive and exercise caution when driving. It is important to always signal, look over your shoulder and through your mirrors before changing lanes. See Owner's Manual for details and limitations. ⁵ The Blind-Spot View Monitor (BVM) assists in changing lanes by providing a live view of the blind spots on either side of the vehicle and sounding an audible alert if another vehicle is detected. The turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. ⁶ Highway Driving Assist (HDA), when used in conjunction with Lane Following Assist and Smart Cruise Control (and/or Lane Change Assist and Cut-in Assist with HDA 2), is for highway use only and helps keep you centered in your lane while maintaining a safe distance from the vehicle ahead. Lane markings must be clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the car to avoid a collision. See Owner's Manual for details and limitations. ⁷ Assisted lane change function occurs when the driver operates the turn signal while holding the steering wheel and driving over 37 mph. See Owner's Manual for details and limitations. ⁸ Smart Cruise Control (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible for slowing or stopping the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops, and reengages if the vehicle ahead moves forward within three seconds. See Owner's Manual for details and limitations. ⁹ SmartSense features vary by trim level. See Owner's Manual for feature details and limitations.

¹Apple CarPlay is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. ²Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. ³Vehicle-to-Load two-way charging will deplete the battery and become inoperable once battery discharge limit reaches 20 percent. Not all electrical appliances will operate properly when using this feature. Do not use products that require a continuous power supply, and only use appliances under 16 amps. Additional limitations may apply. See Owner's Manual for details and limitations. ⁴Remote Smart Parking Assist 2 (RSPA) can help remotely park your vehicle. RSPA may not function correctly if a parking sensor is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) interfere with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for details and limitations.

IONIQ 6 Limited with Black H-Tex™ seating surfaces

See the future. Inside and out.

Open the door to IONIQ 6, and you'll see the future of stylish comfort. The modern design of its spacious five-passenger cabin is crafted with eco-friendly biomaterials derived from canola flower and corn extracts, sugarcane and recycled fishing nets.

Your first indication of IONIQ 6's innovative approach comes when you push your SEL or Limited's start button: Dual-color ambient lighting emits a soft, soothing glow throughout the cockpit. On the steering wheel, a row of interactive pixel lights discretely indicates the charging status of your car. Beyond the steering wheel, a 12.3" digital instrument cluster vividly displays precise performance metrics as you drive.

Hyundai Design created the IONIQ 6 interior to serve as your personal studio. IONIQ 6 Limited's premium Bose® audio system projects its clear sound through eight speakers, including a powerful subwoofer. Every IONIQ 6 comes with Apple CarPlay® and Android Auto,™ and you can connect two phones to the audio system simultaneously via Bluetooth® – one for phone calls, and one for music streaming.¹ An available wireless phone charger keeps your smartphone powered up,² and five USB ports (three up front and two for the rear seats) are standard.

A two-way Vehicle-to-Load (V2L) charger outlet below the rear seats is available to ensure you can power your plug-in digital devices and larger electronic items.³ Planning a road trip? The navigation system charts optimal routes based on the battery charge level of your IONIQ 6 and locates charging stations along the way. Once you arrive at your destination, an available Remote Smart Parking Assist 2 feature lets you pull your IONIQ 6 into or out of tight parking spaces – without you having to be behind the steering wheel – simply by using your key fob.⁴

Introducing Bluelink+: No fees. No trial. No worries.

With the introduction of Bluelink+, Hyundai has become the first automotive brand to offer its suite of connected car features to new car purchasers at no extra cost. Bluelink+ is truly complimentary with the purchase of your new 2024 IONIQ 6.¹

Bluelink features technologies designed to help keep you safe – from automatic collision notifications to automatic emergency assistance if your airbags deploy and enhanced roadside assistance that sends your exact location to a roadside assistance associate. Bluelink also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary with a 2024 IONIQ 6 new vehicle purchase for the life of the supporting wireless network technology.²

Our MyHyundai app turns your compatible smartphone, smartwatch or smart home assistant device into a Bluelink remote control. You can unlock the doors and start the climate controls of your IONIQ 6 before you even walk out the door.³

Use the available Digital Key 2 Touch to enter your IONIQ 6, and your radio and navigation system presets are configured automatically via your Bluelink personal profile.⁴ Apple Wallet® and Samsung Pass® let you share your digital key with trusted friends and family members⁵ – as the primary driver, you control when a shared key can be used, and you can pause or end shared-key access at any time.

Automatic Emergency Assistance

Bluelink offers you 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you're in an accident where your vehicle's airbags deploy.⁶

Remote Vehicle Status

Wondering how much charge your battery has? If the doors are locked or your trunk is closed? Your MyHyundai app knows the answers to these questions and much more.

Remote Charge Access

You can control your IONIQ 6's charging remotely while it is plugged into an external power source, and schedule charging at specific times to take advantage of low-demand hours and rates.

Remote Climate Controls

Preheating your IONIQ 6 when connected to a power source saves battery power that would be needed to heat your vehicle on the road. On warmer days, the Remote Climate Control can cool the cabin before your drive.

Remote Vehicle Controls

Your compatible smartphone, smart speaker or wearable device can remotely start your IONIQ 6, unlock the doors, set the cabin's temperature, and much more.

Destination Send-to-Car

Use your MyHyundai app to find restaurants or other points of interest, then send the destination to your IONIQ 6's navigation system before you start to drive.

¹Bluelink+ requires an active subscription agreement subject to the Connected Services Terms and Conditions. Term starts from the new vehicle date of first use. Only use Bluelink and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. A fee will apply for map and multimedia over-the-air (OTA) updates, which are dependent on an active Bluelink connection, after an initial 3-year period of complimentary updates. For details and limitations, visit HyundaiUSA.com or your authorized Hyundai dealer. ²All Bluelink services rely on digital wireless telecommunications technology outside of our control and in the control of the wireless carriers who provide the telecommunications technology. 4G LTE cellular networks are controlled and maintained by third-party wireless carriers. Telecommunication technologies have been known to change over time. If and when these networks change and discontinue services or the underlying technology required to support Bluelink is obsolete, then the connected services will not work and we will be forced to cancel impacted subscription services. ³Requires active Bluelink Advanced subscription (complimentary for the original owner). Remote climate control available on properly equipped models with fully automatic temperature control. Remote stop only available when in remote start mode. ⁴Near Field Communication (NFC) digital key requires a compatible iPhone®, Apple Watch® or Samsung Galaxy® phone. Not all Android, Apple or Samsung devices are compatible. Digital key sharing requires an active Bluelink Advanced subscription (complimentary for the original owner). See your Owner's Manual for details and limitations. ⁵Apple® is a registered trademark of Apple Inc. Samsung® is a registered trademark of Samsung Electronics Inc. ⁶Bluelink agents will contact existing emergency service responders.

Hyundai Complimentary Maintenance

Complimentary maintenance includes Hyundai-approved oil and oil filter change (except for electric vehicles and fuel cell electric vehicles) plus tire rotation at normal factory-scheduled maintenance intervals for 3 years or 36,000 miles, whichever comes first. More frequent maintenance due to severe driving or conditions excluded. Offer valid only for new 2020-2024 Hyundai models purchased or leased on or after February 1, 2020. See your Hyundai dealer for further details and limitations.

Owner Assurance

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we have got your back with Hyundai Owner Assurance, an umbrella of services and benefits that includes America's Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.
