- Leather seating surfaces
- Ventilated front seats
- Heated 1st and 2nd row (outboard seating positions)
- 12-way power adjustable driver seat, power recline passenger seat

Interior

Wireless charging: Keep your devices going for the long haul

Our 45-watt USB port charging and ventilated 15W wireless charging for compatible devices won't leave you—or your passengers—without a charge. Even if you forgot your charger.

Technology

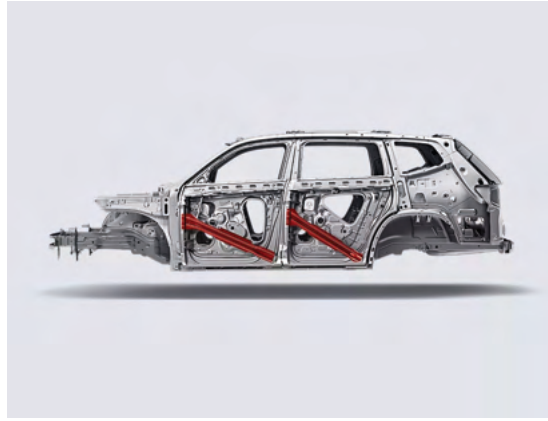

Rear View Camera System

Benefit from the view of a wide lens when you want it. It can help you see obstacles when backing up, a feature so helpful you'll wonder how you ever managed without it.

Six stability-enhancing systems

From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which can adjust engine throttle and apply corrective forces to the wheels that need them most, your vehicle is equipped with a total of six stability-enhancing systems.

Safety Cage

Front and rear crumple zones help absorb crash energy, while a rigid safety cage helps distribute forces away from the driver and passengers.

Automatic Post-Collision Braking System

Not every collision brings a car to stop. That's why our vehicles include the Automatic Post-Collision Braking System. It can also help slow the vehicle down after a collision, helping reduce the chance of any additional impacts.

Intelligent Crash Response System (ICRS)

In the event of a collision that deploys the airbags, the ICRS can turn off the fuel pump, unlock the doors, and activate the hazard lights. It helps react if you might not be able to.

Car-Net Wi-Fi Hotspot

Internet on the go.

Car-Net Wi-Fi Hotspot makes the ride fun for your passengers, connecting up to four Wi-Fi enabled devices. That's entertainment, solved.

App-Connect

Take your apps for a ride.

Use App-Connect to conveniently view and control select apps on your compatible smartphone, right from your Volkswagen touchscreen display. Compatible with Apple CarPlay® and Android Auto™ by Google.

IQ.DRIVE

Drive peace of mind with driver assistance technology that helps enhance safety.

Discover the confidence that comes with driver assistance technology that helps enhance safety. No matter your destination, enjoy the drive from A to B without much of the stress, thanks to IQ.DRIVE.

Features:

- Travel Assist
- Adaptive Cruise Control (ACC)
- Active Blind Spot Monitor
- Rear Traffic Alert
- Front Assist
- Emergency AssistLane Assist

Driver Assistance

Park Assist Plus

The available Park Assist Plus feature puts into perspective the “will my car fit” debate when you come across the perfect parking spot. Not only can it sense the size of a space, but it will also help you do the parking, from start to finish, as you supervise. Parallel, perpendicular, or reversing—Park Assist Plus can help with them all.

Park Distance Control

Park Distance Control helps take the guess work out of parking your car, while Maneuver Braking helps apply the brake automatically to help mitigate the chance of a collision with stationary objects while reversing into a spot. With Park Distance Control’s audio beeps and visual support, you’ll know if you’re getting too close to detected obstacles in front of or behind your car. It’ll also share additional information on your display, so you can see what’s behind your car as you reverse within a parking spot.

Light Assist

When driving at 18 mph or faster and your surroundings get dark, the Light Assist driver assistance feature turns on to help make sure the road ahead is lit, and when your speed slows to 12 mph, it turns off. You can set the high beams into “auto” mode, so they’ll automatically activate when there’s low light, and turn off when there’s an oncoming vehicle, or you enter an area that’s well lit by the environment or by traffic conditions.

Dynamic Road Sign Display

From traffic signs to speed limits, when you need a reminder about the signs on the road, Dynamic Road Sign Display helps share the information you want. It also features warnings for speed, restricted traffic zones and more, so you can remain focused on the road ahead.
