

2025 Tacoma

Tacoma Specs

ENGINE

Available i-FORCE MAX
Hybrid Powertrain

PERFORMANCE

Up to 326 Horsepower
and 465 Lb.-Ft. of Torque

TRANSMISSION

8-Speed Automatic Transmission or
6-Speed Manual Transmission

Discover Your Tacoma

11 unique grades to choose from.

SR

- i-FORCE 2.4L turbocharged engine
- Available 6-speed Manual Transmission
- Available in Double Cab with 5-ft. bed, or XtraCab with 6-ft. bed

SR5

- i-FORCE 2.4L turbocharged engine
- Coil-spring rear suspension (Double Cab only)
- Available in Double Cab with 5-ft. or 6-ft. bed, and XtraCab with 6-ft. bed

TRD PreRunner

- i-FORCE 2.4L turbocharged engine
- Electronically controlled locking rear differential
- XtraCab utility-focused rear storage with 6-ft. bed

TRD Sport

- i-FORCE 2.4L turbocharged engine
- TRD sport-tuned suspension
- Available 6-speed intelligent Manual Transmission (iMT)

TRD Off-Road

- i-FORCE 2.4L turbocharged engine
- Bilstein® monotube shocks with remote reservoirs
- Available 6-speed intelligent Manual Transmission (iMT)

Limited

- i-FORCE 2.4L turbocharged engine
- Adaptive Variable Suspension (AVS)
- 18-in. chrome-finish alloy wheels and exterior accents

TRD Sport i-FORCE MAX

- i-FORCE MAX 2.4L turbocharged hybrid powertrain
- TRD sport-tuned suspension
- 2400W power supply

TRD Off-Road i-FORCE MAX

- i-FORCE MAX 2.4L turbocharged hybrid powertrain
- Bilstein® monotube shocks with remote reservoirs
- 2400W power supply

Limited i-FORCE MAX

- i-FORCE MAX 2.4L turbocharged hybrid powertrain
- Adaptive Variable Suspension (AVS)
- 18-in. chrome-finish alloy wheels and exterior accents

Trailhunter

- i-FORCE MAX 2.4L turbocharged hybrid powertrain with high-mount air intake
- Old Man Emu® 2.5-in. forged mono-tube position-sensitive shocks with rear piggyback-style remote reservoirs
- High-clearance front bumper, rock rails and ARB® steel rear bumper with recovery hooks

TRD Pro

- i-FORCE MAX 2.4L turbocharged hybrid powertrain
- 2.5-in. FOX® Internal Bypass QS3 shocks with rear piggyback-style remote reservoirs
- IsoDynamic Performance front seats with dampening system

DESIGN

Built for the bold.

Exterior Styling

In a nod to its Baja racing heritage, Tacoma continues to embody the extreme spirit of outdoor adventure while staying true to its iconic design.

High-Clearance Front Bumper

TRD Pro's and Trailhunter's standard high-clearance front bumper enhances Tacoma's approach angle—providing even greater confidence when you're traversing tough terrain.

Premium LED Headlights

Featuring dynamic sequential turn signals and Daytime Running Lights (DRL), Tacoma's available premium LED headlights blend form, function, and safety.

Aggressive Stance

Building upon its iconic design DNA of a high-lift, streamlined body and a powerful athletic stance, Tacoma sports a look that's always ready to hit the trail.

14-In. Multimedia Touchscreen

Everything is right at your fingertips with Tacoma's available 14-in. multimedia touchscreen display which supports satellite navigation, and wireless Apple CarPlay or Android Auto.

Interior Styling

Tacoma's modernized interior is the perfect blend of fun and functionality. With a unique look and feel tailored to each grade, plus advanced comfort, technology, safety, and convenience features.

PERFORMANCE & CAPABILITY

Embrace every obstacle.

Tacoma is built to take on whatever's in front of you. With a range of purpose-built suspension options, and available trail-conquering features like multi-link rear suspension, Stabilizer Disconnect Mechanism (SDM) and Crawl Control, it never met a challenge it didn't like.

i-FORCE MAX Hybrid Powertrain

Tacoma's available i-FORCE MAX hybrid powertrain introduces a prodigious level of torque to your world. The 2.4-liter turbocharged engine, combined with a 48-hp electric motor, delivers up to a commanding 326 maximum horsepower and an astounding 465 lb.-ft. of low-end torque.

i-FORCE Gas Engine

Meet every challenge, every day. With up to 278 horsepower and up to 317 lb.-ft. of ultra-responsive torque, Tacoma's i-FORCE 2.4-liter turbocharged engine is ready to deliver day in, day out. And when adventure calls, enjoy the confidence of knowing your Tacoma is built to get you there and back.

Stabilizer Disconnect Mechanism (SDM)

Unleash Tacoma's full off-road capability and get farther down the trail with the available Stabilizer Disconnect Mechanism (SDM). With the push of a button, you can increase suspension articulation across the whole truck to dominate the off-road like never before.

Multi-Terrain Select and Crawl Control

Operable in both 4WD high and low ranges, Tacoma's available Multi-Terrain Select helps maintain control on challenging trails by adjusting engine throttle and traction control to suit the conditions, while Tacoma's available Crawl Control (CRAWL) system acts as a low-speed, off-road cruise control, automatically modulating the throttle and brakes in one of five selectable speeds.

Multi-Link Rear Suspension With Coil Springs

Whatever the journey ahead, Tacoma's available multi-link rear suspension with coil springs keeps you in command by enhancing traction and delivering maximum suspension articulation. Whether you're traversing rocky landscapes or pounding the pavement, you can unleash the full potential of your Tacoma with confidence.

6-Speed Manual Transmission

Tacoma puts control of the i-FORCE 2.4-liter turbocharged engine in the palm of your hands. With Tacoma's available 6-speed intelligent Manual Transmission (iMT2) with automatic rev-matching and anti-stall technology, those challenging rock-crawling sections become a little less challenging.

TECHNOLOGY & UTILITY

Tech and Toughness.

Advanced Towing Technology

Tacoma allows you to tow with confidence, thanks to available advanced technology like Trailer Backup Guide with Straight Path Assist, an integrated brake controller, and a Blind Spot Monitor that extends the area of detection when it identifies a trailer is being towed.

12.3-In. Digital Gauge Cluster

Quickly see all the information you need with Tacoma's available 12.3-in. digital gauge cluster with selectable gauges. This customizable full-color display allows access to safety features, navigation, audio controls, off-road features, towing functions and more.

3D Multi-Terrain Monitor

When you need an extra pair of eyes, Tacoma's available next-generation Multi-Terrain Monitor (MTM) lets you toggle between front-, rear- and side-camera views to check your immediate surroundings for potential obstacles.

14-In. Audio Multimedia Display

Tacoma's impressive available 14-in. multimedia touchscreen display runs on Toyota's latest audio multimedia system, which supports satellite navigation, SiriusXM®, wireless Apple CarPlay® compatibility and more.

TNGA-F Chassis

Adopting the same advanced and robust chassis of the full-size Tundra and Sequoia, Tacoma's Toyota New Global Architecture-F (TNGA-F) platform combines high-strength steel with lightweight aluminum and laser welds for enhanced rigidity and less weight throughout the chassis.

2400-Watt Power Supply

A 2400W onboard AC inverter is standard on all hybrid Tacomas and sends power to both the bed and inside the cabin. So you can keep your gear running and the good times rolling wherever you are.

Prewired Auxiliary Switches

The 2025 Tacoma adds a fourth prewired auxiliary toggle switch integrated into the dashboard to provide the perfect platform to install Genuine Toyota Accessories and other accessories from Toyota's accessory line.

TRAILHUNTER

Tacoma Trailhunter.

Toyota has long been the choice of those who forge their own paths to adventure. Now, the choice is even clearer. Introducing the Tacoma Trailhunter—conceived, designed and engineered to not only take on the toughest trails, but also to carry all your gear and supplies for extended time off the grid. It is a ready-made overlanding beast.

SAFETY & CONVENIENCE.

Ready for everything.

Power Open-and-Close Tailgate

Tacoma's available segment-first power open-and-close tailgate with jam protection makes loading and unloading your gear a breeze. If your hands are full, just press a button on the key fob or push the taillight switch to open and close, or simply let the knee-lift assist close the tailgate for you.

Power-Extending Running Boards

Step into your comfort zone. Standard power running boards on Limited grades are concealed when the door is closed, then extend outward when the door is opened to allow for easier entry and exit of your Tacoma, as well as access to hard-to-reach cargo in the bed.

Blind Spot Monitor With Rear Cross-Traffic Alert

Tacoma's available Blind Spot Monitor (BSM) is designed to warn you when a vehicle in the next lane enters your blind spot on either side of the vehicle. And when you're reversing out of a tight spot, available Rear Cross-Traffic Alert (RCTA) helps detect vehicles approaching from either side.

Digital Rearview Mirror

Connected to a camera in the rear, Tacoma's available digital rearview mirror with integrated HomeLink® universal transceiver buttons cast a clearer, wider and obstruction-free view of what's behind you. You can zoom in, zoom out and adjust the mirror to give you a better perspective.
