- 21" machined alloy wheels w/ all-season tires
- R-Line exterior styling
- Perforated Vienna leather seating surfaces (premium appearance)
- Perforated head restraints
- Massage front seats with 4-way lumbar and more!

# Performance

## Engine

It's just nice to know you have a turbocharged engine with 269-hp and 273 lb-ft of torque. Plus, a 5,000 lb towing capacity. The Atlas really pulls its weight.

## Driving & Handling: 4MOTION® all-wheel drive with Active Control

Control available 4MOTION® right at the center touchscreen display. Is there a dial? No. Is it modern and convenient? Yes.

# Technology

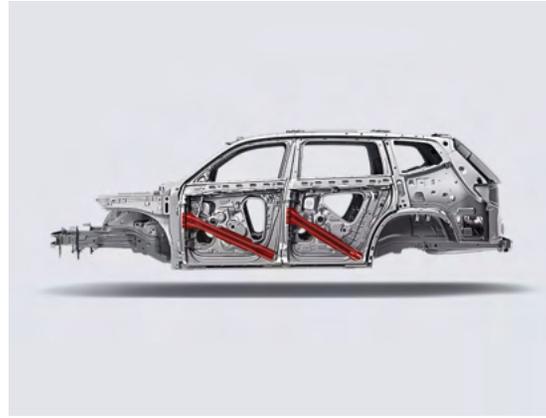

## Rear View Camera System

Benefit from the view of a wide lens when you want it. It can help you see obstacles when backing up, a feature so helpful you'll wonder how you ever managed without it.

## Six stability-enhancing systems

From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which can adjust engine throttle and apply corrective forces to the wheels that need them most, your vehicle is equipped with a total of six stability-enhancing systems.

## Safety Cage

Front and rear crumple zones help absorb crash energy, while a rigid safety cage helps distribute forces away from the driver and passengers.

## Tire Pressure Monitoring System (TPMS)

Monitoring and maintaining proper air pressure in your tires helps with efficiency and safety. The TPMS helps alert you to a loss of tire pressure so you know when to add air.

## Intelligent Crash Response System (ICRS)

In the event of a collision that deploys the airbags, the ICRS can turn off the fuel pump, unlock the doors, and activate the hazard lights. It helps react if you might not be able to.

## Automatic Post-Collision Braking System

Not every collision brings a car to stop. That's why our vehicles include the Automatic Post-Collision Braking System. It can also help slow the vehicle down after a collision, helping reduce the chance of any additional impacts.

# Cargo

**Go ahead and say yes. There's plenty of room.**

96.6 cubic feet of cargo space with rear seats folded down - Atlas

77.6 cubic feet of space with the rear seats folded down - Atlas Cross Sport

**Available 115v Outlet**

More power to you. And everyone else along for the ride.

**Center console cargo**

A little extra storage space for the essentials. Like snacks.

## Remote Features

### **Available remote engine start**

Ready before you're ready.

### **Keyless access (KESSY®) for all doors & liftgate**

We're not here to push any buttons and neither are you. This feature allows you to unlock all four doors and the hatch. And the key fob doesn't even have to leave your pocket.

## Lighting

### **Automatic LED headlights with an available illuminated VW emblem**

The LED headlights with LED Daytime Running Lights and Adaptive Front Lighting System (AFS) really know how to light up a road.

### **Available 30 color adjustable ambient lighting with backlit decor**

Gives you the power to set the mood, no matter how often it changes.

# Interior

## 12" center touchscreen display

It will be hard to miss out on anything. It's pretty big. A whole foot to be exact.

## Available head-up display

Shares important driver info on the interior windshield. So you can keep your eyes where they belong. On the road.

## Digital Cockpit Pro

The innovative VW Digital Cockpit Pro, is loaded with state-of-the-art features, displays driving information in high resolution, and offers customizable features for an easy, intuitive user experience. The available full screen navigation view increases the size of the map, giving you a better view of where you're going and how to get there.

# Sound and Audio

## Available Harman Kardon premium sound system

Clarity and sophistication to your road tunes. Each seat is a good seat at the show.

## SiriusXM with 360L

With its innovative features and a variety of premium content, SiriusXM with 360L transforms your ride with an extensive and personalized audio experience. Try it out with a three-month trial subscription included with your new vehicle.

## **IQ.DRIVE**

**Drive peace of mind with driver assistance technology that helps enhance safety.**

Discover the confidence that comes with driver assistance technology that helps enhance safety. No matter your destination, enjoy the drive from A to B without much of the stress, thanks to IQ.DRIVE.

### **Features:**

- Travel Assist
- Adaptive Cruise Control (ACC)
- Active Blind Spot Monitor
- Rear Traffic Alert
- Front Assist
- Emergency Assist Lane Assist

## Light Assist

When driving at 18 mph or faster and your surroundings get dark, the Light Assist driver assistance feature turns on to help make sure the road ahead is lit, and when your speed slows to 12 mph, it turns off. You can set the high beams into “auto” mode, so they’ll automatically activate when there’s low light, and turn off when there’s an oncoming vehicle, or you enter an area that’s well lit by the environment or by traffic conditions.

## Overhead Camera View (Area View)

Sometimes the best way to see what’s happening around you is through cameras that can give you a wider view of those hard to see angles that surround us. Area View does just that by providing an expanded view of your car’s surroundings.

## Park Distance Control with Maneuver Braking

The available Park Distance Control helps take the guess work out of parking your car, while Maneuver Braking helps apply the brake automatically to help mitigate the chance of a collision with stationary objects while reversing into a spot. With Park Distance Control’s audio beeps and visual support, you’ll know if you’re getting too close to detected obstacles in front of or behind your car. It’ll also share additional information on your display, so you can see what’s behind your car as you reverse within a parking spot.

## Dynamic Road Sign Display

From traffic signs to speed limits, when you need a reminder about the signs on the road, the available Dynamic Road Sign Display helps share the information you want. It also features warnings for speed, restricted traffic zones and more, so you can remain focused on the road ahead.

## Exit Warning System

We know you check your surroundings before getting out of your car. But, with the Exit Warning System you’ll get an alert if pedestrians, cyclists, or another vehicle is approaching from behind while you’re parked. It's like an extra set of eyes as you exit your vehicle.
