DESIGN

Electrifying style

Sleek lines and a commanding stance define the exterior of Equinox EV, while the no-compromises interior has the cargo room and storage that let you do you. It's a design package that's seriously stylish.

57.2 cu. ft. max cargo volume

Comfortable seating for up to five

Dual-height cargo floor

Ventilated driver and front passenger seats

Front passenger 6-way power seat adjuster

RANGE

Go for it

Whether it's a quick jaunt or a long journey, Equinox EV has you covered with an EPA-estimated 319 miles of range on FWD models. When enabled, Regen on Demand™ and One Pedal Driving help convert the vehicle's kinetic energy into energy stored in the battery to help you get the most out of every mile.

Regen on Demand

Manually slow down your vehicle and convert some of the energy from your EV's movement directly to the battery.

Cabin preconditioning

Plug in to heat or cool your vehicle prior to driving so that it draws energy from the outlet rather than your battery.

Relaxed driving

Smooth driving and gentle acceleration help optimize battery health.

One Pedal Driving

Lets you slow down and stop your vehicle using only the accelerator pedal under most conditions, helping you get the most out of your electric driving range.

CHARGING

Expanded Fast Charging access is here

With the myChevrolet mobile app, Chevy customers have access to more than 250,000 available public chargers, including over 20,000 Tesla Superchargers. Get started by activating public charging within the app and ordering a GM-approved NACS DC adapter. Now, when you're on the go and need a charge, simply open myChevrolet to start and seamlessly pay for sessions from the palm of your hand.

Charging basics

Seamlessly fit charging into your routine, plus find out more about charging basics and how easy it is to go electric.

Home charging

Learn more about the types of home chargers and how easy it is to get one professionally installed.

Bidirectional charging

For Level 2 fast charging (up to 19.2 kW), plus energy resilience in a power outage, get vehicle-to-home (V2H) bidirectional charging with the GM Energy PowerShift Charger to provide power to your home and compatible GM EV, when paired with the GM Energy Vehicle-to-Home Enablement kit.

Public charging

Charging on the go is simple. Just pull up to a Level 2 charger or DC Fast Charger at certain public locations. With DC Fast Charging, you can be back on the road in less time.

TECH & SAFETY

Super Cruise®

On average, Super Cruise users drive more than 10 million hands-free miles per month total. Just as impressive: Super Cruise driver assistance technology won MotorTrend Best Hands-Free Driving Tech.

Confidence all the way

Equinox EV comes standard with Chevy Safety Assist, a package of six advanced safety and driver assistance features, including:

- Automatic Emergency Braking
- Front Pedestrian Braking
- Lane Keep Assist with Lane Departure Warning
- Forward Collision Alert
- Following Distance Indicator
- IntelliBeam®
