DESIGN

EFFORTLESSLY REFINED

A modern and sophisticated interior, underpinned by its impeccable reductive nature and intuitive approach to relevant technology.

LUXURY LEATHERS

Choose from a range of graded leathers, all with the luxury and refinement you would expect. Available in four colors.

SUSTAINABLE MATERIALS

Non-leather alternatives of Kvadrat™ textile and Ultrafabrics™ provide a soft material with a modern look.

TAILORED FINISHES

Personalize your interior with a selection of fine veneers and a range of materials and finishes.

REFINEMENT & LUXURY

ACTIVE NOISE CANCELLATION

Next-generation Active Noise Cancellation helps eliminate unwanted noises, vibrations and distractions. Delivered via headrest speakers that create individual quiet zones for ultimate cabin refinement.

MLA-FLEX

MLA-Flex provides a stiffer body and engineering enhancements contributing to improvement in noise transmission.

CABIN AIR PURIFICATION PRO

PM 2.5 filtration and nanoeTMX technology reduces odors, bacteria and allergens, including the SARS-CoV-2 virus, while CO2 Management enhances wellness by monitoring levels inside the cabin.

FOUR-ZONE CLIMATE CONTROL

With separate controls for the driver, front passenger, and those on each side of the second row, Four-zone Climate Control allows you to set the temperature and intensity of airflow to your personal preference.

TECHNOLOGY

NEXT GENERATION PIVI PRO

The award-winning Pivi Pro infotainment system is our most intuitive system yet. Incorporating all controls on a single Touchscreen, offering easy connectivity with smartphones and opening a host of connected driving options.

13.1-INCH TOUCHSCREEN

Intuitively navigate and control the Range Rover vehicle's systems through the 13.1-inch curved 'floating glass' interface. The seamlessly integrated Touchscreen10 features haptic feedback, offering a more tactile experience.

INTUITIVE DRIVER DISPLAYS

Working in harmony with Pivi Pro, the 12.3-inch Interactive Driver Display allows you to customize the way information is presented. The optional Head-up Display projects key vehicle and journey information onto the windshield within your eyeline.

REAR SEAT ENTERTAINMENT

The Rear Seat Entertainment features two 11.4-inch high-definition screens that offer screen mirroring and device connection through HDMI. Passengers can watch films or connect a console to stay entertained on the journey.

DRIVER ASSISTANCE

Choose from a range of features designed to make driving and parking simpler. With many innovative technologies available to enhance your driving experience.

TECHNOLOGY

IMMERSIVE SOUND

Meridian™ Signature Sound delivers lifelike reproduction. A subwoofer and 34 speakers create an immersive sound experience in each seat through Meridian™ Trifield 3D technology.

CONNECTED CONVENIENCE

Online Pack provides seamless connectivity with Wi-Fi Hotspot¹⁸ and embedded apps such as Amazon Alexa²⁹. Software-over-the-air (SOTA) updates keep your vehicle up to date.

REAR SEAT CONTROLS

Let passengers take control of the Rear Seat Entertainment and comfort features with our 8-inch Touchscreen controller, located in the second-row armrest of Executive Class rear seats.

EFFORTLESS AND SECURE

As you approach the vehicle, the flush doorhandles deploy automatically and the doors unlock. When the key fob can no longer be detected, the doors lock.

TECHNOLOGY

CLEARSIGHT INTERIOR REAR VIEW MIRROR

The optional ClearSight interior rear view mirror can display a live video feed from a camera located in the antenna. Enjoy an unobstructed view of the road behind you, regardless of rear-seat passengers or large objects in the cargo space.

3D SURROUND CAMERA

Provides a 360° view, even through the hood. 3D Surround Camera, ClearSight Ground View and maneuvering lights help you navigate tight spots.

PERFORMANCE

EFFORTLESS CONTROL

Adaptive Dynamics delivers a smooth ride and superb control by monitoring body and steering movements, up to 500 times a second, and continuously optimizing the damper settings.

COMPOSED DRIVING

Electronic Active Rear Locking Differential offers the additional benefit of more traction on corners and more grip off-road by controlling slip between the wheels on the rear axle.

BALANCED POWER

Torque Vectoring by Braking delivers controlled cornering and handling through the tightest of bends. The electronic differential and braking system balance the distribution of engine torque between the four wheels when cornering.

SERENE COMFORT

Electronic Air Suspension primes Range Rover for corners, providing serene comfort. Dynamic Response Pro improves handling through electronic active roll control (eARC), optimizing on-road performance.

CAPABILITY

ALL WHEEL STEERING

All Wheel Steering is fitted as standard and delivers an even more refined drive with high-speed stability and enhanced low-speed agility. This is the most maneuverable Range Rover ever.

ELECTRONIC AIR SUSPENSION

Range Rover vehicle achieves a smooth, relaxing drive by adjusting its height through the Electronic Air Suspension. It also lowers the vehicle for easier access to the cargospace, and Automatic Access Height allows for an elegant arrival.

CONFIGURABLE PROGRAMS

With eight terrain modes to choose from, Range Rover vehicle can adapt the response of your vehicle's engine, gearbox, differentials and chassis systems using Terrain Response®. Configurable Terrain Response technology allows you to personalize your off-road system preferences.
