64.2 cu. ft. max cargo volume - standard

Sliding rear seats - standard

TECHNOLOGY

Confidence for every drive

Blazer comes standard with Driver Confidence Package (Lane Change Alert with Side Blind Zone Alert, Rear Park Assist and Rear Cross Traffic Alert) in addition to Chevy Safety Assist, a suite of six safety and driver assistance features that work together to help you stay safe whenever you set out on the road.

Automatic emergency braking

Works with forward collision alert to help you avoid or reduce the severity of a front-end collision with a detected vehicle you're following.

Front pedestrian braking

Helps you avoid or reduce the severity of a front-end collision with a pedestrian it detects directly ahead of you.

Front pedestrian braking

Uses a brief, gentle steering wheel turn to alert you when you may be unintentionally drifting out of detected lane lines, so you can steer to stay safely in your lane.

Forward collision alert

Can warn you when it detects a potential front-end collision with a vehicle you're following so you can quickly take action.

Following distance indicator

Provides you with the following gap time in seconds between your vehicle and a detected vehicle you're following to help you decide if you're following too closely.

IntelliBeam

Can automatically turn the vehicle's high beam headlamps on and off according to surrounding traffic conditions.
