SET**
*Ford*TM

Best-in-Class Diesel Horsepower and Torque

It takes two kinds of muscle to haul large loads — torque and horsepower. Our 6.7L High Output Power Stroke® V8 engine owns both — with a best-in-class maximum available 500 hp and 1,200 lb-ft torque.

Fear No Terrain with Off-Roading

When life leads you off the paved path — forge ahead courageously. Experience top-notch performance far from where the pavement ends with available off-road packages. Choose between the Tremor® Off-Road Package, FX4® Off-Road Package, and XL Off-Road Package.

Towing Technology

Make your towing experience seamless with available towing technology features such as Pro Trailer Backup Assist™, Pro Trailer Hitch Assist™, Onboard Scales with Smart Hitch, and more.

Best-in-Class Payload

To haul heavy loads, you'll need a truck with big muscle. It takes a fully boxed, high-strength steel frame and a robust engine to achieve an outstanding maximum available 8,000 lb payload rating.

Best-in-Class Towing

Super Duty® trucks lead the way with a best-in-class diesel-powered maximum available 40,000 lb gooseneck tow rating. Take advantage of conventional, gooseneck, and 5th wheel towing options as needed to best accomplish the task at hand.

Pro Power Onboard™ - 2 kW

Power up wherever you need with up to 2 kW of power right at your fingertips. With this feature, take your work off-site, host a football tailgate, light up your campsite, or more by plugging your equipment into your truck's in-bed outlets.

Power Tailgate With Retractable Step

This available feature lowers the tailgate with the press of a button on the key fob and raises it with a simple nudge. A retractable step offers extra assistance when climbing in and out of the truck bed.

LED Lighting

Available LED sideview mirror spotlights and security approach lamps are included with the available PowerScope® trailer tow mirrors. Plus, sleek wraparound LED lamps provide extra visibility while driving after dark.

Interior

Productivity in Perfect Comfort

Interior Work Surface

Manage business from the comfort of your cabin with an available ergonomic work surface. This practical workspace is sized perfectly for laptops and unfolds neatly from your center console.

Max Recline Front Seats

Long trips can take a lot out of you. Take a moment to recharge with available Max Recline front seats. Enjoy abundant leg and headroom while you rest. This comfortable feature is available on Lariat®, King Ranch®, and Platinum® models.

Rear Under-Seat Storage

The 2026 Super Duty® truck offers an available folding under-seat box. It's integrated into the floor of the vehicle for convenient and secure storage of tools and gear.

Technology

Cruise. Control.

Driver Assistance

Take advantage of available driver-assist features. Feel confident behind the wheel with Ford Co-Pilot360® technology and get a birds-eye-view of your vehicle while you drive with the 360-Degree Camera.

Dashboard Technology

Keep your eyes on the road with advanced technology features such as the Tire Pressure Monitoring System, as well as available features like head-up display, 12" center display with SYNC® 4, and more.

Ford Security Package

Help protect one of your most valuable investments with the Ford Security Package. Get Theft Alerts if your truck is tampered with and remotely disable your vehicle via the FordPass® app.
