

THE 2025 MAZDA CX-50

DESIGN

ENGINEERED FOR CAPABILITY

Every detail of the CX-5 is imbued with your life and your passions in mind.

PREMIUM INTERIOR

Our durable interior features are shaped for a comfortable and relaxed drive, with every control and panel within reach and designed around your line of sight so you can stay focused on the road ahead.

AVAILABLE PANORAMIC MOONROOF

Whether it's cascading moonlight or the green dappled canvas of a forest ceiling, your moments in nature can last longer through the available Panoramic Moonroof.

UTILITY FOR ANY ACTIVITY

Deeper than its wide, the cargo floor of the CX-5 is designed to fit coolers, packs and gear lengthwise. Our line of cargo accessories can make storage even easier.

PERFORMANCE

MI-DRIVE

Mazda Intelligent Drive Select (Mi-Drive) technology allows you to instantly choose from different drive modes, so your connection to the road stays natural and intuitive across a wide variety of driving scenarios.

DRIVE MODES

Choose from Normal Mode for an ideal balance of performance and efficiency, Sport Mode for more responsiveness, Off-Road Mode for maximum traction or available Towing Mode.

TOWING MODE

Available on CX-50 2.5 Turbo models, Towing Mode helps keep the CX-50 stable while hauling up to 3,500 lbs.

- Heated rear seats
- 360 Degree View monitor with See-through View
- Front Cross Traffic Alert and Brake

TECHNOLOGY

A SEAMLESS DRIVE

Whether you're running errands or on an adventure, stay connected and drive with convenience.

ALEXA BUILT-IN

The CX-50 is equipped with Alexa Built-in, ask Alexa to check your calendar, get directions, change your car temperature, play your favorite playlist and more – all while you keep your hands on the wheel and eyes on the road.

CONNECT WITH MYMAZDA APP

Locate your vehicle, start the engine, lock and unlock the doors - all remotely. With the MyMazda App and Mazda Connected Services, complimentary for one year on your mobile device.

SAFETY

ADAPTIVE FRONT-LIGHTING SYSTEM

This available feature can pivot the headlights in the direction the steering wheel is being turned, increasing the range of the headlights, improving visibility and making it easier to spot potential hazards.

BLIND SPOT MONITORING

This standard feature can detect vehicles in the driver's blind spots and provide visual alerts. If the driver signals a lane change while a vehicle is in their blind spot, an additional audible alert can activate.

PARKING SENSORS

Available sensors located on the front and rear of the vehicle can identify obstructions around the vehicle while the vehicle is in motion and display them on the Mazda Connect screen. Audible & visual alerts will notify the driver as the distance to the obstacles decreases.

360 VIEW MONITOR WITH SEE-THROUGH VIEW

This available feature provides greater awareness of the vehicle's surroundings when driving at low speeds or stopped. Cameras positioned around the vehicle's exterior create a 360 degree view visible on the Mazda Connect screen, while See-through View makes the image appear as if the vehicle is transparent.

LANE DEPARTURE WARNING

When traveling above about 40 mph, this system can give audible and visual alerts when it detects that the driver might be deviating from their lane without signaling.

REAR CROSS TRAFFIC ALERT

This standard feature is designed to assist the driver in checking the area to the rear of their vehicle while reversing and can provide audible and visual alerts if a vehicle approaching from either side is detected.

CAR AND DRIVER PRAISES THE 2024 MAZDA CX-50

With a "solid powertrain" and its "plush, high-quality interior," Car and Driver magazine named the CX-50 the compact SUV "we most wanted to drive and live with."

2024 IIHS TOP SAFETY PICK+

We're proud that the 2025 Mazda CX-50 has won an IIHS TOP SAFETY PICK+ award – so you can drive with control, safety, and confidence.
