- 6-speed manual transmission with rev matching
- 3.55 limited-slip rear axle
- Available active valve performance exhaust

GT Premium Fastback

- 5.0L Ti-VCT V8 engine with 480 hp
- 6-speed manual transmission with rev matching
- Available GT Performance Package with available MagneRide[®] Damping System
- Available active valve performance exhaust

Mustang Dark Horse[®]

- Modified 5.0L Coyote[™] V8 engine with 500 hp
- Available TREMEC[®] 6-speed manual transmission with rev matching
- Class-first Drift Brake
- Standard MagneRide[®] Damping System

Mustang Dark Horse[®] Premium

- Modified 5.0L Coyote[™] V8 engine with 500 hp
- Available TREMEC[®] 6-speed manual transmission with rev matching
- Class-first drift brake
- Available Handling Package

EcoBoost® Convertible

- 2.3L EcoBoost engine with 315 hp
- Selectable Drive Modes
- 12.4" LCD digital cluster w/ IOD message center and 13.2" LCD capacitive touchscreen with swipe capability
- Active noise cancellation

EcoBoost® Premium Convertible

- 2.3L EcoBoost engine with 315 hp
- 3.15 limited-slip rear axle
- Available Pony puddle lamps
- Available magnesium-framed panoramic curved display

GT Premium Convertible

- 5.0L Ti-VCT V8 engine with 480 hp
- 6-speed manual transmission with rev matching
- Available GT Performance Package with available MagneRide® Damping System
- Available active valve performance exhaust

Performance

Three Engines. Unlimited Thrills.

Modified Gen-4 5.0L Coyote™ V8

The 2026 Mustang Dark Horse® fastback is powered by a naturally aspirated engine that kicks out 500 horsepower, and 418 lb.-ft of torque. That's 100 hp/L to dominate the road.

Gen-4 5.0L Coyote V8

Get behind the wheel of the 2026 Mustang fastback or convertible. When you feel the power of 486 horsepower and 418 lb.-ft. of torque, it's go time.

2.3L EcoBoost®

This turbocharged engine delivers 315 horsepower and 350 lb.-ft. of torque. It also features Modular Power Cylinder (MPC) engine architecture to help improve performance.

Mustang Dark Horse[®] SC

Another Mustang[®] You Never Saw Coming

Tuned for the Track. And the Streets

The 2026 Mustang Dark Horse[®] SC is the result of a total-package approach to development between the Ford Racing motorsports and road-car teams. Engine, gearbox, aerodynamics, cooling, braking, suspension tuning, steering feel, even tire compounds — engineers and designers looked at it all. Transforming the Mustang Dark Horse into the new Mustang Dark Horse SC.

Seven-Speed Dual-Clutch Transmission

Fly through the gears with this advanced, quick-shifting transmission paired with a lightweight carbon-fiber driveshaft.

Next-Gen Suspension System

Standard MagneRide[®] dampers feature upgraded hardware and software, as well as revised springs with firmer rates, new stabilizer bars, updated front and rear knuckles, and modified front control arms. This results in sharper, flatter, and more predictable handling characteristics compared to the Mustang Dark Horse.

Exterior

A Legacy of Instantly Recognizable Style

Cutting-Edge Aerodynamics

Drawing on six decades of engineering and design excellence, the 2026 Mustang® lineup is sculpted to maximize traction, handling, speed, and fun.

Brake Caliper Colors

Jaws will drop whenever you stop. Choose from three available colors: Black, Red, or Notorious Blue. Select brake caliper colors are exclusive to specific models and appearance packages.

Quad Chrome Exhaust Tips

With the available active valve performance exhaust, choose from four notes: Quiet, Normal, Sport, or Track. Plus, use the key fob to activate Remote Rev™ and show off the signature engine roar.

Interior

Crafted for Customizable Comfort

RECARO® Seats

From long road trips to laps at the track, available high-quality RECARO® seats provide supportive comfort everywhere.

D-Shaped Steering Wheel

This available, leather-wrapped steering wheel with chrome bezel gives you precise, race car-inspired control around town or at the track.

Driver-Centric Dual Display

You've made it to the big screen. The available 12.4" cluster display with IOD (Information On Demand) message center and 13.2" center display with swipe capability are now under one expansive piece of glass. With the custom information you need at a glance, your eyes will spend less time straining and more time on the road.

Custom Comfort at Every Turn

Personalize the available magnesium-framed panoramic curved display with unique cluster themes and ambient color. Choose from several eye-catching interiors to show off your style.

Head-Turning Appearance Packages

Choose from several available appearance packages, like the new Mustang® FX Package. Go dark with the Mustang Nite Pony Package. Add a pop of style with the Bronze Appearance Package. Or intimidate with the Mustang Dark Horse® Appearance Package.

Technology

Make Every Drive Dynamic

Power Performance With Track Apps

See your stats on every lap. View lateral and longitudinal G-forces, automatic and countdown starts, acceleration, and lap times — on the 12.4" cluster display and 13.2" center display.

Make a Statement With Remote Rev

Impress friends and jealous onlookers with this industry-first, available feature. It lets you show off the signature throaty growl of the Mustang® engine using your key fob

Connect on Command with SYNC® 4

Displayed on an expansive 13.2" center touchscreen, SYNC 4 connects to your compatible smartphone for more personalized driving.
