

2026 RDX

Premium Sport Crossover

PERFORMANCE

RDX Powertrains

SH-AWD

Super Handling All-Wheel Drive™ (SH-AWD®) bumps the performance of the RDX into a new class entirely. The 272-HP is connected to the road through all four tires. Advanced torque vectoring gives you precision control in the corners even in adverse weather conditions. With a max towing capacity of 1500 lbs., the RDX is as capable as you dare.

Handling

The RDX is engineered to react. The available Adaptive Damper system combined with the IDS drive modes intuitively adjust the performance of the RDX for a multitude of conditions. Switch into Sport Mode for an even more responsive ride.

Steering

Dual-pinion, variable ratio electric power steering delivers an engaging drive with maximized control. Select Comfort Mode for easier steering inputs or Sport Mode for increased firmness and feedback.

Braking

The iBooster braking system improves stopping power and inspires more confidence. A firmer pedal feel creates a better connection between road and driver.

PERFORMANCE

Integrated Dynamics System

Comfort

Easier steering inputs and a reduced engine note make Comfort Mode a smooth ride with exceptional handling and satisfying efficiency.

Normal

Find the perfect balance of a comfortable ride, agile handling and throttle responsiveness for your daily drive.

Snow

Snow Mode helps you maintain traction and confidence by adjusting the amount of power going to each wheel so you're ready when winter arrives.

Sport

Tap into the full performance of the RDX in Sport Mode. Experience a more aggressive engine sound and increased steering feedback and torque vectoring with Super Handling All-Wheel Drive™.

EXTERIOR

Bold With Purpose

Aggressive Design

The RDX is design in motion. Sleek body lines emanate from the striking frameless Diamond Pentagon grille and draw your eyes along to the sculpted rear. LED-illuminated Dragon Tail taillights add a dramatic flair to the already bold design. Rectangular dual exhaust finishers complete the look for a premium presence on the road.

Jewel Eye® LED Headlights

The impressive front fascia is illuminated by brilliant Jewel Eye® LED Headlights that keep their jewel-like appearance even when off. They cast a bright and natural light for superior down-road visibility. Chicane™ LED DRLs round off the design for a striking signature look.

A-Spec® Styling

This is the pinnacle of performance-focused styling. Gloss black accents and multi-spoke 20-in Shark Gray alloy wheels sharpen the sleek design of the RDX. Larger round exhaust finishers give off a more muscular look while A-Spec badging and a finned rear diffuser embolden the exterior design.

Premium Paint Technology

Find your shade of power with a premium paint finish in Performance Red Pearl, Liquid Carbon Metallic, Majestic Black Pearl, Platinum White Pearl, Urban Gray Pearl and Apex Blue Pearl. These durable pigments are applied in a series of tinted clear coats for brilliant chromatic color that has a deep, rich finish.

INTERIOR & COMFORT

Athletic Accommodations

A-Spec® Design

Sporty and refined, the available A-Spec® design delivers performance you can feel. An available NSX-inspired Ultrasuede™-trimmed interior surrounds you in stylish comfort for every drive.

Panoramic Moonroof

See bigger skies with a panoramic moonroof that still preserves the peace and quiet of the insulated cabin. Want some fresh air? Open it up to let the natural light in for all to enjoy.

Authentic Materials

The serene RDX cabin is packed with premium details and high-grade materials. Brushed aluminum and available open-pore wood accents create a bespoke feel. Available full-grain Premium Milano leather seating lets you feel the crafted quality.

Ambient Cabin Lighting

Elevate every drive with Iconic Drive™ Ambient Cabin Lighting that brings the track to your interior. Customizable LED lighting schemes inspired by famous driving destinations and racetracks around the world add a new dimension to performance.

AUDIO & CONNECTIVITY

Sounds Of Refinement

Wireless Apple CarPlay® Compatibility

Stay effortlessly connected through wireless Apple CarPlay® compatibility. The new widescreen mode helps you easily access your music, texts, and navigation on the 10.2-inch full HD center display.

Wireless Android Auto™ Compatibility

Stay effortlessly connected through wireless Apple CarPlay® compatibility. The new widescreen mode helps you easily access your music, texts, and navigation on the 10.2-inch full HD center display.

ELS STUDIO® Premium Audio

Welcome to an immersive audio experience. The available ELS Studio 3D® Premium Audio System, engineered by Grammy Award-winning recording producer Elliot Scheiner, scores your drive with immaculate sound through 16 speakers, including 4 in the headliner.

True Touchpad Interface™

True Touchpad Interface™ uses absolute positioning to help you easily control the 10.2-inch HD display. Every spot on the touchpad corresponds to a specific spot on the screen. Experience intuitive technology that keeps you focused on the road.

AUDIO & CONNECTIVITY

No Strings Attached

AcuraLink® Connected Services

AcuraLink®* helps you stay connected to your Acura through your smart phone. Enjoy convenient features like Remote Start, Find My Car, Automatic Collision Notification, and Enhanced Roadside Service during your three-year complimentary trial.

Wi-Fi Hotspot Capability

Stay connected with Wi-Fi Hotspot capability and enjoy over-the-air updates to your RDX and HD video streaming for up to three devices. Select an AT&T data plan to get started.

Wireless Charging

Enjoy the convenience of the ergonomically redesigned center console featuring available wireless charging with Qi-compatible devices to keep your smartphone powered up.

Alexa Built-In

Interact with your RDX through Alexa. Using your voice, you can easily control music, use navigation, check the weather, control smart home devices and more, by simply asking Alexa.

SAFETY & ASSIST TECH

AcuraWatch™

Collision Mitigation Braking System™ (CMBS™)

CMBS™ helps alert drivers when it determines potential frontal impact is possible and can even apply the brakes to help avoid or reduce the collision impact.

Road Departure Mitigation (RDM)

RDM alerts the driver to an unintentional departure from a detected lane or roadway. The feature is able to apply steering torque and braking to help keep the vehicle on the roadway.

Adaptive Cruise Control (ACC) with Low-Speed Follow

ACC helps maintain a set speed and interval behind the vehicle detected ahead. The low-speed feature can bring the vehicle to a complete stop if the detected vehicle slows to a stop.

Lane Keeping Assist System (LKAS)

LKAS applies steering assistance at higher speeds, helping to keep your Acura centered in the detected lane.

Pedestrian Detection

System is part of CMBS and is used to help detect pedestrians and alerts the driver with audio and visual warnings. It may apply the brakes if needed to help avoid a collision.

Traffic Sign Recognition

Can detect speed limit signs and display that information on your dash and the available head-up.

Blind Spot Information System

Monitors the rear and sides of your RDX to help you detect vehicles in the alert zone of adjacent lanes.

Rear Cross Traffic Monitor

This feature helps to detect vehicles approaching from either side when the RDX is in reverse.
