TOYOTA

GR 86

86 the limits.

Raise your adrenaline and rpm every time you're behind the wheel of the 2025 Toyota GR86. Its iconic, race-ready heritage gets the most out of the twists and turns of your daily drives. Let the 2.4L boxer engine roar and unleash an impressive 228 hp[1] and 184 lb.-ft. of torque to quickly get you up to speed. Feel it come to life around each bend with buttery-smooth motion, whether you decide to take on the racetrack or the roadway.

GR TOYOTA GAZOO Racing

Born on the track. Bred for the streets.

Passion fuels innovation, and it's our passion for motorsports that fuels Gazoo Racing (GR), Toyota's global racing division. Racing gives us the opportunity to challenge ourselves — to push the limits and create better cars. Collectively, we grow through every turn of the wrench and every turn of the wheel. This dedication led us to develop GR86, making racing-inspired sports cars accessible to the everyday driver.

Racing vehicle not for sale.

Motorsports DNA

Gazoo Racing started with our unrelenting passion for motorsports and led to high-performance road cars with the DNA of motorsports. With heavy involvement from professional drivers and a track-proven formula for optimal engineering, the GR series was designed to leave a lasting impression.

Track-tested

Fine-tuned by track-proven drivers and master drivers like Akio Toyoda himself, every vehicle that's earned the GR badge has been thoroughly pushed, honed and perfected through extensive testing at racetracks across the globe.

Hakone Edition shown in Ridge Green. Prototype shown.

GR86 HAKONE EDITION

Branching into uncharted territory.

Channeling the fierce, exhilarating spirit of the lush Hakone Forest, the GR86 Hakone Edition exudes refined craftsmanship in its thoughtful details, from its premium Ultrasuede®[2] and Tan leather-trimmed interior to its leather-trimmed key glove and leather owner's folio. In the GR86 Hakone Edition, you are immersed in an inspiring drive that fuels your connection to the open road.

Eye-catching exterior

GR86 Hakone Edition's striking Ridge Green exterior captures the rich essence of the Hakone Forest. The special edition's rear badging and exclusive puddle lights flaunt its heritage, demanding attention wherever its roar echoes.

18-in. alloy wheels

Stand out when you pull up with 18-in. alloy wheels in a matte-bronze finish, and maintain control on the road with Michelin®[3] Pilot® Sport 4 tires[4] that grip the road in wet or dry conditions.

See numbered footnotes in Disclosures section.

DESIGN

Designed for the win. Delivering the thrills.

GR86's sleek, aerodynamic profile boasts aggressive, racing-inspired proportions, with its long hood and short rear deck. Underneath, almost every component, from its powertrain to its body panels, has been optimized to be as light as possible, leaving you with near-perfect weight distribution that creates a highly responsive driving experience.

Premium shown in both Halo and Track bRED (extra-cost colors). Prototypes shown.

Optimized body structure

Feel the road's embrace as you hug every bend. With a unibody frame that blends high-strength steel and lightweight aluminum, you have a top-notch platform for precise handling. Its low-mounted engine drops the center of gravity for more stability on every curve.

Driver-centric interior

Awaken your inner champion from the moment you step in. From turbine-style air vents and a dual zone climate control system to its premium dashboard, center console with available black toggles, and aluminum sport pedals, GR86's interior is race-track ready. When you need more track-day essentials, just fold the rear seats for an extra set of tires.

Leather-trimmed driver touchpoints

Adding touches of comfort while showing off GR86's sophisticated side are standard all-black leather touchpoints. From a leather-trimmed steering wheel to a leather-wrapped parking brake handle and available heated leather-trimmed seats, it's about more than just function.

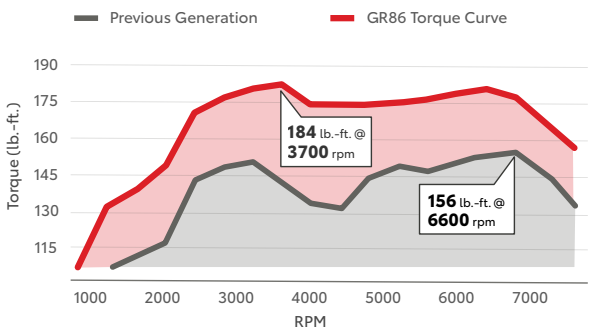

Premium shown in both Halo and Track bRED (extra-cost colors).

PERFORMANCE

Stay ahead of the curve.

GR86 pushes you to outperform normal. Its front-engine, RWD layout propels you forward with impressive acceleration and provides you with a balanced drive through twists and turns. With its lightweight body, GR86 drives like a pro and adds excitement to each drive.

Optimized torque curve

Born to take on the track, GR86's optimized torque curve keeps the G-forces on tap as you accelerate. This provides more usable power in the lower rpm range as you reach 184 lb.-ft. of peak torque, to help keep you planted in your seat.

2.4L 4-cylinder boxer engine

A 2.4L flat-four boxer engine that pumps out 228 horsepower[1] is impressive enough, but because it sits low in the chassis, the center of gravity is optimized to help GR86 carve those corners.

6-speed Manual or Automatic Transmission

Choose your thrill. Whether you're rowing through the gears of a 6-speed close-ratio Manual with a short-throw shifter or triggering the paddle shifters of the 6-speed Automatic with Dynamic Rev Management, GR86 will be ready for your next move.

Track Mode

Turn on Track Mode to change the tach's display and bring important info like rpm and gear into focus. Vehicle Stability Control (VSC)[5] is also dialed back to help you reach the limits of grip, while Full-Off Mode prevents VSC from kicking in, putting you in full control.

See numbered footnotes in Disclosures section.

HANDLING

Blow everyone away.

GR86 is about the connection between you and the road. Its lightweight body and low center of gravity give you the agility to handle twists and turns, while its available 18-in. matte-black-painted alloy wheels with Michelin®[3] Pilot® Sport 4 tires[4] provide a tighter grip on the road.

Front-fender air vents

The aggressive front fenders with functional air vents help channel air around the car, for more driving stability.

Track-tuned suspension and limited-slip differential

GR86's multi-link rear suspension and stabilizer bars allow smooth wheel travel to help sharpen turns and enhance grip over uneven surfaces. During low-traction situations, a Torsen®[6] limited-slip differential (LSD) helps improve low-end acceleration by automatically distributing power to the wheel that needs it.

See numbered footnotes in Disclosures section.

TECHNOLOGY

Up to speed with the latest tech.

Premium interior shown in Alcantara®7 and Black leather trim. Apple CarPlay®8 compatibility shown. Screen depiction accurate at time of posting.

8-in. Toyota Audio Multimedia touchscreen

GR86's 8-in. touchscreen comes standard with Apple CarPlay®8 and Android Auto™9 compatibility. Get directions, have your messages read aloud to you, and text back by voice, all while keeping your hands on the wheel.

Digital gauge cluster

Get all the vital info you need at a glance. From the moment you power it up, GR86's fully digital instrument display welcomes you with a reminder of the FA24 boxer engine inside. The configurable 3-mode gauge cluster display allows you to toggle between Normal, Sport or Track Modes, and change the way the tachometer animates.

Simulation shown with available 10-in. powered subwoofer accessory.

Eight speakers

Just like the engineering under the hood, GR86's speaker system is designed to amplify every drive. Cleaner, crisper and more dynamic, its available 8-speaker sound system delivers enhanced sound quality, while an available 10-in. powered subwoofer is ready to add more bass to your playlist.

See numbered footnotes in Disclosures section.

SAFETY

Peace of mind for the road ahead.

It's not just the performance that's advanced. GR86 is available with some of the latest safety technologies to help keep you safe from start to finish.

GR86 Active Safety Suite

GR86 comes standard with a number of intelligent safety and convenience features,[10] including a Pre-Collision Braking System (PCBS),[11] Pre-Collision Throttle Management, Adaptive Cruise Control (ACC)[12] (AT only) with Lead Vehicle Start Alert, Lane Departure Warning with Sway Warning,[13] and Automatic High Beams.[14]

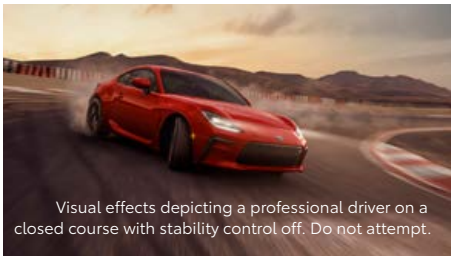

Blind Spot Detection and Rear Parking Sonar

The available Blind Spot Detection (BSD)[15] warns you when a vehicle in the next lane enters GR86's blind spot. And when you're in reverse, available Rear Parking Sonar with Reverse Automatic Braking[16, 17] (AT only) uses sensors on the rear bumper to detect obstructions behind the vehicle. If detected, the system can alert the driver with warning sounds and automatically apply the brakes to avoid a collision or reduce collision damage.

LED lighting with Adaptive Front-Lighting System

The eye-catching headlights on GR86 feature LED Daytime Running Lights (DRL) and an available Adaptive Front-Lighting System (AFS).[18] At night, the AFS headlights turn alongside the front wheels, helping you see better around the next corner.

Seven airbags

With safety as a priority, GR86 comes standard with a driver and front passenger Advanced Airbag System:[19] front seat-mounted side airbags, side curtain airbags, and driver's knee airbag.

No cost maintenance plan and Roadside Assistance

Every new GR86 comes with ToyotaCare,[20] a maintenance plan that covers normal factory scheduled service for 2 years or 25,000 miles, whichever comes first, and 24-hour Roadside Assistance for 2 years, unlimited mileage.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

Third-party accessories are not designed, manufactured or evaluated by Toyota. The accessories and any damage to other components or altered performance of the vehicle that may be caused by the accessories are not covered by your vehicle's warranty, and Toyota disclaims all liability therefor. See third-party warranty website for information on the applicable third-party accessory.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Warranty and Maintenance Guide* or see your Toyota dealer.

DISCLOSURES

1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 93 or higher. If premium fuel is not used, performance will decrease. If unleaded gasoline with an octane rating of 93 (98 RON) is not available, unleaded gasoline with an octane rating of 91 (95 RON) may be used with no detriment to engine durability or drivability. **2**. Ultrasuede® is a registered trademark of Toray Industries, Inc. **3.** Michelin is a registered trademark of Michelin North America, Inc. **4.** Performance tire life may be substantially less than mileage expectancy, depending on driving conditions. **5.** Vehicle Stability Control is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and steering input can affect whether VSC will be effective. See *Owner's Manual* for limitations. **6.** Torsen® is a registered trademark of Zexel Torsen, Inc. **7.** Alcantara® is a registered trademark of Alcantara S.p.A. **8.** Requires compatible iPhone® with an active data plan tethered with an approved data cable. Operability depends on network availability, a cellular connection, and GPS signal. Services vary by vehicle and are subject to change at any time without notice. Data charges may apply. To learn more, go to https://www.toyota.com/audio-multimedia/. To learn more about Toyota's Connected Services data collection, use, sharing, and retention practices, please visit https://www.toyota.com/support/privacy-notice/. Apple CarPlay® is a registered trademark of Apple Inc. **9.** Compatible Android phone and compatible active data plan required. Phone must be tethered with an approved data cable. Operability depends on network availability, a cellular connection and GPS signal. Services vary by vehicle and are subject to change at any time without notice. Data charges may apply. Android and Android Auto are trademarks of Google LLC. **10.** GR86 Active Safety Suite effectiveness is dependent on many factors including road, weather and vehicle conditions. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. See *Owner's Manual* for limitations. **11.** The Pre-Collision Braking System (PCBS) is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. PCBS is not a substitute for safe and attentive driving. System effectiveness depends on many factors including road, weather and vehicle conditions. **12.** Adaptive Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **13.** Lane Departure Alert with Sway Warning System is designed to read visible lane markers under certain conditions and provide visual/audible alerts when lane departure is detected or when detecting patterns of vehicle movements indicating driver inattentiveness. It is not a collision-avoidance system or substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See *Owner's Manual* for limitations. **14.** Automatic High Beams operate at speeds above 21 mph. See *Owner's Manual* for instructions and limitations. **15.** Do not rely exclusively on Blind Spot Monitor. Look over shoulder and use turn signal. See *Owner's Manual* for limitations. **16.** Rear parking assist sonar is designed to warn drivers of potential rear collisions at speeds of 6 mph or less. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the rear parking assist sonar to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See *Owner's Manual* for additional limitations and details. **17.** Available on Automatic Transmission models only. **18.** The Adaptive Front-Lighting System helps improve night vision. Situations such as a dirty windshield, rapidly changing light conditions or hilly terrain may limit effectiveness, requiring the driver to manually turn off the system. See *Owner's Manual* for additional limitations and details. **19.** Airbag systems supplement the seatbelts and are designed to inflate only under certain conditions and in certain types of severe collisions. Always wear seatbelt, sit upright in middle and as far back in seat as possible to help decrease risk of injury. Do not put objects in front of an airbag. See *Owner's Manual* for limitations. **20.** ToyotaCare covers normal factory scheduled maintenance for 2 years or 25,000 miles, whichever comes first, and 24/7 Roadside Assistance is for 2 years/unlimited mileage (note: ToyotaCare for Mirai is 3 years/35,000 miles and Roadside Assistance for Mirai, bZ4X, Prius, and Prius Prime is 3 years/unlimited mileage). Roadside Assistance does not include parts and fluids, except limited emergency gas delivery. Towing distance up to 25 miles. Restrictions apply. Available in the continental U.S. and Canada. See Toyota dealer for details and exclusions. **21.** Service will automatically stop at the end of your trial subscription period unless you decide to continue service. Trial is non-transferable. If you do not wish to enjoy your trial, you can cancel by calling the number below. All SiriusXM services require a subscription, each sold separately by SiriusXM after the trial period. Service subject to the SiriusXM Customer Agreement and Privacy Policy, visit siriusxm.com for complete terms and how to cancel which includes online methods or calling 1-866-635-2349. Some services and features are subject to device capabilities and location availability. Satellite service not available in AK & HI. Content varies by SiriusXM subscription plan. Trial period begins on original purchase or lease date of new vehicle. Paid subscription required after trial (if applicable). Terms of Use apply. **26.** Do not rely exclusively on the Rear Cross-Traffic Alert. Visually confirm clearance during use. See *Owner's Manual* for limitations. **27.** SACHS® is a registered trademark of ZF Friedrichshafen AG. **28.** High-friction brakes may require more maintenance, be louder and have a shorter life than conventional brakes, depending on driving conditions. See the Warranty and Services Guide for more information. Brembo® is a registered trademark of Freni Brembo SpA. **29.** This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. **30.** Extra-cost color. **31.** HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. **32.** Genuine Toyota Paint Protection Film by 3M™ is designed for specific sections of the vehicle most prone to chipping and may vary depending on vehicle model. Select applications may require an additional charge. Toyota Genuine Accessory Warranty only applies when installation is performed by a trained Toyota-approved installer. See Toyota dealer for details. **33.** Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print). **34.** May not be compatible with all mobile phones, smart devices, tablets, e-readers, MP3/WMA players and like models. **35.** Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See *Owner's Manual* for additional limitations and details. **36.** The backup camera does not provide a comprehensive view. Always look over shoulder and use outside mirrors. See *Owner's Manual* for limitations. **37.** Hill Start Assist Control is designed to minimize backward rolling on steep ascents. Not a substitute for safe driving judgment and practices. Speed, grade, surface conditions, driver input, etc., can all affect HAC function. See *Owner's Manual*. **38.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See *Owner's Manual* for limitations and details. **39.** The engine immobilizer is a state-of-the-art anti-theft system initiated when the key is inserted into ignition switch or a Smart Key fob is in/near the vehicle. Engine will only start if the code in the transponder chip inside the key/fob matches the code in vehicle's immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. For lost key or fob, see a Toyota dealer or go to www.aloa.org to find a qualified locksmith for high-security key service. **40.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers. **41.** Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. **42.** EPA-estimated 21 city/30 hwy/24 combined mpg for 2025 GR86, GR86 Premium and GR86 Hakone Edition with Automatic Transmission; EPA-estimated 20 city/26 hwy/22 combined mpg for 2025 GR86, GR86 Premium and GR86 Hakone Edition with 6-speed Manual Transmission. Use for comparison purposes only. Your mileage will vary for many reasons, including your vehicle's condition and how/where you drive. See www.fueleconomy.gov.
