

THE 2023  
ESCALADE

# DISCOVER INNOVATION

## HANDS-FREE SUPER CRUISE

The 2023 Escalade features available Super Cruise,<sup>™</sup> the first truly hands-free driver-assistance technology. Super Cruise now includes Automatic Lane Change, allowing your Escalade, when enabled, to change lanes without driver input.

## INDUSTRY-FIRST CURVED OLED WITH 38" OF TOTAL DIAGONAL DISPLAY

The industry's first curved OLED display has twice the pixel density of a 4K TV. This leading-edge technology enables bold imagery, perfect blacks and an expansive color range. And, the reconfigurable Cluster Display allows the driver to select between Gauge View, Map View, AR Camera View and available Night Vision.

## NAVIGATION

The navigation view provides an immersive, full-screen map that allows you to personalize the experience by selecting your preferred map mode, point of interest view, landmark view, route options, alert preferences, and more.

## AUGMENTED REALITY-ENABLED NAVIGATION

Working in tandem with navigation, this viewing mode projects a live street view in front of the vehicle onto the Cluster Display. Turn indicators that increase in size as you get closer to your turn, the street name and distance to turn, as well as the time of arrival to your destination are all overlaid on the screen.

## GAUGE VIEW

This view not only highlights the speed of the vehicle, but also includes two reconfigurable zones on the left and right of the speedometer. The left zone can display time and date or vehicle information such as tire pressure and brake pad wear, while the right zone can display navigation, radio information and even phone calls.

## AVAILABLE NIGHT VISION SYSTEM

When the Night Vision view is selected in the Cluster Display, the Night Vision system can help you see beyond your headlights with a thermal image that highlights and alerts you to detected pedestrians or large animals directly ahead of the vehicle—helping to instill confidence on night drives.

## FULL-COLOR HEAD-UP DISPLAY

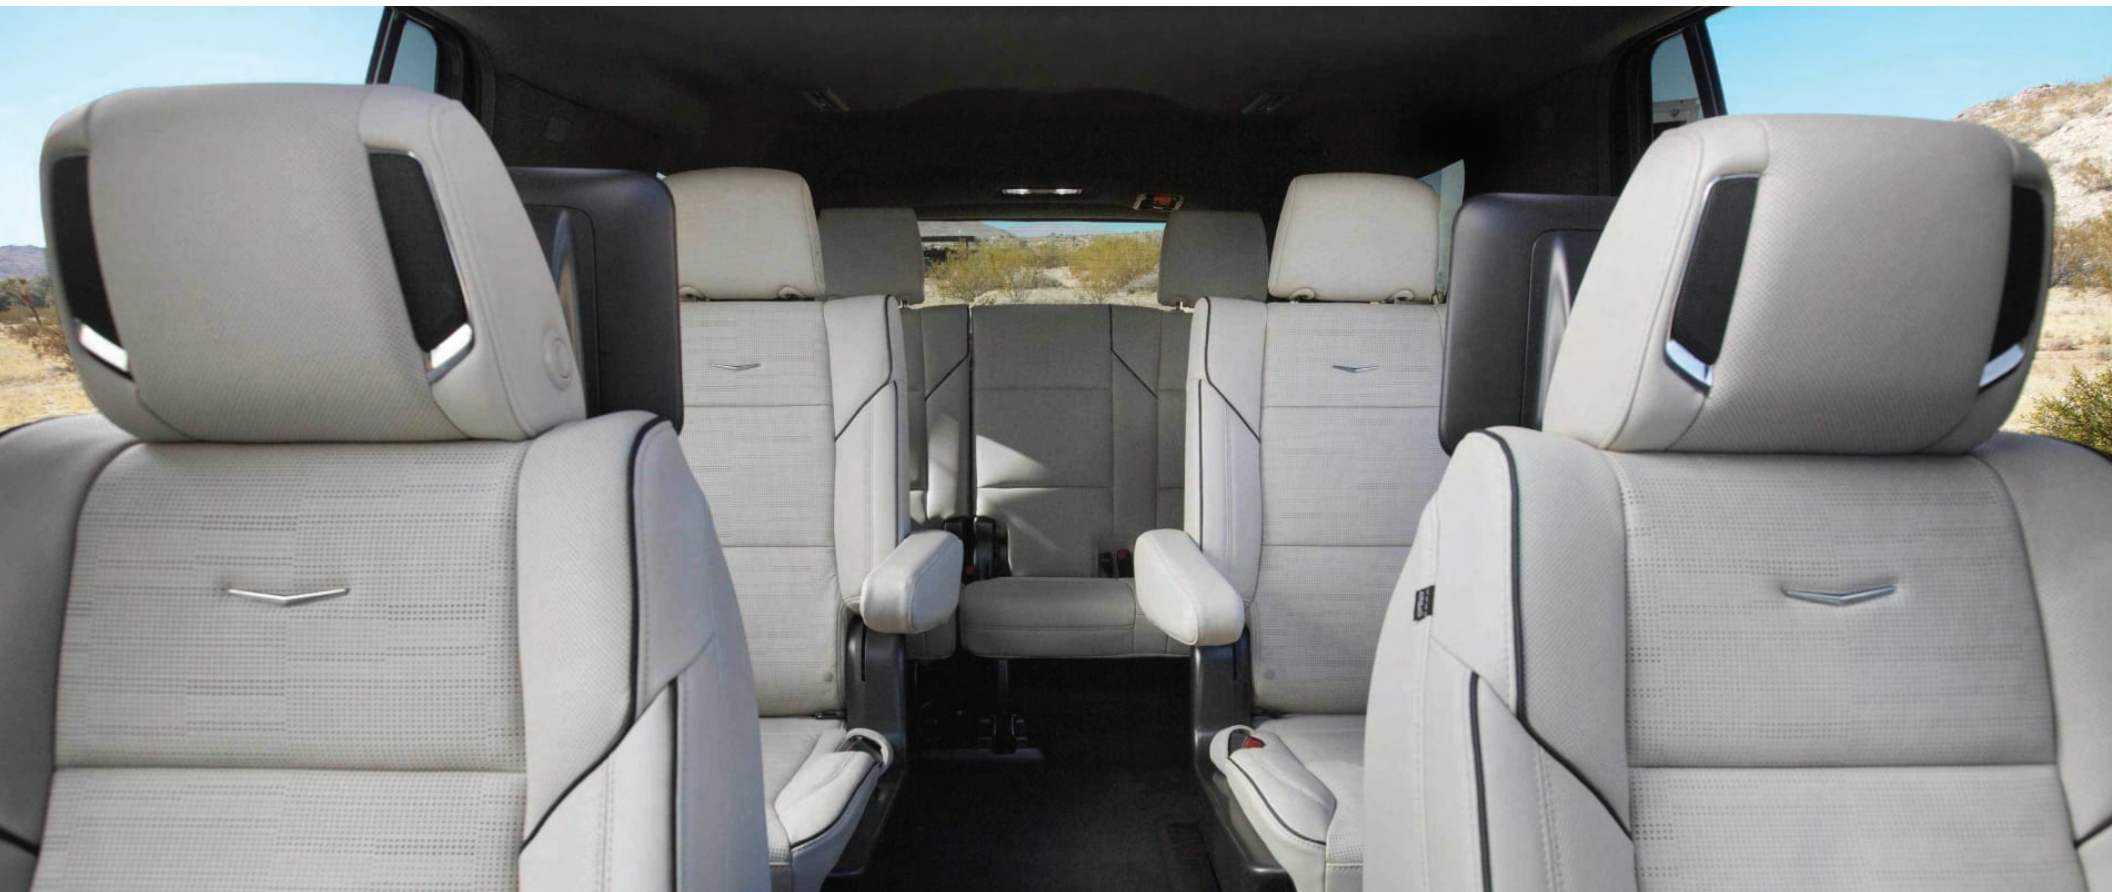

Keep your goals clearly in front of you. This available feature projects key information—including speed, navigation, phone and music details—onto the windshield in your line of sight, helping you stay focused on the road ahead.

## AKG HIGH- FIDELITY SOUND

The standard AKG Studio 19-speaker audio system brings professional high-fidelity sound to the 2023 Escalade. True audiophiles will appreciate the available AKG Studio Reference audio system that provides 36 speakers—the most available speakers in its class. Turn the cabin into an immersive, 360-degree listening experience with features such as Front-Passenger Audio Volume Control, which enables the front passenger to adjust the volume for their seat.

## CONVERSATION ENHANCEMENT

Conversation Enhancement in the AKG Studio 19-speaker audio system makes communicating inside the vehicle easier by using a microphone array in the first row that picks up first-row voices and projects them to the rear via the second- and third-row speakers. For the available AKG Studio Reference 36-speaker audio system, there is an additional microphone array in the rear of the vehicle that picks up rear voices and projects them to the front via the front-row speakers.

# OWN THE ROAD

## LUXURY

Part technological masterpiece, part red-carpet showstopper. The Luxury trim sets you apart with innovative features and bold, iconic design.

## PREMIUM LUXURY

The Premium Luxury trim takes attention-grabbing style to the next level with available Super Cruise hands-free driver-assistance technology, the first truly hands-free driver-assistance feature for compatible highways.

## SPORT

Performance takes center stage in the Sport trim. Gloss-Black exterior accents amplify a powerful presence while the standard Performance Package makes every journey a thrill ride.

## PREMIUM LUXURY PLATNUM

Discover your mobile VIP experience. With cutting-edge technology features like the AKG 36-Speaker Studio Reference audio system—the most available speakers in its class—the Premium Luxury Platinum trim represents the height of Cadillac craftsmanship.

## SPORT PLATNUM

The Sport Platinum trim is all about power with exceptional presence. An exquisitely crafted interior with full Semi-Aniline leather seats joins a commanding exterior presence and leading-edge advancements like available Super Cruise hands-free driver-assistance technology and the standard AKG 36-speaker Studio Reference audio system to create the ultimate Escalade experience.

## ESCALADE - V

Escalade-V comes in two body styles: the Escalade-V and the longer Escalade ESV-V. Both are stunning marvels of engineering, combining luxury and performance in an extraordinary new way.

# FOCUS ON THE FINER THINGS

## METICULOUS LEATHER DETAILING

Choose from trims and available leather appointments that are crafted with care and precision, meeting with flawless seams and peerless stitching.

## ULTRAVIEW SUNROOF

Equipped with tilt, slide and express-open and-close features, all is revealed with the available UltraView sunroof that serves you and your passengers stunning views from both the front and rear seats.

## HEATED AND VENTILATED MASSAGING FRONT SEATS

Available 16-way power-adjustable heated, ventilated and massaging front seats with Semi-Aniline leather help you stay comfortable and energized, especially in weather extremes, on long drives or after a busy day of pursuing your ambitions.

## AMBIENT INTERIOR LIGHTING

Ambience on demand. Ambient Interior Lighting and light pipes cast a comfortable glow of 26 color options inside Escalade.

## HVAC PIANO KEYS

Elegantly tactile, these piano key-inspired HVAC controls add subtle design flair to your selection of climate preferences.

## NATURAL WOOD-TRIM FINISHES

Obsessive craftsmanship is evident everywhere you look with rich, deeply grained wood trim superbly finished with meticulous attention to detail.

## SPACE FOR ALL. AND THEN SOME.

Experience next-level spaciousness no matter where you sit with 34.9" of third-row leg room in the standard-wheelbase Escalade and 121.0 max cubic feet of cargo room. In Escalade ESV, you'll get 36.6" of third-row leg room plus 142.8 max cubic feet of segment-leading cargo room. So, get comfortable.

## 6.2L V8 ENGINE

The standard 6.2L 420-hp V8 is paired with an intelligent 10-speed automatic transmission that moves among gears in a smooth, efficient fashion. Engine technologies such as Continuously Variable Valve Timing, Direct Injection and Dynamic Fuel Management also help ensure this power plant's 460 lb-ft of torque (623 Nm) is harnessed efficiently.

## DURAMAX 3.0L TURBO DIESEL 6-CYLINDER ENGINE

The available Duramax 3.0L Turbo Diesel 6-cylinder engine paired with a 10-speed automatic transmission helps deliver immediate power performance at a moment's notice.

## MAGNETIC RIDE CONTROL

Available Magnetic Ride Control reads the road 1,000 times per second to make your drive responsive and smooth—that means the vehicle is reading every inch of the road at 60 mph.

## AIR RIDE ADAPTIVE SUSPENSION

Escalade's available Air Ride Adaptive Suspension provides improved and refined ride and handling during a variety of driving situations, from low-speed off-road maneuvering to highway cruising. The system's electronically controlled air compressor is connected to all four air springs, giving the ability to change vehicle ride height a total of almost 4" from its lowest to highest setting.

# COMMANDING CONNECTIVITY

## AMAZON ALEXA BUILT-IN

The Alexa functionality you enjoy at home is now fully integrated into the Cadillac user experience. With Amazon Alexa Built-In capability, you can ask Alexa to stream your favorite music, get directions, make calls, change your radio stations and more. Ask anything. Alexa's on board.

## MYCADILLAC MOBILE APP

While you're on the go, you're in tune with your vehicle with the available myCadillac Mobile App. Send remote commands, manage and schedule your vehicle's maintenance, set and share custom location notifications and control your vehicle from the same device you use to control other parts of your life.

## WI-FI® HOTSPOT

With the available Wi-Fi® Hotspot capability, the connectivity you're accustomed to travels with you on the road. You can stop and work while your passengers are entertained, all while on the go. Discover Wi-Fi plans and pricing to select the package that best suits your lifestyle.

# SAFETY

## HD SURROUND VISION

Available HD Surround Vision combines the view of four different cameras—the HD Rear Vision Camera, a forward-looking camera and two side-looking cameras—to display a digital overhead image of the area around your vehicle. You can also select additional views on your camera display. It works at low speeds, helping you park and avoid nearby objects.

## REAR PEDESTRIAN ALERT

Rear Pedestrian Alert can help alert you to detect pedestrians directly behind the vehicle to help avoid a collision. The system works when you're in Reverse during the daytime. It has limited nighttime and low-visibility performance.

## FRONT PEDESTRIAN BRAKING

Front Pedestrian Braking can help you avoid or reduce the severity of a collision with a pedestrian it detects directly in front of you. It provides alert via haptic seat feedback and can even automatically provide hard emergency braking or enhance the driver's hard braking. The system works at speeds below 50 mph during the daytime. It has limited nighttime and low-visibility performance.

## LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT

Available Lane Change Alert with Side Blind Zone Alert can provide side-mirror visual alerts when a detected moving vehicle is quickly approaching or is in your side blind zone. It can help you avoid lane-change collisions.

## REAR CROSS TRAFFIC ALERT

Available Rear Cross Traffic Alert can warn you of detected left or right cross traffic behind your vehicle when you're in Reverse. Red flashing triangles are shown on the Rear Vision Camera display with arrows pointing to the direction of the approaching vehicle. Additionally, three directional beeps or three left- or right-side Safety Alert Seat pulses are provided.

## ENHANCED AUTOMATIC PARKING ASSIST

Available Enhanced Automatic Parking Assist can search for a parallel or perpendicular parking space, then steer and brake your vehicle into that space while shifting gears as needed. It can also help you unpark your vehicle after parallel parking. While the feature parks or unparks, you need to remain in your vehicle and be prepared to override and take control.

# GO CONFIDENTLY WITH THE CADILLAC SMART SYSTEM

In a world of unpredictability, the Cadillac Smart System™ offers proactive peace of mind. This comprehensive suite of standard driver-assistance features helps inspire confidence on your journey—whether you're backing out of your driveway or boldly taking on the road ahead.
