Top track speed

Z06

The Corvette Z06 is a street-legal track weapon, co-developed with the championship-winning GT3.R race car. Its 670-horsepower flat-plane crank V8 is the most powerful naturally aspirated V8 ever in a production car — delivering raw, visceral performance without compromise.

670

Avail. quarter-mile at 130 mph

ZR1

ZR1 redefines Corvette performance with a twin-turbocharged 5.5L flat-plane crank V8 — the most powerful engine ever offered in a production Corvette. Engineered to push the limits of performance and innovation, it fuses advanced aerodynamics, cutting-edge technology and precision handling to rival the world's most elite supercars.
