Premium Materials

Immerse yourself in softer, more sophisticated materials—executed with an elevated level of precision.

Sublime Sound

Enjoy more immersive sound with an audio system designed by Tesla, with up to 17 speakers, dual subwoofers and dual amplifiers.

Rear Display

Rear passengers have access to an 8” touchscreen with climate controls and entertainment.

Ventilated Seats

Ventilate your front seats from your phone ahead of time or set them to adjust automatically with climate controls.

Wireless Charging

Charge two phones at the same time and enjoy crystal-clear calls thanks to upgraded microphones.

A Quieter Cabin

Enjoy a whisper-quiet cabin, thanks to 360-degree acoustic glass. Take in the sky underneath an all-glass roof that lets in light while protecting you from harmful UV rays.

Elegant Technology

Your favorite game, movie or song is just a few taps away. Use the center touchscreen to stream media, customize your vehicle, navigate to your destination and more.

Remote Access

Control everything from one do-it-all Tesla app such as controls, cabin preconditioning, and charging.

Dog Mode

Keep your furry friends comfortable while you're away from your vehicle.

Camp Mode

Maintain cabin temperature and keep the entertainment system on overnight.

Sentry Mode

Monitor your vehicle's surroundings and receive alerts of potential threats to your phone.

Charging At Home

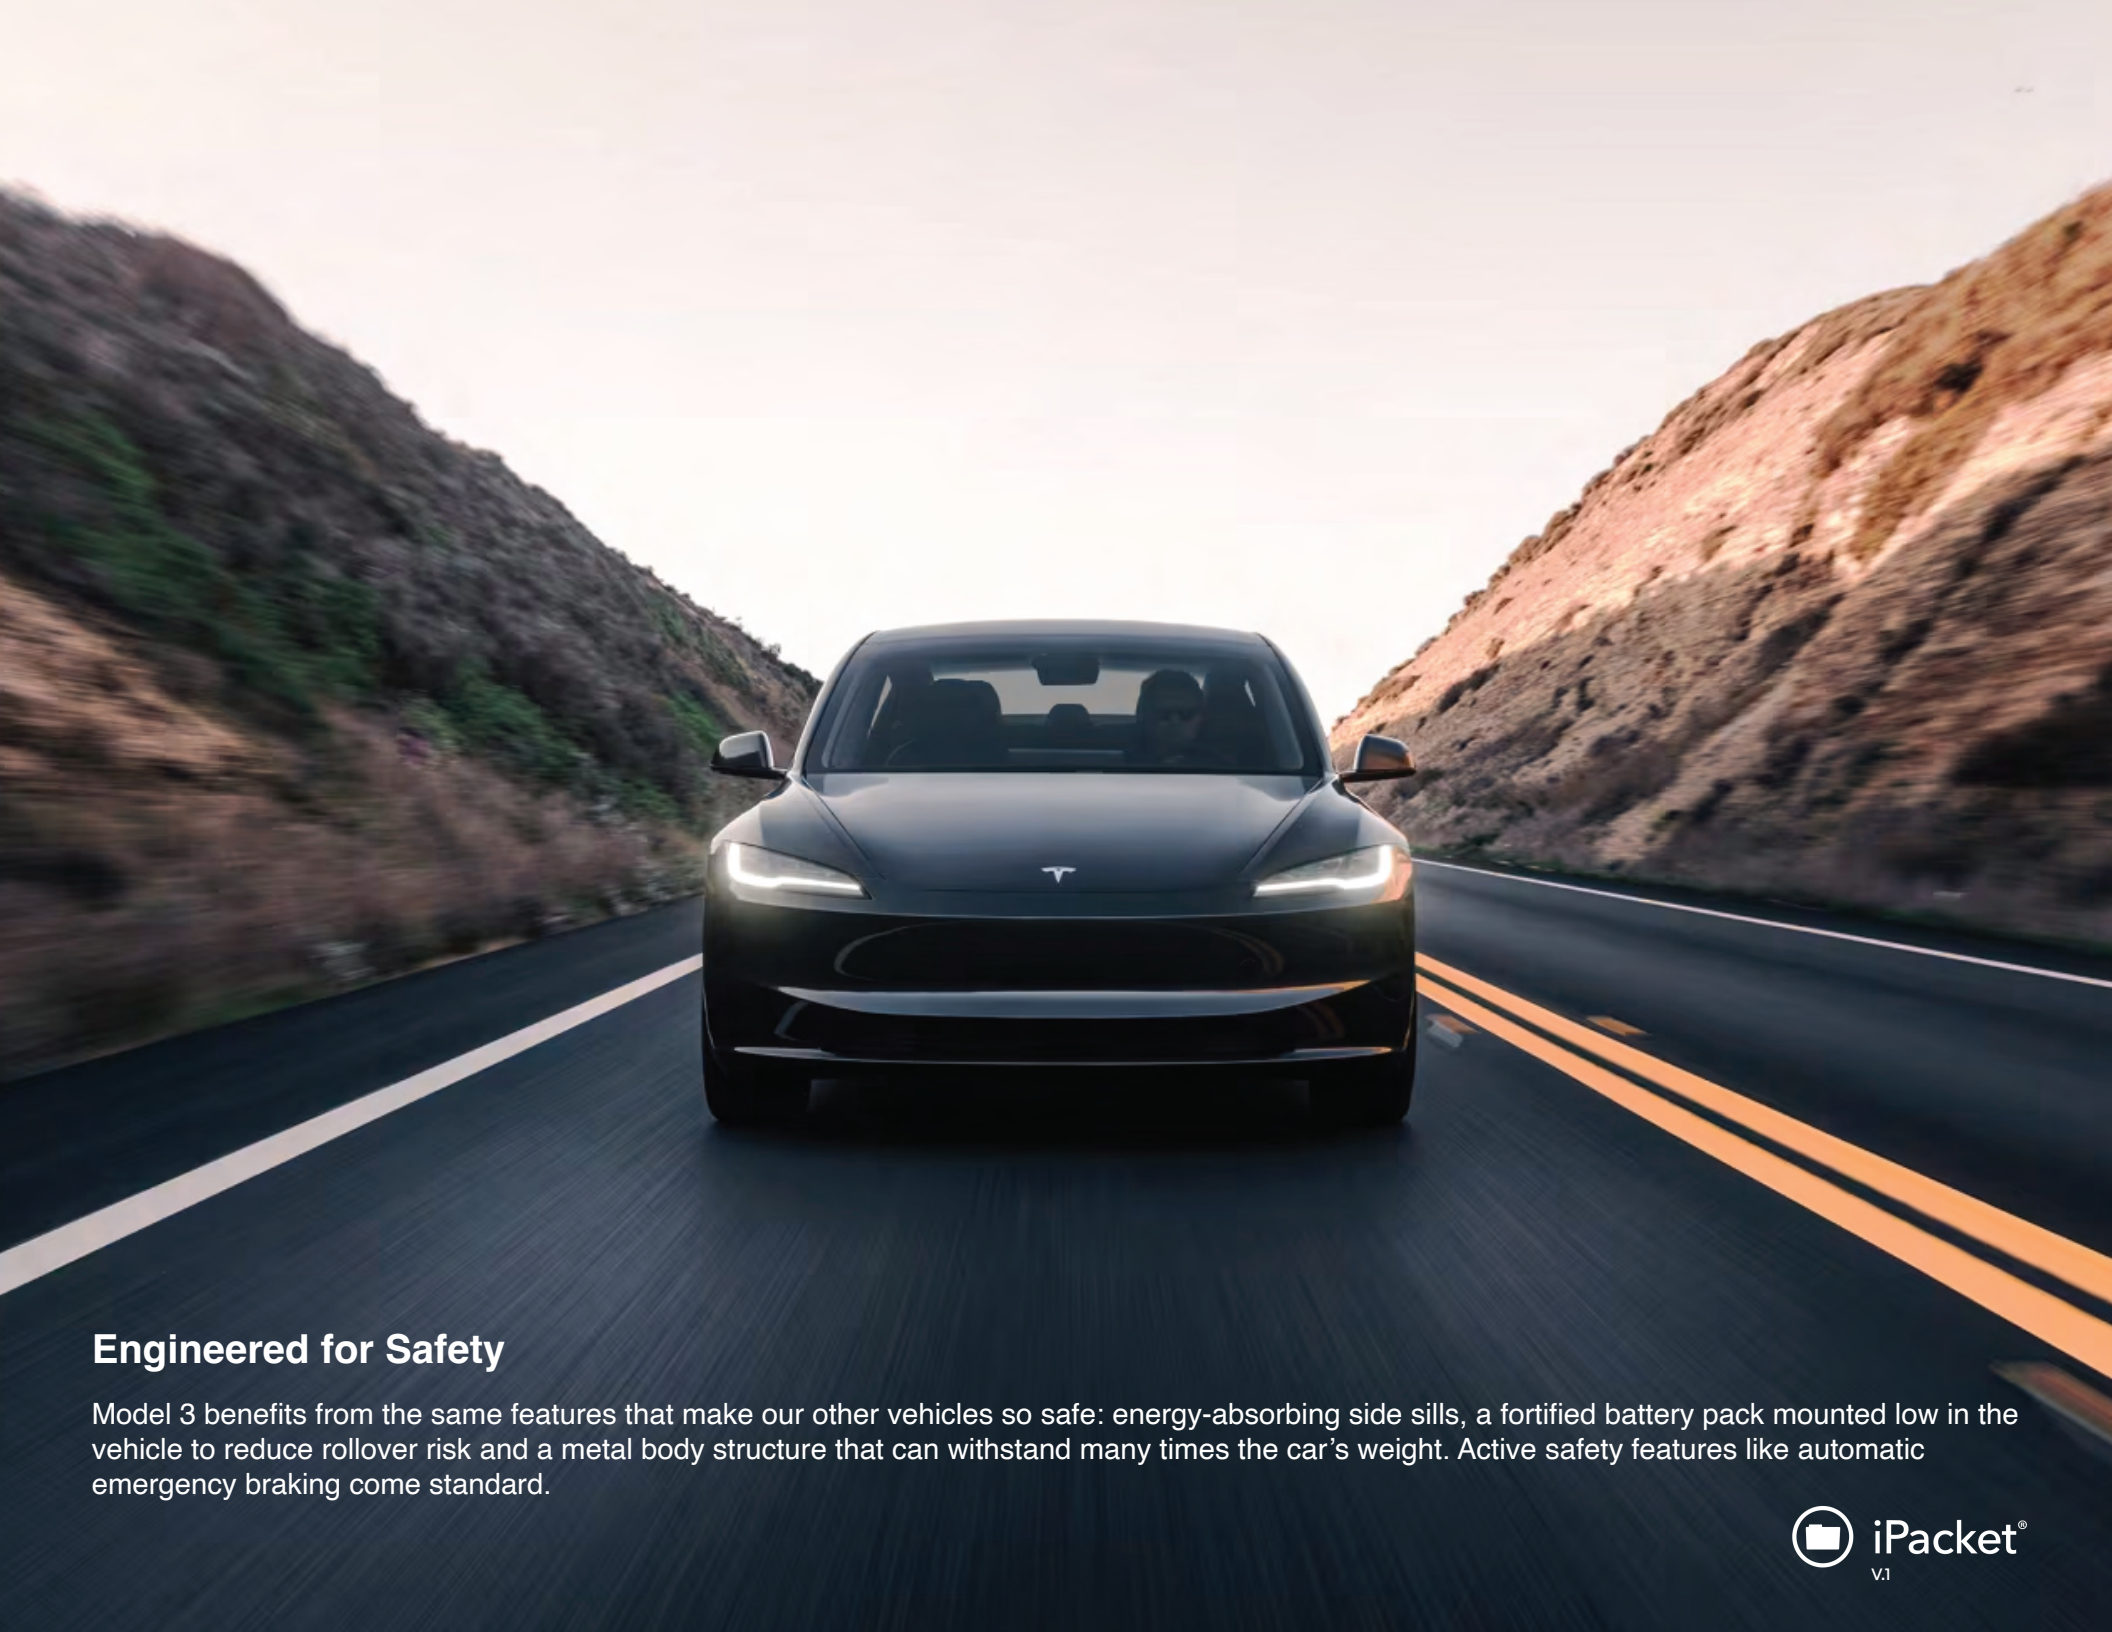

Our most convenient and affordable way to charge.

Charging On the Road

Add up to 195 miles in just 15 minutes at one of 70,000+ global Superchargers.

Charging Where You Park

Plug in at your destination, whether it's a hotel, park, or somewhere else.

Engineered for Safety

Model 3 benefits from the same features that make our other vehicles so safe: energy-absorbing side sills, a fortified battery pack mounted low in the vehicle to reduce rollover risk and a metal body structure that can withstand many times the car's weight. Active safety features like automatic emergency braking come standard.
