

THE 2024

CT5

MODELS

LUXURY

With full-LED exterior lighting, a turbocharged engine and the sophisticated Cadillac Smart System™, the Luxury model is a powerful work of modern art.

PREMIUM LUXURY

The Premium Luxury model stands out with cutting-edge tech including Adaptive Cruise Control and other upgrades such as an available 3.0L Twin Turbocharged V6 engine.

SPORT

With carbon fiber interior trim, alloy driver pedals and a performance steering wheel with alloy paddle shifters, the Sport model is an outward expression of CT5's athletic prowess.

CRAFTED TO REWARD YOUR DRIVEN SPIRIT

CRAFTED TO REWARD YOUR DRIVEN SPIRIT

From its full breadth to its most intricate detail, the CT5 interior impresses with abounding refinements. Fine stitching on the leather-wrapped, three-spoke steering wheel lends an air of obsessive craftsmanship, while sculpted grips and available Alloy Paddle Shifters offer a not-so-subtle reminder—you're gripping the wheel of a true performance luxury sedan.

CARBON-FIBER DETAILS

The Sport model offers four available interior environments, each with genuine carbon-fiber decorative trims.

FINE LEATHER DETAILING

The Premium Luxury and Sport models each offer supple leather seating surfaces, with the available high-end Platinum Package delivering Semi-Aniline full-leather seats as well as leather-trimmed armrests and other touch points. Look closely and discover a fading perforation pattern—another hallmark of Cadillac elegance and attention to detail.

MORE POWER TO YOU

AERODYNAMIC DESIGN

Athletic design and aerodynamic efficiency don't have to be mutually exclusive. Cadillac engineers worked tirelessly to give CT5 style that slips through the wind, rigorously testing every component that touches airflow and optimizing its shape, creating a driving experience that's as exhilarating as it is efficient.

FRONT FASCIA AIR CURTAIN

On CT5, Cadillac signature vertical lamps do more than slice through the night—they slice through the air, thanks to vertical ducts that channel air through the fascia and around the front wheels. This reduces vehicle drag by optimizing aerodynamic flow, resulting in an intelligent melding of design and functionality.

POTENT SOURCES OF POWER

Beneath CT5's muscular exterior lies the heart of its power. Or, more accurately, two hearts. The available 3.0L Twin Turbocharged V6 engine delivers 335 horsepower and an incredible 405 lb-ft of torque (550 Nm), which gives you that exhilarating feeling of liftoff as you press the accelerator. More efficiently minded? Choose the standard 2.0L Twin-Scroll Turbocharged I-4 engine that provides a considerable punch of its own.

10-SPEED TRANSMISSION

The advanced 10-speed automatic transmission is paired with the latest generation of Electronic Precision Shift, which replaces the traditional shifter with a sleek, console-mounted lever that shifts gears electronically. And for the tactile thrill of control, CT5 features standard paddle shifters.

V-PERFORMANCE PACKAGE

CT5 Sport shares DNA with its legendary Cadillac V-Series brethren. The available V-Performance Package includes a mechanical limited-slip differential and the latest generation of Magnetic Ride Control, which reads the road up to 1,000 times per second and seamlessly adjusts damping for exceptional ride, handling and control. Available Brembo® V-Performance front brakes are required with the V-Performance Package.

BREMBO V-PERFORMANCE BRAKES

Confidence in motion, and confidence while coming to a stop. CT5 Sport offers available front Brembo V-Performance brakes that help provide exceptional braking power.

DRIVER MODE SELECTOR

In CT5, every drive is personal. Choose from four driver-select modes: Tour, Sport, Snow/Ice and My Mode, which allows you to set your own preferences for steering feel, engine sound, brake feel and, if equipped, available Magnetic Ride Control adaptive suspension.

INTELLIGENCE IN OVERDRIVE

HANDS-FREE SUPER CRUISE

The future of driving is here. CT5 offers an enhanced version of available Super Cruise, the first truly hands-free driver-assistance technology with more than 400,000 miles of compatible roads in the U.S. and Canada. Super Cruise includes Automatic Lane Change, which allows CT5 to change lanes without driver input. And with the support of available Connected Services, you'll also receive the latest map updates.

WIRELESS CONNECTIVITY

Enjoy a cord-free connection. Seamlessly integrate your smartphone with the touchscreen to access messages, music, maps, and more. Take command with the intuitive rotary jog controller on the center console. Keep your device charged without cords using the wireless charging pad.

AMAZON ALEXA BUILT-IN

The Amazon Alexa functionality you enjoy at home is now fully integrated into the Cadillac user experience. With available Amazon Alexa Built-In capability, you can ask Alexa to stream your favorite music, get directions, make calls, change your radio stations and more. Ask anything. Alexa's on board.

SOUND- OPTIMIZED CABIN

Your place of refined refuge, the CT5 cabin is designed to deliver a quiet ride. The vehicle monitors engine sounds and uses standard Active Noise Cancellation technology to send inaudible cancellation waves through the audio system to eliminate unwanted noise, resulting in tranquil drives while alone and comfortable conversation when accompanied on your journey.

WI-FI® HOTSPOT

With an available Wi-Fi Hotspot, the connectivity you're accustomed to travels with you on the road, so your passengers are entertained while on the go.

GO CONFIDENTLY WITH THE CADILLAC SMART SYSTEM

In a world of unpredictability, the Cadillac Smart System™ offers proactive peace of mind. This comprehensive suite of standard driver-assistance features helps inspire confidence on your journey—whether you're backing out of your driveway or boldly taking on the road ahead.
