- Air Ride Adaptive Suspension
- 4-Wheel Steer with CrabWalk

CAPABILITY

Responsive Power

The Innovative 2-motor e4WD system delivers power to all four wheels simultaneously, automatically adjusting to driving conditions and giving you extra traction when you need it.

4-Wheel Steer with Crabwalk

This available feature allows the rear wheels to turn independently from the front wheels, helping with maneuverability and tight turns, and allowing the EV truck to move diagonally at low speeds.

Selectable Drive Modes

Tailor your Sierra EV pickup truck for specific on-road and off-road adventures, road conditions or driving preferences.

Spacious Cabin

The Sierra EV electric pickup truck offers a generous amount of space and legroom, so you can ride in comfort.

Panoramic Glass Roof

Enjoy open-air ambience and ample driver headroom with an available panoramic fixed glass roof. Tinted glass with infrared and UV coatings helps keep the cabin comfortable.

EXTERIOR

Under-Hood Storage

The power-open eTrunk™ is a lockable weatherproof storage area in the front of the truck that offers additional secured space and easy access to luggage or gear.

MultiPro Midgate

This available feature provides a class-leading 10' 10" of cargo length when used with the load stop function, folded rear seats and removable back glass window.

MultiPro Tailgate

The standard six-function MultiPro Tailgate helps make accessing, loading and unloading the cargo bed easier.

TECHNOLOGY

Super Cruise Hands-Free Driver Assistance Technology

Experience the freedom of going hands-free on a growing network of compatible roads thanks to available Super Cruise driver assistance technology.

16.8" Diagonal Premium GMC Infotainment System

The color touchscreen with Google built-in compatibility and voice-activated technology for your phone provides a seamless way to customize your entertainment.

Driver Information Center

Control and customize important vehicle and driving information, and view high-resolution maps on the 11" diagonal Driver Information Center.

Head-Up Display

The 14" diagonal multicolor Head-Up Display on AT4 and Denali helps you keep your eyes on the road by projecting key information directly onto the windshield.

Up to 14 Camera Views

Navigate tight parking lots and maneuver your EV pickup truck with confidence, using up to 14 available camera views.

OnStar®

Go confidently with available OnStar technology. Enjoy the convenience of remote commands, the reassurance of Automatic Crash Response, and the entertainment of in-vehicle apps.

CHARGING

Up to 120 Miles in Approx. 10 Minutes

Sierra EV features available 800V public DC Fast Charging of up to 120 miles in approximately 10 minutes with the available Max Range Battery Pack.

In-Vehicle Energy App

Monitor your Sierra EV's energy use, set a charging schedule, precondition the battery temperature and more.

MyGMC Mobile App with EV Features

Find your next charging station, pay for charging sessions in advance and more using the available myGMC mobile app.

Power Your Gear

The available GMC Energy Transfer Pro allows you to plug in your gear wherever you are, with up to 10.2 kW of off-boarding power, thanks to the available GM Accessories PowerBar+.

SAFETY

Over 16 Safety and Driver Assistance Features

- Adaptive Cruise Control
- Enhanced Automatic Emergency Braking
- Blind Zone Steering Assist
- Forward Collision Alert
- HD Surround Vision
- Following Distance Indicator
- Front Pedestrian and Bicyclist Braking
