350 F SPORT - AWD

- Horsepower: 311
- 3.5-liter V6 engine
- All-wheel drive
- Available Adaptive Vehicle Suspension
- Aluminum sport pedals
- Six-speed automatic transmission with paddle shifters

Crafted to connect

Every touchpoint has been designed around the driver. From a reimagined interior that delights, not distracts, to the newly developed Forged Bamboo ornamentation. Even the leather-wrapped steering wheel is sculpted to match the natural contours of the human hand.

The dynamic appeal of the IS is amplified with a bold rear fascia that boasts the new Lexus badge design and a rear spoiler designed to optimize aerodynamic performance.

Accentuating the IS's low center of gravity and wide stance, a more daring front fascia reinforces its bold, commanding presence. Each detail serves a function, from brake cooling to helping optimize airflow and stability.

Technology crafted for the human touch

User Profiles

The Profiles feature can save your preferred audio, navigation and language settings—and so much more. Sync via the Lexus app for seamless personalization across vehicles.

Thematic Ambient Illumination

Personalize your drive with available thematic ambient LED interior lighting. Find your ideal ambience with one of 14 preset themes, or craft your own lighting design to create a space that feels uniquely yours.

Panoramic View Monitor

Four available high-resolution cameras mounted on the front, sides, and rear of the vehicle give drivers a bird's-eye view of the near environment. Moving View and See-Through View options create a composite image of the vehicle's surroundings as on-screen guides help assist with parking and tight maneuvering.

Power-folding side mirrors

Power-folding side mirrors are designed to automatically fold in when the vehicle is locked and return to position when unlocked. Automatic dimming and auto tilt-down in reverse functionality further offers added convenience and visibility.

Wireless phone charger

A wireless charging pad in the front console is designed to help power up your compatible smartphone. For added convenience, it also features an indicator light to notify you when your device is fully charged.

Lexus Safety System+ 3.0

Pre-Collision System with Pedestrian Detection

Pre-Collision System with Pedestrian Detection can alert you to certain potential collisions and may automatically brake.

Full-Speed Range Dynamic Radar Cruise Control

Full-Speed Range Dynamic Radar Cruise Control helps maintain a preset distance from the vehicle ahead of you, from highway speeds down to a full stop.

Lane Departure Alert with Steering Assist

Lane Departure Alert with Steering Assist may alert you to inadvertent lane departures and make minor steering corrections to help keep you in your lane.

Lane Tracing Assist

Lane Tracing Assist helps you center the vehicle within its lane while Dynamic Radar Cruise Control is active.

Road Sign Assist

Road Sign Assist can recognize certain road signs and display them to you inside the vehicle.

Automatic High Beams

Automatic High Beams can automatically toggle between high and low beams based on the vehicle's surroundings.
