## Appearance Packages

New — and available only on the Big Bend<sup>®</sup> model — exterior and interior upgrades with the available Bronze Package lets you add a dramatic element of bronze highlights to your Bronco Sport<sup>®</sup> SUV. In addition to the Bronze package, there is also the Black Appearance Package for the sleek look.

## Performance Packages

Get additional all-terrain capability, available on Outer Banks<sup>®</sup> SUV and Badlands<sup>®</sup> SUV models, when you opt for the available Sasquatch Package. Each unique package includes upfit-friendly auxiliary switches and wiring.

Exterior Design

## Occasionally Dirty Looks

### Cleans up Well on Monday

Let the mud fly on the weekend. That's what car washes are for. The Bronco Sport® SUV looks at home anywhere — with its bold grilles, available brush guards, fender tie downs, robust steel-plated bumpers, and sturdy bash plates.

### Safari-Style Roof

Enjoy an extra measure of height for added headroom and more space for your stuff. There's enough cargo room to fit two bikes standing up, when equipped with the available interior bike rack.

### Steel Plated Front and Rear Bumpers

Available steel-plated bumpers are durable, trail-ready, and waiting to hitch to your trailer or camper.

Interior Design

# Comforts of Home

## Take It All In. On Both Sides of the Windshield.

Off the beaten path. On the way to work. Whatever destination you have in mind for your Bronco Sport® SUV, some of the most satisfying views can be found...on the inside.

## 8" Standard Cluster Display

Keep your eyes on the essentials. The cluster display provides them to you at a glance.

## Available 12.3" Cluster Display

The 2026 Bronco Sport® SUV displays important vehicle data in vibrant clarity, on a brightly-lit customizable instrument panel.

## 13.2" Center Display

Go big. Go, well, anywhere else but home. The standard 13.2" display in the center console showcases apps, music, and maps.

## B&O® Sound System

Pack the hiking boots, some sunscreen, and your playlist. The available B&O® Sound system by Bang & Olufsen® has 10 speakers, including a subwoofer, and delivers trail-shaking bass.

## Available 360-Degree Camera With Trail View

A tight spot on the trail? An over-stuffed parking lot? Get a little help navigating obstacles, with a bird's-eye view of your surroundings.

## It's Your Story. Be the Hero.

The weekend's here, and you never thought you had it in you. One Saturday, it's a ruddy trail. The next Sunday... a two-track incline. Where will you go from here? With this kind of capability, it's up to you.

## HOSS Off-Road Suspension

The three available versions of HOSS (High-Performance Off-Road Suspension System) give you confident control. HOSS System 3.0, available on the Badlands model, offers the ultimate Bronco Sport off-roading experience.

## G.O.A.T Modes

Speaking of acronyms, there's G.O.A.T. Modes Goes Over Any Type of Terrain. So whether you're off-roading or commuting, there are up to seven available modes.

Technology

# Running Water? Nope. High-Speed Internet? Yep.

## Ford Connectivity Package

New for 2026, the available Ford Connectivity Package — included for a year — helps keep you connected with an unlimited Wi-Fi® hotspot powering up to 10 devices, and connectivity for available Connected Navigation, voice assistant, karaoke - and while parked - YouTube streaming. Features vary by model.

## Ford Security Package

Help protect your Bronco Sport® SUV with the available Ford Security Package. Get Theft Alerts if your vehicle is tampered with and remotely disable your vehicle— via the Ford app. Make sure it can't be started, even if someone has an authorized key nearby. Get additional alerts if someone tries to access, start, move, or factory reset your Bronco Sport. Even get access to a dedicated 800 number that is managed 24/7 by live agents.

## Lane-Keeping System

Lane-Keeping System alerts you if you start to drift out of your lane. If it detects frequent drifting, a coffee cup icon will appear on the cluster, suggesting it might be time for a break

## Pre-Collision Assist®

Pre-Collision Assist with Automatic Emergency Braking (AEB) can help detect a potential collision with pedestrians and vehicles ahead. It's designed to help reduce the impact of, and in some cases avoid, a frontal collision. If the system's sensors detect a potential collision with a vehicle or pedestrian ahead, a warning flashes, an alert sounds, and the brakes are applied if needed.

## Adaptive Cruise Control

Adaptive Cruise Control with Stop-and-Go and Lane Centering can help you maintain your preferred speed, slow and stop your vehicle in heavy traffic, resume your set speed when things get moving again, and keep your vehicle centered in its lane.
