Zephyr Blue Matte Metallic

CHARGING

Plug in or power up

The 2024 Silverado EV offers a variety of convenient charging options to choose from, so you can stay charged up and ready for anything. Or if you find yourself in need of some power, the GM Energy PowerShift Charger (when paired with the GM Energy Vehicle-to-Home Enablement Kit) lets your Silverado EV provide power to your home in a blackout, when properly equipped, with reduced daily energy usage.

Over 250,000 public charging stations

GM-estimated 100 miles of range in 10 minutes

CAPABILITY

Available Four-Wheel Steer

Enjoy greater maneuverability and enhanced handling as all four wheels work together to provide a smaller turning radius — perfect for helping you make tight turns, parallel park or pull into a narrow parking space.

Dual Motor 4WD system

This system delivers nearly instantaneous torque to all four wheels simultaneously — giving you extra traction when you need it.

Available Four-Corner Air Ride Adaptive Suspension

Silverado EV RST can automatically adjust the suspension to road conditions, resulting in a smooth ride — or even adjust the height to help you get in and out easier.

BED FUNCTIONALITY

Get the bed that never rests

Be ready for anything with a spacious and versatile bed that can be reconfigured with the available Multi-Flex Midgate® with pass-through and available Multi-Flex Tailgate.

10 ft. 10 in. in length

Get maximum length for bulky items:

- Midgate fully open
- Rear glass removed
- Tailgate down
- Primary gate load stop engaged
