

2026 Audi Q7

Standard

quattro[®]

All-wheel drive

Number of seats

7

Cargo volume

69.6 cu-ft

With 2nd and 3rd row seats folded

Design

Sport Plus Package.

New for the 2026, available Sport plus package on the Q7 55 TFSI include features such as S line exterior, sport adaptive air suspension, Crimson red interior stitching and seatbelts, as well as carbon twill matte inlays. The package is completed with 21" 5-double-spoke design wheels in bicolor finish-or go bigger with the available 22" 5-arm-edge design wheels.

Luxury SUV. Room for all.

Offering three rows of seating for up to seven passengers and a spacious cargo area, the Q7 has room for everything. Get easy access to cargo with the power tailgate with hands-free release. Even more, the third-row seats fold at the touch of a button.

Wheel options.

The 2026 Audi Q7 offers five unique wheel choices to suit your style. 19" wheels are standard, while 20" to 22" sizes are available. The 22" 5-arm-edge design wheel in platinum finish is shown.

Vision package.

New for 2026, the optional vision package includes HD Matrix-design LED headlights with Audi laser light, high beam assist, headlight washers, and night vision assist.

Performance (55 TFSI®)

Horsepower

335 HP

Torque

369 lb-ft

0-60 mph in

5.5 sec

Always obey all speed and traffic laws

Two engine choices.

The Audi Q7 is available with your choice of two advanced turbocharged powerplants: the Audi Q7 45 features a 261 HP 4-cylinder engine while the Audi Q7 55 boasts a 335 HP V6.

Trailer hitch.

The available trailer hitch offers an impressive towing capacity from 4,400 lbs on the Q7 to 7,700 pounds on the Q7 55—both with 7-pin adapter.

All-wheel steering.

The optional all-wheel steering enhances low-speed maneuverability by turning the rear wheels slightly in the opposite angle to the front. It also provides increased stability at higher speeds as the rear wheels steer in the same direction.

Quattro.

Iconic quattro all-wheel drive offers an enhanced driving feel—constantly optimizing acceleration and handling as you drive.

Adaptive air suspension.

Newly standard for 2026 on the Premium Plus trimline, the adaptive air suspension automatically adjusts to road conditions to optimize driving dynamics and comfort.

Audi virtual cockpit plus.

As a customizable digital instrument cluster, Audi virtual cockpit plus presents key information right in your field of view on a stunning, 12.3" HD display. Includes three display modes.

Audi MMI touch response.

Intuitive technology that's as easy to use as your smartphone—placing you in command via a driver-centric, interactive display with haptic feedback. A secondary touchscreen manages climate controls and features handwriting recognition.

Audi connect Care with remote start.

Experience fully integrated assistance tools with Audi connect CARE including functions such as remote vehicle services and security features that help offer peace of mind.

Audi smartphone interface.

Link your smartphone to wireless Apple CarPlay or Android Auto while you recharge wirelessly with the available wireless phone charging pad.

Driver Assistance

Remote park assist plus.

Available remote park assist plus automatically maneuvers the Audi Q7 in and out of a perpendicular or parallel parking space. This enhanced feature can even be performed via your phone using the myAudi app when you are outside of your vehicle.

Top view camera system.

Zoom in on your vehicle's exterior with the available top view camera system with Virtual 360, which can alert you of potential obstacles and assists with parking. Toggle between 3D camera views and swipe to view different angles—all from the driver's seat.

Adaptive cruise assist with lane guidance.

With adaptive cruise assist with lane guidance, the hands-on system maintains a time-distance setting to the vehicle ahead and helps keep you centered in your lane.

Intersection assist.

The available intersection assist uses sensors to help detect cross traffic when pulling through an intersection and can help intervene via a brief braking to warn the driver of a potential collision.

Audi side assist with pre sense rear.

Using radar sensors and optical warnings, Audi side assist with Audi pre sense rear alerts you if a vehicle is in your blind spot and helps detect any potential rear accidents.
