

THE 2025

XT4

MODELS

PREMIUM LUXURY

An embodiment of sophistication, the XT4 Premium Luxury model turns heads with elegant exterior finishes and accents, lower body embellishments and available 20" wheels. Additionally, the vehicle offers elevated interior finishes and an array of safety and driver-assistance features.

SPORT

Designed for the maverick of the road, the XT4 Sport model offers sleek Gloss Black accents, available 20" wheels and an available Active Sport Suspension that enhances ride and handling dynamics.

STUNNING FROM THE INSIDE OUT

CURVED 33" DIAGONAL ADVANCED LED DISPLAY

The 2025 XT4 elevates the drive with luxury and tech additions including a segment-leading tooltipped 33" diagonal glass display. Seamlessly integrated and intelligently intimate, the curved LED touchscreen display is more than a breathtaking interior centerpiece with a 9K resolution. The free-form glass panel is a display capable of exhibiting more than 1 billion colors, giving you intuitive access with stunning visual richness.

INTERIOR SPACE

A thoughtfully designed interior provides 39.5" of class-leading rear leg room, along with the versatile 60/40 split-folding rear seats creating generous cargo space, able to hold more of life's rewards.

ELEMENTS THAT EXCITE

A haven of its own, XT4 delivers a space of comfort and intrigue. Discover XT4's refined design, from authentic wood and carbon fiber accents to stylized seat appearances and available stitching patterns. Allow your eyes to discover every detail, modern and classic, of the XT4.

THE BEST SEATS IN THE HOUSE

Discover a remarkably comfortable drive with an available heated steering wheel, front seats and rear outboard seats. Alternatively, cool down with the available front ventilated seats. Finally, sit back and relax with the optional four-way lumbar massaging front seats.

AKG 14-SPEAKER AUDIO SYSTEM

Available AKG brings the studio to your Cadillac, providing sound that's precise and clear of distortion. All 14 speakers are placed for sound optimization, allowing each passenger to have an immersive audio experience.

A PERSONAL TOUCH

Feel the power of decision-making with XT4's Rotary Infotainment Controller, featuring a satin-chrome finish. Located on the center console, this feature complements XT4's touchscreen, offering an additional vehicle interface, maximizing your control of XT4's functions. Quickly rotate and select to adjust phone and audio entertainment, in addition to available navigation settings.

INNOVATION IN MOTION

FULL-COLOR HEAD-UP DISPLAY

A vision of what's ahead. This available feature projects key information—including speed, navigation, phone and music details—onto the windshield in your line of sight, helping you stay alert and focused on the journey at hand.

GOOGLE BUILT-IN

Make the most of your drive with Google built-in, a helpful, personalized and seamless way to enhance your in-vehicle experience. With Google Assistant, Google Maps and Google Play, you receive access to hands-free help, live traffic updates, some of your favorite apps and more.

AMAZON ALEXA BUILT-IN

The Alexa functionality you enjoy at home is now fully integrated into the Cadillac user experience. With Amazon Alexa Built-in, you can ask Alexa to stream your favorite music, get directions, make calls, change your radio stations and more. Ask anything. Alexa's on board.

myCADILLAC MOBILE APP

While you're on the go, you're in tune with your vehicle with the available myCadillac Mobile App, including 3 years of OnStar Remote Access. Remotely start your vehicle, send remote commands, manage and schedule your vehicle's maintenance, set and share custom notifications and control your vehicle from the same device you use to control other parts of your life.

EXCITEMENT AT EVERY TURN

2.0L TURBO- CHARGED ENGINE

The 2.0L Turbocharged engine packs 235 horsepower and 258 lb-ft (350 Nm) of torque, while offering an impressive EPA-estimated 29 mpg highway using premium gasoline. Feel the power as soon as your foot touches the pedal.

ACTIVE FUEL MANAGEMENT

Make the most out of every mile with XT4's Active Fuel Management. When less power is required, such as cruising, Active Fuel Management utilizes a reduced-cylinder operation mode to achieve better fuel economy. And when you're ready to pick up the pace, the system will maintain full-cylinder operation.

DRIVER MODE SELECTOR

Personalize your XT4 driving experience and adapt to the road ahead with XT4's driver mode selector. Selectable driving modes allow you to customize your driving preferences. Each mode provides a unique driving experience with changes that may include accelerator pedal mapping, transmission shift points, steering effort, and available Active Sport Suspension performance. Wherever the road may take you, you can be sure all your needs are met.

TWIN-CLUTCH ALL-WHEEL DRIVE

Navigate unpredictable road conditions with confidence. The available Twin-Clutch All-Wheel-Drive system can help optimize available traction by applying torque to the wheel that needs it most.

PEACE OF MIND IS PARAMOUNT

AUTOMATIC EMERGENCY BRAKING

Standard Enhanced Automatic Emergency Braking works with Forward Collision Alert to help you avoid or reduce the severity of a potential front-end collision with a detected vehicle you're following. Including Rear Cross Traffic Braking and Front Pedestrian and Bicyclist Braking, the features use technology to automatically provide hard emergency braking or enhance the driver's hard braking.

Vehicles equipped with Enhanced Automatic Emergency Braking also include Intersection Automatic Emergency Braking and Reverse Automatic Braking.

ASSISTANCE WHILE YOU DRIVE

Blind Zone Steering Assist can alert you and provide a brief, firm turn of the steering wheel when a potential crash is detected with a moving vehicle in the lane you're entering. Lane Keep Assist with Lane Departure Warning uses a brief turn of the steering wheel to alert you when you may be unintentionally drifting out of detected lane lines. Both come standard and are designed to help you avoid lane-change collisions and drive with added confidence.

HD SURROUND VISION

HD Surround Vision provides selectable digital camera views of the area around your vehicle to help you park and avoid vehicles and objects. You can also display a guideline to show where your vehicle is heading.

REAR CAMERA MIRROR

The available Rear Camera Mirror uses a camera to provide a wide and less-obstructed view behind the vehicle while driving. You can easily switch between the camera view and a traditional rearview mirror to suit your personal driving preference.

INGENUITY IN MOTION

Adapt to the road ahead with XT4's cutting-edge driver-assistance features, empowering you to drive with confidence.
