

2026 RAM HEAVY DUTY

THE 2026 RAM HEAVY DUTY. Built with relentless capability and unyielding power, the Ram Heavy Duty lineup is built to tackle the toughest requests. Whether you're hauling heavy loads to the jobsite or towing trailers or big boats, Ram 2500 and 3500 trucks deliver. Advanced technology, bold styling, refined interiors and the confidence that comes from powertrains like the available High-Output 6.7L Cummins® Turbo Diesel engine with TorqueFlite® HD eight-speed automatic transmission prove that strength and sophistication can go hand in hand. Mile after mile, task after task, this lineup proves that Nothing Stops Ram.

Properly secure all cargo. Always tow within vehicle's capacity.

STANDARD FEATURES:

POWERTRAIN

Standard 6.4L HEMI® V8 Variable Valve Timing (VVT) with Multi-Displacement System (MDS)/TorqueFlite® eight-speed automatic
 Optional 6.7L Cummins® Turbo Diesel High Output/TorqueFlite HD eight-speed automatic

* When equipped with Payload Upgrade Package (AH5) (Late Availability).

Notes regarding the charts above: DRW = Dual Rear Wheel. SRW = Single Rear Wheel. Weights given in lb. Numbers in **BLACK BOXES** reflect the maximum of that class. Max Trailer Weight Rating represents a properly equipped base trim configuration. Vehicles with a GVWR of 14,000 and greater are DRW. Vehicles less than 14,000 GVWR are SRW. Payload and Max Trailer Weights are ESTIMATED values. All values are shown in lb unless otherwise stated. Payload and Max Trailer Weight values are rounded to the nearest 10 lb. Payload = GVWR - Base Weight. Payload and Trailer Weight Rating are mutually exclusive. GAWRs, GVWRs and GCWRs should never be exceeded. Trailer Weight Rating and Tow Vehicle Trailing Weight are calculated as specified in SAE J2807. Passenger Weight = 300 lb. Options Weight = 100 lb. Trailing Equipment Weight: 75 lb for Conventional Hitch, 40 lb for Gooseneck and 250 lb for fifth wheel. Tongue weight: 10 percent of the gross trailer weight for Conventional Hitch, 15 percent of the gross trailer weight for a fifth wheel or Gooseneck hitch. Payload and GAWR should never be exceeded and must account for all of the above weights, including the appropriate trailering equipment and tongue weight. A fifth-wheel hitch is required for trailers over 23,000 lb. A Gooseneck hitch is required for trailers over 30,000 lb.
