- Perforated Varenna leather seating surfaces with 10-point full back massage function & heat and ventilation and more!

Performance

There's nothing like having control.

You'll face all different kinds of roads in all different kinds of conditions. The 2025 Tiguan will be right there with you, with a 201-horsepower turbocharged engine and incredible adaptability, right in your hands.

Available 4MOTION® all-wheel drive

Technology

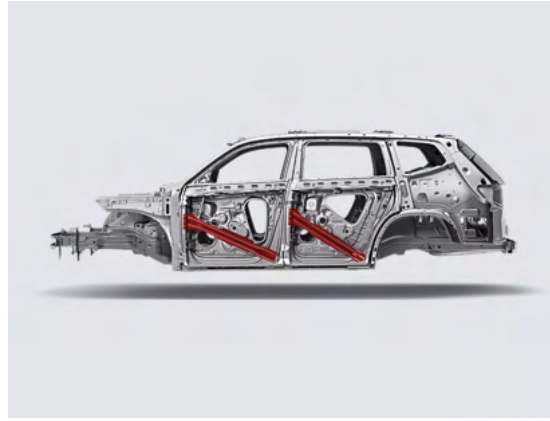

Rear View Camera System

Benefit from the view of a wide lens when you want it. It can help you see obstacles when backing up, a feature so helpful you'll wonder how you ever managed without it.

Automatic Post-Collision Braking System

Not every collision brings a car to stop. That's why our vehicles include the Automatic Post-Collision Braking System. It can also help slow the vehicle down after a collision, helping reduce the chance of any additional impacts.

Safety Cell

Front and rear crumple zones help absorb crash energy, while a rigid safety cell helps distribute forces away from the driver and passengers.

Six stability-enhancing systems

From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which can adjust engine throttle and apply corrective forces to the wheels that need them most, your vehicle is equipped with a total of six stability-enhancing systems.

Intelligent Crash Response System (ICRS)

In the event of a collision that deploys the airbags, the ICRS can turn off the fuel pump, unlock the doors, and activate the hazard lights. It helps react if you might not be able to.

Displays

Standard 12.9" and available 15" touchscreen display

Volkswagen Digital Cockpit Pro

Available Head-up display

Lighting

Available 10 and 30-color adjustable ambient lighting

Available Atmospheres mood selection

Available integrated light bar in front grille and illuminated front VW badge

IQ.DRIVE

Drive peace of mind with driver assistance technology that helps enhance safety.

Features:

- Travel Assist
- Adaptive Cruise Control (ACC)
- Active Blind Spot Monitor
- Rear Traffic Alert
- Front Assist
- Emergency AssistLane Assist

Driver Assistance

Park Assist Plus

The available Park Assist Plus feature puts into perspective the “will my car fit” debate when you come across the perfect parking spot. Not only can it sense the size of a space, but it will also help you do the parking, from start to finish, as you supervise. Parallel, perpendicular, or reversing—Park Assist Plus can help with them all.

Exit Warning System

We know you check your surroundings before getting out of your car. But, with the Exit Warning System, your vehicle can alert you if pedestrians, cyclists, or another vehicle is approaching from behind while you’re parked. It's like an extra set of eyes as you exit your vehicle.

Light Assist

When driving at 18 mph or faster and your surroundings get dark, the Light Assist driver assistance feature turns on to help make sure the road ahead is lit, and when your speed slows to 12 mph, it turns off. You can set the high beams into “auto” mode, so they’ll automatically activate when there’s low light, and turn off when there’s an oncoming vehicle, or you enter an area that’s well lit by the environment or by traffic conditions.

Park Distance Control

Park Distance Control helps take the guess work out of parking your car, while Maneuver Braking helps apply the brake automatically to help mitigate the chance of a collision with stationary objects while reversing into a spot. With Park Distance Control’s audio beeps and visual support, you’ll know if you’re getting too close to detected obstacles in front of or behind your car. It’ll also share additional information on your display, so you can see what’s behind your car as you reverse within a parking spot.

Dynamic Road Sign Display

From traffic signs to speed limits, when you need a reminder about the signs on the road, the available Dynamic Road Sign Display helps share the information you want. It also features warnings for speed, restricted traffic zones and more, so you can remain focused on the road ahead.

Sound and Audio

Available Driving Experience Dial

Available Harman Kardon® premium audio system w/ center speaker & subwoofer

SiriusXM with 360L
