Limited

- 236 miles (estimated range)
- Available All-Wheel Drive (AWD) with X-MODE
- 20-in. multi-spoke black/silver alloy wheels
- SofTex®-trimmed seats with heated/ventilated front seats

PERFORMANCE

Fine-tuned for excitement.

e-TNGA Platform

bZ4X's e-TNGA platform structure allows for a spacious cabin and provides a solid foundation for its powerful electric motor, helping produce outstanding driving performance, ride comfort and stability for the road ahead.

All-Wheel Drive With X-MODE

Whether helping you navigate through a downpour or hug the curves of a winding road, bZ4X's available AWD capability gives you confidence to stay the course. And with the push of a button, X-MODE maximizes bZ4X's AWD potential by modulating the brakes and adjusting the power delivery.

Advanced Electric Motor

bZ4X's electric powertrain delivers almost instantaneous torque for a thrilling drive. Front-wheel-drive models use one electric motor to produce 201 hp with 196 lb.-ft. of max torque, while all-wheel-drive models harness two electric motors to deliver a combined 214 hp with 248 lb.-ft. of max torque.

Battery Performance

With an up to 252-Mile EPA-estimated range rating for front-wheel-drive models and an up to 228-Mile EPA-estimated range rating for all-wheel-drive models, you can enjoy the fun of electric driving with the confidence of knowing that it's a Toyota.

DESIGN

Sophistication in every detail.

Interior Stitching

Finely crafted contrast stitching on the leather-wrapped steering wheel and SofTex®-trimmed seats distinguishes this premium interior from the rest.

20-In. Black Wheels

An exclusive design element only found on Nightshade, these black-painted 20-in. wheels add sharp style to every buttoned-up morning commute and buttoned-down night on the town.

Dark Accents

Black door handles, badging and a shark-fin antenna balance elegance and edge, for a ride that's as unique as you are.

Split Roof Spoiler

A performance-inspired split roof rear spoiler is a key design detail that highlights bZ4X's silhouette.

TECHNOLOGY

Intelligence at your service.

Maximize your smartphone's potential and control a variety of bZ4X's functions with an intuitive touch through the Toyota app. 4G network dependent. Enjoy a seamless experience and keep safely enjoying smartphone features through its 12.3-in. touchscreen display.

12.3-In. Multimedia Touchscreen

bZ4X's 12.3-in. Toyota Audio Multimedia touchscreen heightens your interactions with its captivating display, ergonomic design and voice recognition. From listening to music to finding your destinations —access to all bZ4X's systems is within easy reach.

Traffic Jam Assist

Improve your daily commute. This available driver-assistance feature helps ease the burden of the stressful stop-and-go of a traffic jam by providing control of the vehicle's steering, braking and acceleration at speeds under 25 mph. This system is designed for limited-access roadways while Lane Tracing Assist is engaged, and with the driver monitor camera confirming the driver's eyes are on the road, hands-free operation is possible. Traffic Jam Assist requires an active Drive Connect trial or subscription. 4G network dependent.

Advanced Park

Designed to assist you with parallel parking or backing into a parking space, available Advanced Park is there for you with the touch of a button. This hands-free parking system uses cameras and sensors—and controls steering, acceleration and braking—to help you get into that perfect spot.

Qi-Compatible Wireless Charging and USB Ports

The available Qi-compatible wireless charger lets you place your Qi-compatible device in the center console to wirelessly charge up while on the go. And for more versatility and added convenience, bZ4X comes with up to four USB-C ports and one USB-A port, so you can connect to and power up a variety of devices.

CHARGING

Charge with confidence.

Staying powered up is easy, with more than 76,000 public charging stations available nationwide and multiple ways to charge at home. You can even schedule your bZ4X to charge outside of peak electricity rate hours.

Flexible Charging

Power up how you please. bZ4X can be charged using a standard 120V household outlet (Level 1), a 240V outlet (Level 2) or DC Fast Charging.

Dual-Voltage Charging Cable

Every bZ4X comes with a portable charging cable with adapters that can provide Level 1 or Level 2 charging. So conveniently find a charge at home or wherever you roam.

Charge Scheduling

Take advantage of available off-peak electricity rates while plugged in. By using the in-vehicle menus or the Toyota app, you can schedule start and stop charging times. And if you need to charge right away, simply select "Charge Now."

EVgo Complimentary Charging

Every 2025 bZ4X comes with one year of complimentary unlimited charging, with over 1,000 public charging stations currently available. Just set it up through the Toyota app, and take advantage of fast charging stations that are powered by 100% renewable energy.

Level 2 Home Charging

To take advantage of faster Level 2 charging at home, use the portable dual-voltage charging cable with a 240V NEMA 14-50 outlet or a professionally installed home charger. To help get you set up, you can use resources like Qmerit to find a licensed electrician, and ChargePoint® for additional home-charging options.

Clean Assist

Offset vehicle charging with 100% renewable, zero-carbon electricity. With an active Remote Connect trial or subscription and using the Toyota app, the Clean Assist program can keep track of the amount of electricity used when you charge; then Toyota will generate or buy an equivalent amount of Renewable Energy Certificates.

SAFETY & CONVENIENCE.

Ready for everything.

Blind Spot Monitor With Rear Cross-Traffic Alert

The standard Blind Spot Monitor (BSM) helps warn you when a vehicle in the next lane enters bZ4X's blind spot on either side of the vehicle. Rear Cross-Traffic Alert (RCTA) helps detect vehicles approaching from either side, warning you with side mirror indicators and a warning tone.

Lane Change Assist

When you activate your turn indicator, Lane Change Assist (LCA) is designed to sense if the intended lane is clear, and if so, will automatically turn the wheel to guide bZ4X through the lane change.

Front Cross-Traffic Alert

Front Cross-Traffic Alert utilizes forward radars to help detect vehicles and/or bicycles passing in front of the vehicle. If an object is detected, a visual alert will be given on the Head-Up Display before it crosses. If you continue to advance, audio alerts will be emitted to help warn you to stop.

Panoramic View Monitor

bZ4X's available Panoramic View Monitor (PVM) uses four cameras to help check your surroundings for hazards. When you're parked and using the Moving View setting, it creates a virtual view from above.

Hands-Free Power Liftgate

Powered to help you out. With the push of a button, the power rear liftgate can open and close automatically. When your hands are full, bZ4X senses your Smart Key, and the available hands-free power rear liftgate opens automatically when you wave your foot under the center of the rear bumper.
