

The all-new 2025 Lincoln Navigator[®] SUV

Model Select

Lincoln Black Label Navigator with Special Edition Package

24-inch high-gloss Ebony-painted wheels and black exterior elements, including the grille, roof-rack side rails, and others, add to the already impressive appeal of Lincoln Black Label Navigator models.

Lincoln Black Label Navigator

Two newly added interior themes, Enlighten and Atmospheric, join the Invitation theme in offering unique interior details, including rich real wood inlays, sumptuous leather appliques and more. Enhanced membership benefits amplify the Lincoln Black Label experience.

Navigator Reserve with Jet Appearance Package

Black exterior elements, including the grille, beltline molding, front bumper, and more, plus high-gloss 22-inch wheels add a distinct look to the Reserve model. An Ebony and Black Onyx interior with Shima Recon wood appliques wraps the cabin in sleek style.

Navigator Reserve

The all-new Navigator SUV offers new technology and functional ease with the Lincoln Digital Experience. An impressive list of standard features, carried through to all models, helps to make creating the Navigator that's right for you less complicated.

Strong, smart, and capable.

Towing

Able to tow up to 8,700 lbs, the available Heavy-Duty Trailer Tow Package adds Trailer Brake Controller and includes the Slow Climb drive mode to help avoid overheating when ascending a steep grade.

Ride comfort

The 2025 Lincoln Navigator SUV offers five distinct drive modes, an adaptive suspension, and a 10-speed transmission for a smooth and confident drive.

Driver-assist technologies

From Adaptive Cruise Control to Pre-Collision Assist with Automatic Emergency Braking and beyond, there is an impressive list of features to keep you confidently on your way.

Power can capabilities

440 horsepower and 510 lb-ft of torque coupled with standard four-wheel drive and the ability to tow loads of up to 8,700 lbs, helps the Lincoln Navigator SUV make a difference everyday.

A transformative interior experience

Lincoln Rejuvenate

Lincoln Rejuvenate is the in-vehicle recharge you need to help energize your day in only five to ten minutes. While in park, Lincoln Rejuvenate adjusts your seat to massage, and provides heating and ventilation while using Ambient Lighting, audio, scent, and expansive imagery to curate the ultimate multi-sensory experience.

Panoramic display

Helping to keep eyes up and out, the elevated 48-inch panoramic display puts customizable information closer to a driver's line of sight while driving.

Digital Scent

Pleasing fragrances can join you on your journey. Inside the front-row center console lid of the 2025 Lincoln Navigator SUV, scent cartridges can be easily inserted to emit the scent of your choosing.

Revel Ultima 3D Audio System

The standard 28-speaker audio system featuring QuantumLogic 3D Surround technology in the all-new 2025 Lincoln Navigator SUV paired with three adjustable listening settings turns sound into a true science.

Reimagined design from the ground up

Second-Row Power Tailored Seats

This available second-row configuration offers heating, ventilation, and massage. With the press of a button, Power Pitch and Slide makes accessing the third-row quite simple.

Customizable second row

The Lincoln Navigator offers standard heated captain's chairs, available heated and ventilated Second-Row Power Tailored Seats, and optional bench seat with outboard heating.

Perfect Position front seats

Premium leather seating surfaces, heat, massage and more make for impressive comfort.

Third-row comfort

The class-exclusive 40/20/40 PowerFold third-row bench seat can fold flat for more cargo space. Lincoln Black Label models offer heated leather-trimmed seats.

Lane-Keeping System

The Lane-Keeping System with Blind Spot Assist uses camera technology to monitor road lane markings and detect unintentional drifting toward the outside of a lane.

Exterior Design

Dramatic presence

A reimagined hood, grille, illuminated Lincoln Star logo, headlamps, and full LED bar spanning the front end of the Lincoln Navigator® SUV combine to make a dramatic expression of style.

Function and flow

The redesigned back end of the Lincoln Navigator® SUV plays host the class-exclusive* standard Lincoln Split Gate while carefully considered contouring produces a streamlined appearance.

Well grounded

The Lincoln Navigator offers a number of standard and available 22- and 24-inch wheel options. From the Reserve model's standard 22-inch Dark Tarnished wheel to the dramatic 24-inch Radiant Copper wheel, standard with the Lincoln Black Label Atmospheric theme shown here, there are many choices to suit your sense of style.

Cargo management

The available Tiered Cargo Area Management System helps make the most of the space by converting between a tailgate seat backrest, cargo shelf, or a table with a 35-lb. capacity.

Lincoln Split Gate

The all-new class-exclusive Lincoln Split Gate makes loading and unloading cargo a breeze and provides a convenient seating space for the family. The top three-quarters of the gate rises like a traditional liftgate, while the bottom quarter lowers like a traditional tailgate.

Packages

Atmospheric theme

The new Lincoln Black Label Atmospheric theme features leather seating surfaces with added quilting. The theme is further complemented by attractive copper-colored interior and exterior elements and 24-inch Radiant Copper aluminum wheels.

Lincoln Black Label Special Edition Package

This available package offers an aura of mystery through a number of black exterior details, a distinct grille, and more. 24-inch high-gloss Ebony-painted wheels make it even more distinct.

Available Jet Appearance Package

Well-styled 22-inch high-gloss Ebony-painted wheels, black exterior detailing, an eye-catching grille, and an ebony and black onyx interior amplify the allure of this package.

Long wheelbase

When compared with the regular wheelbase, the long wheelbase Lincoln Navigator offers 11 additional inches of vehicle length. Inside, there is 14.5 cubic feet of additional cargo room.

Lane-Keeping System

The Lane-Keeping System with Blind Spot Assist uses camera technology to monitor road lane markings and detect unintentional drifting toward the outside of a lane.
