DESIGN

Bold is just the beginning.

Whether driving in or out of the city, Prius is sure to attract all the right attention. Just take a closer look at its clean design and you'll appreciate the thought that goes into every detail. From its hammerhead inspired front-end design to its stylish available 19-in. alloy wheels, everything comes together to make a statement, wherever you go.

Sleek and modern design

Smooth curves and sharp details highlight Prius' modern appeal and do more than create an aerodynamic advantage—they leave you with a sleek silhouette that looks good from any angle.

Distinctive headlights and taillights

Prius' captivating front-end design is defined by slim LED headlights, while the rear features a light bar between the taillights to finish off its clean look.

Driving modes

Fine-tune the way you drive with four driving modes. EV Mode² lets you operate solely on battery power at low speeds for short distances and in limited circumstances, such as in a parking garage. Power Mode provides sharper acceleration; ECO Mode helps maximize fuel efficiency; and Normal Mode blends fuel economy with performance.

under certain conditions and in certain types of severe collisions. Always wear seatbelt, sit upright in middle and as far back in seat as possible to help decrease risk of injury. Do not put objects in front of an airbag See *Owner's Manual* for limitations. **37.** Do not rely exclusively on Blind Spot Monitor. Look over shoulder and use turn signal. See *Owner's Manual* for limitations. **38.** Do not rely exclusively on the Rear Cross-Traffic Alert. Visually confirm clearance during use. See *Owner's Manual* for limitations. **39.** The Rear-Seat Reminder does not sense objects in the rear seat. The Rear-Seat Reminder is designed to recognize a unique rear-door opening pattern that may be consistent with an object being placed in the rear seating area. See *Owner's Manual* for additional details. **40.** Do not rely exclusively on Safe Exit Assist. Always look for approaching traffic before exiting the vehicle. See *Owner's Manual* for limitations. **41.** Front and Rear Parking Assist with Automatic Braking (PA w/AB) may warn drivers of, and potentially brake for front and rear collisions with certain objects when traveling at low speeds. Drivers should visually confirm clearance during use. See *Owner's Manual* for instructions and limitations. **42.** Extra-cost color. **43.** Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. **44.** Dashcam may not record under certain conditions. Use in accordance with applicable laws. See dashcam *Owner's Manual* for details. **45.** This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. **46.** Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print). **47.** HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. **48.** Wireless charging may not be compatible with all mobile phones, smart devices, tablets, e-readers, MP3/WMA players and like products. **49.** Toyota app requires an active Remote Connect trial or subscription. **50.** Vehicle Stability Control is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and steering input can affect whether VSC will be effective. See *Owner's Manual* for limitations. **51.** Smart Stop Technology® will reduce power to help the brakes bring vehicle to a stop during certain contemporaneous brake and accelerator pedal applications. See *Owner's Manual* for limitations. **52.** The engine immobilizer is a state-of-the-art anti-theft system initiated when the key is inserted into ignition switch or a Smart Key fob is in/near the vehicle. Engine will only start if the code in the transponder chip inside the key/fob matches the code in vehicle's immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. For lost key or fob, see a Toyota dealer or go to www.aloa.org to find a qualified locksmith for high-security key service. **53.** Hill Start Assist Control is designed to minimize backward rolling on steep ascents. Not a substitute for safe driving judgment and practices. Speed, grade, surface conditions, driver input, etc., can all affect HAC function. See *Owner's Manual*. **54.** The backup camera does not provide a comprehensive view. Always look over shoulder and use outside mirrors. See *Owner's Manual* for limitations. **55.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See *Owner's Manual* for limitations and details. **56.** When Vehicle Proximity Notification System is active, it is the driver's responsibility to maintain a lookout for pedestrians, cyclists, other cars and objects and to drive the vehicle in a safe and attentive manner to avoid making contact.
