Engines

Find the Power That's Best for You

Unleash outstanding performance and capabilities with our range of powerful engines. Engineered to meet the demands of any task, providing the strength and resilience needed to take on everyday.

Gas & EcoBoost

The engines that have driven outstanding towing and hauling performance for generations are at the core of the F-150 trucks.

PowerBoost Full Hybrid V6

Get powerful towing and the hauling performance while helping to maximize your time driving instead of filling up.

All-Electric

The most torque of any F-150 truck with pin-you-to-your-seat acceleration. Plus, it can power your home if the lights go out.

Performance

So Much Power, So Many Possibilities

Immense power comes in all engine sizes. Whether you're looking for the perfect vocational truck that works as hard as you, or a powerful weekend warrior that allows you to assert your desire to break free from the daily grind. Whichever you choose, you'll have the confidence of outstanding capability to back you up.

3.5L PowerBoost Hybrid V6

With the hybrid engine you won't give up valuable performance capability. Instead, you'll be rewarded with a strong 430 horsepower V6 with a maximum available payload capacity of 1,750 lbs.

5.2L Supercharged V8

Straight up — you'll experience a 720 horsepower adrenaline surge as you white-knuckle your way over dry cracked earth. Enough said.

Towing & Hauling

There's tons of capability at the ready. Nearly 7 tons of it. That's because the 2025 F-150 pickup delivers an astounding available tow rating up to 13,500 lbs. All the power you need to haul both your tools and gear.

Off-Roading

Sometimes you just want to leave the confines of paved roads and let it all out. That's why Ford offers a powerful lineup of off-road trucks — STX® when equipped with the FX4® Package, F-150® TREMOR®, Raptor®, and Raptor R™

Design

Designed to Enhance Your Productivity

Whether you use your truck for work or recreation and everything in between, features like Pro Power Onboard, Pro Access Tailgate and flip and fold rear seats are engineered for a specific goal — to help you do things from home renovation to your weekly job to tailgating.

Pro Access Tailgate

An available Pro Access Tailgate with an integrated swing gate allows for quick and easy access to the bed even when hooked to a trailer.

Pro Power Onboard

Keep productivity moving in locations where an outlet isn't accessible. Electrical power is at the ready with multiple outlets integrated in the truck bed.

Flip and Fold Seats

Go ahead, pack heavy. Flip one or both seats for added versatility to accommodate extra cargo when needed most.

Technology

The Tech You Need When You Need It

Wherever your F-150® truck takes you, you'll have ingenious convenience riding along. With modern tech features like the available Ford BlueCruise hands-free highway driving to high-speed 5G hotspot connectivity and Ford Co-Pilot360® driver-assist features.

Innovation Along for the Ride

Smart technology is by your side in the 2025 F-150®. Intelligent features go well beyond just streaming music. It's features like BLIS® (Blind Spot Information System) with Cross-Traffic Alert,¹⁰ 5G high-speed connectivity, and available Head-Up Display that help make doing things and going places a smooth experience.

Head-Up Display (HUD)

View important driving information directly on the windshield without it being intrusive. The available HUD projects the speed limit, your current speed and additional driver-assist details in your line of sight. Plus, you can customize the information you see and the location on the windshield.

Digital Cluster and Center Stack

The customizable standard Digital Instrument Cluster delivers vital data in brilliant hi-res clarity and realistic graphics. Additionally, a standard 12-inch center stack offers a bright, clear display of integrated smart towing technology.
