Interior

QuietTuning for a relaxing ride

While Envista's flowing exterior is easy on the eyes, its calm interior is easy on the ears thanks to QuietTuning with Active Noise Cancellation.

Flat-bottom steering wheel

Envista coupe SUV includes performance-inspired details like a flat-bottom steering wheel. There's even a heated version that comes standard on Avenir and is available on Preferred and Sport Touring.

8-way power driver seat

As the driver, you'll love your seating assignment in the available (standard on Avenir) 8-way power-adjustable driver seat with 2-way power-adjustable lumbar.

Inviting, comfortable seating

Inside Envista Preferred, attractive cloth seating with leatherette trim and accent stitching complements the sculpted exterior.

Automatic climate control

Automatic climate control keeps your passengers comfortable and four USB charging ports keep your devices charged.

Split-folding rear seats

Second-row passengers enjoy generous leg room. Plus, 40/60 split-folding rear seats make for versatile cargo and passenger configurations.

Technology

Ultrawide 11" diagonal infotainment display

This 11" diagonal infotainment screen plus an 8" diagonal Driver Information Center help make important information not just available, but easily accessible. Both screens are sleekly contained under a single pane of glass. The Driver Information Center is customizable to help keep everything you need right where you need it. And the infotainment screen offers HD color and touch screen access to perks like wireless smartphone integration.

Remote commands

Take full control of your Envista from anywhere. You can remotely start your vehicle, lock and unlock your doors, and more.

Available wireless smartphone charging

Available wireless smartphone charging keeps your smartphone charged and your cabin clutter-free.

Wireless Apple CarPlay® compatibility

With wireless Apple CarPlay compatibility, you'll enjoy easy access to music and maps from your iPhone® to make calls, send messages and more — all through the infotainment touch screen or with your voice through Siri®.

Wireless Android Auto™ compatibility

Wireless Android Auto compatibility seamlessly connects your compatible smartphone so you can get directions using Google Maps*, listen to music via Google Play and more using your Envista infotainment touch screen.

Safety

Rear Park Assist

Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for important feature limitations and information.

Raise your awareness

Available Front Pedestrian Braking can help you avoid or reduce the severity of a collision with a pedestrian it detects directly in front of you. It provides alerts and can automatically provide hard emergency braking or enhance the driver's hard braking. It has limited night-time and low visibility performance.

Change lanes more confidently

Available Lane Change Alert with Side Blind Zone Alert provides visual side-mirror alerts when a moving vehicle is detected either quickly approaching or already in your side blind zone. It can help you avoid lane change collisions.

A nudge in the right direction

Available Lane Keep Assist with Lane Departure Warning uses a brief steering wheel turn to alert you when it detects you are unintentionally drifting out of your lane lines. If needed, you may receive additional Lane Departure Warning alerts. System alerts do not occur if you're using your turn signal, or it detects you may be intentionally leaving your lane.

IntelliBeam Auto High Beams

The system automatically turns high beams on and off based on surrounding traffic and lighting conditions when traveling above 25 mph.

A helpful hand

Automatic Emergency Braking works with Forward Collision Alert to help you avoid or reduce the severity of a collision with a detected vehicle you're following. Camera technology is used to automatically provide hard emergency braking or enhance the driver's hard braking.

Get help keeping your distance

Following Distance Indicator displays the gap time in seconds between your vehicle and a detected vehicle you're following. This can help you decide if you're following much too closely.

Keep moving forward

Forward Collision Alert can warn you if it detects a potential collision with a detected vehicle you're following so you can take action. It can also provide a tailgating alert if you're following a vehicle much too closely.

Seats up to:

5

Max cargo capacity:

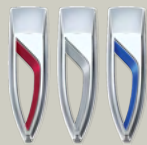

42.0 cu.ft

EPA-est. MPG city/hwy:

28/32 (FWD)
