# DESIGN

## SLIM LED HEADLAMPS

Distinctive Two-Line LED headlamps create a showstopping front profile that accentuate the G70's athletic character and brightens your visibility on every journey.

## 16-WAY ADJUSTABLE SEATING

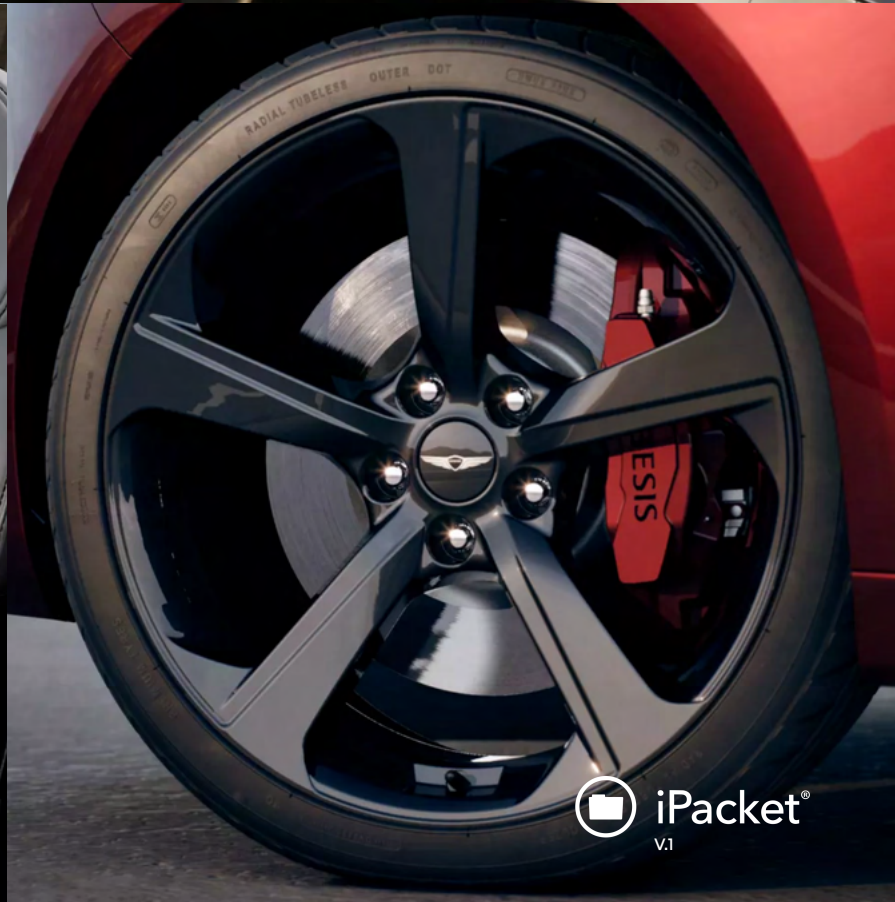

Supportive and spacious, the available 16-way adjustable driver seat conforms to your unique physique and posture to ensure total comfort behind the wheel.

## PREMIUM LEATHER

Available interior enhancements includes supple leather seating and microfiber suede upper finishes that are luxurious to the touch and offer a distinctly premium appearance.

## 19" ALUMINUM WHEELS

Two sleek 19" Aluminum Wheel options add clean-cut style to your G70 and bolster performance with all-season or available summer tires.

# TECHNOLOGY

## LEXICON PREMIUM AUDIO SYSTEM

The G70's available Lexicon Premium Audio System offers rich, full-sensory sound with 15 premium speakers and a subwoofer beneath each front seat, for an immersive experience throughout the cabin.

## GENESIS DIGITAL KEY 2 TOUCH

Removing the need for a physical key, the available Genesis Digital Key 2 Touch allows you to unlock doors and start the engine, using a compatible smartphone or key card and even share access with others via text.

## SMART CRUISE CONTROL

Sophisticated Navigation-based Smart Cruise Control technology provides peace of mind by helping you maintain your desired speed as well as setting a distance between yourself and the vehicle ahead.

## SURROUND VIEW MONITOR

The available Surround View Monitor helps you maneuver into tight spaces with confidence. It provides a 360-degree view of your surroundings while you park, minimizing potential blind spots.

# SAFETY

## LANE KEEPING ASSIST

Lane Keeping Assist monitors lane markings with a camera and can automatically apply corrective steering assistance to help keep you centered in your lane, providing an additional level of protection on the road.

## COLLISION-AVOIDANCE ASSIST SYSTEM

Forward Collision-Avoidance Assist can detect stopped vehicles and stationary objects in front of you and can apply the brakes when necessary, assisting you in potentially avoiding or lessening the impact of a possible collision.

## BLIND-SPOT VIEW MONITOR

The available Blind-Spot View Monitor gives you an extra set of eyes when changing lanes. Simply activate your turn signal and the system will display a live image from the side-view camera front and center on the instrument cluster.

## INTELLIGENT SPEED LIMIT ASSIST

Used in conjunction with Smart Cruise Control, Intelligent Speed Limit Assist helps keep you safe and aware behind the wheel by informing you of your road's current speed limit and even warning you if your speed exceeds the limit.
