QX60

Find Joy in Every Bit of It

Because life moves in a million directions, the 2024 QX60 is crafted for everyone to arrive feeling ready to seize the day. You can take a beat knowing a robust suite of available driver assistance and safety technologies¹ can help work in your favor. You can savor luxuries that flow from the driver's seat all the way back to the third row, up to six USB ports^{2,3} and a theater-style view, so all of your guests get to indulge. As beautiful as it is, this vehicle is incredibly functional and versatile. No matter what you may need – a bit of calm, a burst of energy, or another hand to multitask – the QX60 is the sophisticated 3-row luxury SUV ready to handle the rigors of your busy life.

STYLE SETS THE TONE

The first thing people will notice about the QX60 is its presence, exuding strength and sophistication. But when you look closer, you see a timeless design philosophy expressed in its simplicity, grace and powerful minimalism. The sleek lines combine with a roof that looks like it's floating on glass to weave a luminescent, futuristic style that will stop people in their tracks. Or turn heads with the AUTOGRAPH trim's all-black roof² for a canopy that appears seamless, without a hint of visible body color but with a full statement of personality.

DON'T JUST ILLUMINATE. SHINE.

The QX60 headlights and taillights are marked by crisp segments like the keys of a piano, each lit by deep-set LEDs and a reflector to illuminate with a uniform glow rather than pinpoints of light. And with the available Vision Package, the Adaptive Front Lighting System² can turn your low-beam headlights the direction you're steering, assuring you shine wherever you're headed.

Down to the Last Detail

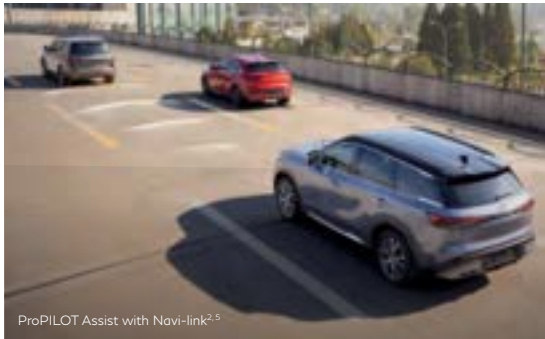

The interior of the 2024 QX60 blurs the line between beauty and utility to create this calm and uncluttered space. Available captain's chairs in the first and second rows welcome you and your guests to sit and stay a while. With hand-stitched quilting and first-row massage capability,² they are both pleasing to the touch and supportive to the body on long journeys. And beneath the little luxuries lives cutting-edge technology selected to ease your drive. From what you see, like the INFINITI InTouch® 12.3" Interactive Display,⁴ to what's artfully hidden, like air vents that seem to disappear in the dash design, what remains is open space for a clear and confident mind.

Semi-aniline leather-appointed seating²

Up to six USB ports³

ProPILOT Assist with Navi-link^{2,5}

Tilt and sliding second row⁹

NEVER MISS A CONNECTION

INFINITI InTouch® with wireless Apple CarPlay®⁴ integration lets you enjoy your compatible iPhone® on the QX60 touch-screen without plugging in. Seven devices can connect to the Wi-Fi hotspot.⁴ And there are up to six USB ports,² including two in the third row on SENSORY and AUTOGRAPH trims.³

TECH THAT SIMPLIFIES TRAVEL

Available ProPILOT Assist with Navi-link^{2,5} can help take away some of the minutiae of stop-and-go highway driving by automatically braking and accelerating to match the flow of traffic. Using the navigation system⁶ to "anticipate" curves and interchanges, it helps slow you for your turn or exit. Beyond easing the burden, the QX60 can give you peace of mind with features like Predictive Forward Collision Warning,⁷ which can monitor two cars ahead to warn you of a potential collision. And Rear Automatic Braking⁸ can help stop you from backing into a large stationary object. Because the less you worry about the chaos around you, the more you can connect to those who are with you.

FLEXIBILITY AT YOUR FINGERTIPS

The QX60 adapts to your busy life with ease. The second-row seats tilt and slide forward, even with a child seat in place.⁹ Raise the third-row seat using one finger with the available power return feature.¹⁰ Access the cargo area with a wave of your foot, prompting the available Motion-Activated Liftgate.
