369 lb-ft

Design

S line design.

With sleek design features such as S line exterior design and badging, an elegantly long wheelbase, and a prominent Singleframe grille, the A8 has curves that moves you.

Sophisticated interior.

The elegant interior of the A8 offers superb craftsmanship and next-level comfort. Sink into luxurious 22-way, multi-contour, comfort front seats with available Valcona leather.

Standard OLED taillights.

The multi-segment displays on the A8 progressive OLED taillights offer two distinctive signatures based on the drive mode selected via the MMI.

Black optic package.

For a sportier look, choose the available Black optic package, which features high-gloss black exterior elements, black brake calipers, and 21" 5-double-spoke-star-S wheels.

Executive plus package.

The available Executive plus package immerses you into luxury with extended leather package, Valcona leather interior, front heated seats with massage function as well as heated rear seats.

Performance

Dynamic all-wheel steering.

Dynamic all-wheel steering is available on the 2026 A8, which enhances low-speed maneuverability while also providing increased stability at higher speeds.

Comfort adaptive air suspension.

Continuously adapting to road conditions, the comfort air suspension on the 2026 A8 can adjust electronically to optimize driving dynamics and ride comfort.

Serene drive.

The 2026 Audi A8 offers a refined V6 engine with smooth-shifting, 8-speed transmission, while quattro constantly optimizes the available traction while you drive.

Audi drive select.

Choose between a range of variable settings such as steering, transmission, suspension, and throttle response. Select your preference from four modes: Comfort, Auto, Dynamic, and Individual.

Technology

Head-up display.

As part of the Executive plus package, the available head-up display on the 2026 Audi A8 offers the relevant information you need—projected conveniently within your field of vision.

MMI® touch response.

MMI touch offers intuitive technology that's as easy to use as your smartphone—placing you in command via a driver-centric, interactive display with haptic feedback. A secondary touchscreen manages climate controls and features handwriting recognition.

Easy as a smartphone.

Access your phone to connect to your favorite apps, music, maps, messages, and more with wireless Apple CarPlay and Android Auto.

Bang & Olufsen.

Feel like you're there with the available 1,920-watt Bang & Olufsen Advanced sound system with 3D sound. Retractable acoustic lens tweeters and strategically placed speakers throughout the vehicle—23 of them, to be exact—immerse you in rich, emotive sound.

Audi connect CARE® with remote start.

Experience fully integrated assistance tools with Audi connect CARE, including functions such as remote vehicle services and security features that help offer peace of mind.

Driver Assistance

Remote park assist plus.

Available Remote park assist plus automatically maneuvers the Audi A8 in and out of a perpendicular or parallel parking space. This enhanced feature can be performed via your phone using the myAudi app when you are outside of your vehicle.

Top view camera system.

Zoom in on your vehicle's exterior with the available top view camera system with Virtual 360 view. Toggle between 3D camera views and swipe to view different angles-all from the comfort of the driver's seat.

Adaptive cruise assist with lane guidance.

With adaptive cruise assist with lane guidance, the system maintains a time-distance setting to the vehicle ahead and helps keep you centered in your lane. The hands-on detection steering wheel allows for a smoother lane guidance experience.

Audi side assist with pre sense rear.

Using radar sensors and optical warnings, available Audi side assist with Audi pre sense rear alerts you if your vehicle is in your blind spot and helps detect any potential rear accidents.

Intersection assist.

Available intersection assist uses sensors to help detect cross traffic when pulling through an intersection and can help intervene via a brief braking to warn the driver of a potential collision.
