- 22-inch multi-finish wheels
- Standard Super Cruise® hands-free driver assistance technology with 3-year OnStar® Super Cruise plan

DESIGN

Go long

Whether you're driving around town or across the country, Blazer EV RS RWD offers an impressive 334-mile range. When enabled, Regen on Demand® and One Pedal Driving help convert the vehicle's kinetic energy into energy stored in the battery for later use to help get the most range.

CHARGING

Charging basics

Seamlessly fit charging into your routine, plus find out more about charging basics and how easy it is to go electric.

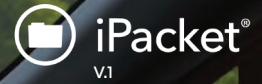

Home charging

Learn more about the types of home chargers and how easy it is to get one professionally installed.

Public charging

Charging on the go is simple. Just pull up to a Level 2 charger or DC Fast Charger at certain commercial locations. With DC Fast Charging, you can be back on the road in less time.

TECHNOLOGY

17.7-inch diagonal display screen

11-inch diagonal driver information screen

Google built-in

A seamless hands-free experience, hands down. With Google built-in compatibility, every drive is more simplified and personalized.

Super Cruise

On average, Super Cruise users drive more than 10 million hands-free miles per month total. Just as impressive: Super Cruise driver assistance technology won MotorTrend Best Hands-Free Driving Tech.

PERFORMANCE

Go fast in Blazer EV SS

Blazer EV SS equipped with Wide Open Watts (WOW)* is the quickest SS model Chevrolet has ever produced. With Wide Open Watts, this groundbreaking feature propels you from 0 to 60 mph in just 3.4 seconds, elevating EV performance to a whole new level.

0 to 60 in 3.4 seconds: GM-estimated with Wide Open Watts* on SS

615 horsepower: With Wide Open Watts* on SS

650 lb.-ft. of torque: With Wide Open Watts* on SS

303 miles: EPA-estimated electric range

Our battery platform

Designed from the ground up to power most of our all-electric lineup, our battery platform allows Blazer EV to offer a variety of performance and driving characteristics. The body architecture supports the multiple range options along with four available drive systems: dual-motor all-wheel drive, dual-motor performance all-wheel drive, rear-wheel drive and front-wheel drive.
