- Electronic On-Demand All-Wheel Drive (AWD)
- 19-in. 5-spoke painted and machined sport alloy wheels
- 11-speaker JBL® Premium Audio including subwoofer and amplifier

PERFORMANCE & UTILITY

Confidence to go.

Drive Modes

Three distinct drive modes let you tailor RAV4's driving dynamics to match your mood. SPORT Mode provides sharper acceleration, Eco Mode helps maximize fuel efficiency, and NORMAL Mode blends fuel economy with performance. For the RAV4 Hybrid: with Eco Mode, EV Mode, Sport Mode, Trail Mode and Normal Mode, RAV4 Hybrid allows you to change the driving dynamics to match your needs. Whether you want to help maximize fuel efficiency or increase traction on the trails—it's all within reach.

203-HP 2.5L Inline 4-Cylinder

Experience an exceptional blend of power, performance, capability and comfort with RAV4's 203-horsepower 4-cylinder engine, 8-speed transmission and available All-Wheel Drive (AWD).

Ground Clearance

With over eight inches of ground clearance, RAV4 lets you easily handle off-road trails and pathways. The ride height also gives you a more confident view of what's around you.

Hands-Free Power Liftgate

When your hands are full, the available hands-free power liftgate senses your Smart Key fob in your pocket or purse and is designed to open automatically when you wave your foot under the center of the rear bumper.

Multi-Link Rear Suspension

Enjoy a smooth ride that delivers driving confidence. RAV4's multi-link rear suspension helps enhance handling and control by working with its natural body rigidity to keep traction steady.

Electronic On-Demand All-Wheel Drive

Standard on all RAV4 Hybrids, this system uses a dedicated electric drive motor to automatically supply power to the rear wheels for instant improvement in traction.

Unplug and Play

RAV4 Plug-in Hybrid's standard 6.6kW onboard charger helps it fully charge in approximately 2.5 hours under ideal conditions, for up to an estimated 42-mile all-electric driving range. And with its ability to seamlessly switch between all-electric mode and hybrid, it's easy to keep the excitement going with an up to 94 EPA-estimated combined MPGe rating.

Fun to Drive

Sweeping bends. Thrilling corners. RAV4 Plug-in Hybrid gives you the agility you crave, while still delivering a smooth, comfortable ride.

Personalized Drive

RAV4 Plug-in Hybrid's available steering wheel-mounted paddle shifters give you control over what gear you're in, while its available drive modes help give you a drive that's efficient. Toggle between EV and HV Mode or choose EV Auto Mode to intelligently maximize performance based on current driving conditions and demand.

Feel the Power

RAV4 Plug-in Hybrid boasts an impressive 302 net combined horsepower, and its 5.7-second 0-60 time means that this SUV is quick too. The advanced Plug-in Hybrid EV powertrain provides the response you crave, giving you the power you want, when you want it.

INTERIOR

Comfort zone defined.

Panoramic Glass Roof

Expand everyone's view. The available panoramic glass roof gives all passengers a front-row view of the wide-open sky.

Elevated Cabin Experience

LED lights highlight interior features and enhance the feel of the cabin. The door switches are also illuminated for better visibility so you can see comfortably, no matter how dark the night sky is.

Thoughtful Interior

Feel an elevated level of refinement every time you enter RAV4. Premium materials, like the available SofTex®-trimmed seats and the comfort of available 8-way power-adjustable driver and 4-way power-adjustable passenger seats, put you in the center of it all.

Available Dual Zone Climate Control With Rear Vents

Dial in your comfort zone. Front-seat passengers can fine-tune the temperature to their liking. Rear vents found behind the center console get the air circulating and further help those in back get comfortable.

Ventilated and Heated Front and Rear Seats

Make every seat more comfortable. With available ventilated and heated front seats and heated rear outboard seats, everyone can have the right amount of comfort.

Intuitive Storage Tray and Passenger Shelf

Find a place for all your things. Below RAV4's climate controls is a storage tray that can hold whatever's in your pocket. A convenient shelf between the upper and lower passenger-side dash gives you the perfect spot to place small items.

TECHNOLOGY

Convenience built right in.

10.5-In. Multimedia Display

The options for connectivity and infotainment have grown. With an available larger 10.5-in. multimedia display, RAV4's audio multimedia system is in clear view.

12.3-In. Customizable Digital Gauge Cluster

The available 12.3-in. customizable digital gauge cluster presents turn-by-turn directions, safety info, alerts and more, all at a glance, so you can keep your eyes on the road.

Front and Rear Parking Assist With Automatic Braking

Available Front and Rear Parking Assist with Automatic Braking (PA w/AB) audibly and visually warns you when it detects stationary objects or vehicles approaching from the rear. If the system determines there may be contact with a detected obstacle or vehicle, it will reduce engine power and/or apply the brakes.

Panoramic View Monitor With Camera Perimeter Scan

RAV4's available Panoramic View Monitor (PVM) with Perimeter Scan uses four cameras, one on each side of the vehicle, to display a bird's-eye view onto the touchscreen display. When you're parked and using the Moving View setting, RAV4 creates an animated virtual view from above to give you a bigger picture of what's around.

USB Ports and Qi-Compatible Wireless Charging

Stay connected to fun. Plug your smartphone or mobile device into one of the available five USB ports to power up. You can also place your device on the available Qi-compatible wireless charging pad found conveniently in the tray below the climate controls.

Head-Up Display

Get all the driving info you need projected right in front of you with RAV4 Plug-in Hybrid's available Head-Up Display (HUD).
