TECHNOLOGY

LYRIQ combines driver-focused innovations and intuitive features to create a striking EV SUV.

STANDARD SUPER CRUISE®

Super Cruise® is the first true hands-free driver assistance technology for compatible roads. Super Cruise utilizes advanced technologies to provide the ease and convenience of hands-free driving, even while changing lanes, thanks to Turn Signal Activated Lane Change.

OVER-THE-AIR UPDATES

Receive enhancements, purchase new upgrades and get software refinements right from your driveway using over-the-air technology. Updates are downloaded and installed via Connected Access or by connecting your vehicle to a Wi-Fi® network—no paid data plan necessary.

GOOGLE BUILT-IN COMPATIBILITY

In-vehicle technology can help you focus on the road and do things along the way. Cadillac vehicles with available Google built-in offer a helpful, personalized and seamless enhancement to your vehicle experience.

CONTROL VEHICLE FUNCTIONS WITH YOUR VOICE

Google Gemini or Google Assistant allows you to control vehicle functions and find relevant information using natural voice commands.

HANDS-FREE PERSONALIZATION

Google built-in includes automatic suggestions based on your calendar and routine, access to your frequent contacts for quick calling, the power to control your smart home from your vehicle and more.

A BETTER DRIVING EXPERIENCE

With Google Play, you can stay up to date with the latest apps and find the most convenient routes with Google Maps — all without connecting your smartphone.
