

2025 INTEGRA

Premium Sport Compact

PERFORMANCE

Integra Powertrain

FWD

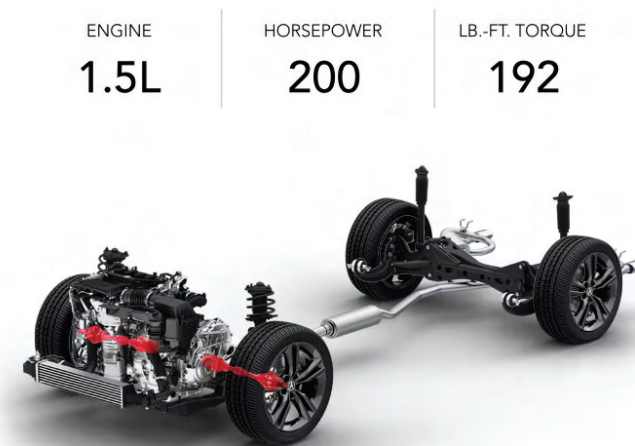

The turbocharged Integra is engineered for true driving enthusiasts. With a 1.5L VTEC® Turbo engine that pumps out 200-HP and an early and flat torque curve that offers smooth power delivery, the Integra is a powerful and agile tour de force.

6MT

26 MPG RATING CITY / 36 MPG RATING HWY / 30 MPG RATING COMBINED

30 MPG RATING CITY / 37 MPG RATING HWY / 33 MPG RATING COMBINED

TYPE S

The 2.0L VTEC® Turbo makes the Integra Type S the most powerful Integra yet. 320-HP is handled with precision by the sophisticated Dual-Axis Strut front suspension, developed by motorsport engineers for increased performance. Even the moonroof was purposely removed from the Type S to improve chassis rigidity and agility.

A close-up, low-angle shot of a car's manual transmission and handbrake. The gear shift is a black leather-wrapped knob with a silver-colored base. The handbrake is a black leather-wrapped lever with a silver-colored base. The background is dark and out of focus, showing parts of the car's interior.

PERFORMANCE

Geared For Performance

6-Speed Manual

Rev-Match Control for precision downshifting keeps the engine in the optimal power band with short gear ratios and a lightweight flywheel. A helical limited-slip differential helps transfer maximum power to the road.

CVT

The Continuously Variable Transmission (CVT) offers high efficiency with premium comfort. Programmed by a sport-tuned transmission logic, the race-inspired paddle shifters put you in control for an engaging and spirited drive that you can command with a quick tap of the fingers.

Type S

The Integra Type S offers endless driving thrills with a close-ratio 6-speed manual that shifts up to the 7,000 rpm redline. Large front Brembo® monobloc brake calipers clamp down on the upsized rotors to confidently tackle the next turn ahead.

PERFORMANCE

Integrated Dynamics System

Sport

Sport Mode offers the height of excitement. Aggressive engine sound and sport-focused throttle and steering settings add a new dimension of performance to the driving experience.

Comfort

Activate Comfort Mode for a smooth, effortless drive. Available white ambient lighting illuminates the 10.2-in digital instrument cluster with a soft glow creating a relaxing atmosphere.

Normal

Cruise comfortably on everyday drives without sacrificing agility and throttle responsiveness with Normal Mode.

Individual

A completely customizable drive is at your fingertips with available Individual Mode. Fine tune specifications to your exact liking for a more personalized ride.

Sport+

Exclusive to Type S, Sport+ mode offers a more visceral drive for the true driving enthusiast. The Active Exhaust Valve (AEV) opens for a more aggressive sound as the gauge needles transform to yellow as a nod to the legendary Integra Type R.

EXTERIOR

Statement-Making Style

Performance Styling

The frameless Diamond Pentagon Grille with inverted pattern marks the next era of Precision Crafted Performance® design up front while the sporty liftback design offers versatility for any active lifestyle.

A-Spec® Design

A-Spec® design details like aggressive 18-in Shark Gray wheels, black trim accents, a rear spoiler and LED fog lights add a bold design edge to the Integra.

Bold Lighting

High-performance lighting gives every Integra a modern and distinct look. Full LED taillights with 3D floating elements create a unique presence while the racetrack-inspired Chicane™ LED lights continue the theme in the front with the brilliant Jewel Eye™ LED headlights.

Premium Paint Technology

A range of deep, rich monochromatic premium paint colors including Performance Red Pearl, Liquid Carbon Metallic, Majestic Black Pearl, Platinum White Pearl and Apex Blue Pearl are available for drivers who demand a rich finish.

Type S

From its wide fender flares to the enlarged air ducts and vents on the front bumper and hood, the Integra Type S combines aggressive style and purposeful design. The Type S-exclusive rear diffuser houses large equal-diameter triple exhaust outlets, making a bold statement while maximizing air flow management.

INTERIOR & COMFORT

Sporty And Personalized

Finely Crafted

The Integra cabin features elevated details like a leather-wrapped steering wheel, available ambient cabin lighting and heated front seats with available 12-way power adjustability and memory function.

Digital Meter

The technologically advanced and customizable 10.2-in digital instrument cluster displays pertinent driver information front and center like speed, selected drive mode and more in high-resolution graphics.

A-Spec® Design

Front seats wrapped in available microsuede inserts help you remain firmly in place around challenging corners. Sport pedals provide a confident grip on those performance-focused drives.

Type S

Motorsports meets refinement in the Integra Type S with premium features born from its racing heritage. From the perforated leather sport steering wheel and dark titanium-finish knob to the firm bolsters in the Ultrasuede®-trimmed sport seats, the Integra Type S inspires driver confidence at every turn.

CARGO

Versatility

The liftback design creates a wide opening for easy access to the 60/40-split rear seats that fold flat, maximizing versatility and providing ample cargo space to fit your lifestyle.

Shown: A-Spec with Technology Package in Platinum White Pearl and Red Interior.

AUDIO & CONNECTIVITY

Smart Connection

Center Display

Positioned for ideal control and visibility, the available full color 9-inch touchscreen puts maps, music and apps at your fingertips. With a seamless connection to available Alexa Built-In you can control music, use navigation, check the weather and more, simply by saying "Alexa".

Apple CarPlay® Compatibility

Stay conveniently connected to your phone through Apple CarPlay® compatibility. Available wireless connection offers a seamless connection to your Integra without the use of cables.

Android Auto™ Compatibility

Android Auto™ compatibility connects your compatible Android phone to your Integra. Leave the cables behind with available wireless connection.

ELS STUDIO 3D®

Experience a state-of-the-art audio system that immerses you in the next dimension of sound. Developed by eight-time Grammy® Award-winning producer and engineer Elliot Scheiner, the available ELS STUDIO 3D® is comprised of 16 high-fidelity surround speakers including two overhead and one cargo-integrated subwoofer.

AUDIO & CONNECTIVITY

Effortlessly Connect

Head-Up Display

Engineered to keep you focused on the drive, available Head-Up Display projects critical information like speed, AcuraWatch™ driver assist alerts and more, onto the windshield.

Wireless Charging

Enjoy the convenience of available wireless charging with Qi-compatible devices and keep your smartphone powered up.

AcuraLink® Connected Services

Available AcuraLink® helps you stay connected to your Acura through your smart phone. Enjoy convenient features like Remote Start, Find My Car, Vehicle Notifications, and more during your three-year complimentary trial. Learn more about the full list of available features at acuralink.com.

SAFETY & ASSIST TECH

AcuraWatch™

Collision Mitigation Braking System™ (CMBS™)

CMBS™ helps alert drivers when it determines potential frontal impact is possible and can even apply the brakes to help avoid or reduce the collision impact.

Road Departure Mitigation (RDM)

RDM alerts the driver to an unintentional departure from a detected lane or roadway. The feature is able to apply steering torque and braking to help keep the vehicle on the roadway.

Adaptive Cruise Control (ACC) with Low-Speed Follow

ACC helps maintain a set speed and interval behind the vehicle detected ahead. The low-speed feature can bring the vehicle to a complete stop if the detected vehicle slows to a stop.

Lane Keeping Assist System (LKAS)

LKAS applies steering assistance at higher speeds, helping to keep your Acura centered in the detected lane.

Pedestrian Detection

System is part of CMBS and is used to help detect pedestrians and alerts the driver with audio and visual warnings. It may apply the brakes if needed to help avoid a collision.

Traffic Sign Recognition

Can detect speed limit signs and display that information on your dash and the available head-up.

Traffic Jam Assist

Can aid with steering at low speeds and bring your vehicle to a complete stop then resume travelling again with traffic.

Blind Spot Information System

Monitors the rear and sides of your RDX to help you detect vehicles in the alert zone of adjacent lanes.

Rear Cross Traffic Monitor

This teature helps to detect vehicles approaching from either side when the Integra is in reverse.

SAFETY & ASSIST TECH

Driver Assist Technologies

Alongside AcuraWatch, additional available driver-assistive technologies help enhance overall driver awareness from all sides of the vehicle.

Low-Speed Braking Control

Low-Speed Braking Control can help bring the Integra to a stop when traveling at low speeds by automatically applying brake pressure when the system determines that either a frontal or rear collision is unavoidable
