## TLX Powertrains

### FWD

The 2025 TLX houses a direct injected 272-HP VTEC® turbocharged engine that delivers torque down low and through the entire rev range. It's paired with a 10-speed transmission for quicker acceleration, sharper throttle response and seamless gear changes.

**22 MPG CITY RATING / 31 MPG HWY RATING / 25 MPG COMBINED RATING**

### SH-AWD

Super Handling All-Wheel Drive™ (SH-AWD®) provides seamless power transitions and exhilarating agility. Enjoy the rush of high-performance cornering and the all-weather advantages of an advanced all-wheel drive system.

**21 MPG CITY RATING / 29 MPG HWY RATING / 24 MPG COMBINED RATING**

### Type S

Standard SH-AWD®, an Adaptive Damper System, and a tighter variable steering ratio sharpen the connection between your Type S and the road. An exhilaratingly potent 355-HP turbo V6 keeps you coming back for more.

# PERFORMANCE

## Precision Handling

### Suspension

When it comes to handling, the 2025 TLX makes no compromises. The double-wishbone front suspension and available Adaptive Damper System deliver precision handling and powerful cornering grip over almost any road surface.

### Chassis

The Acura chassis is mated to an equally advanced body structure, making the 2025 TLX the most rigid Acura sedan ever. Engineered with lightweight materials, the ultra-rigid structure gives the TLX the handling characteristics of a true sports sedan.

### Brakes

Superior performance needs superior stopping power. The highly sophisticated electro-servo brake system derived directly from the NSX supercar is incorporated in the TLX for precision braking through corners.

### Type S

Quad exhaust outlets boldly signify the power under the hood of the Type S. To help maximize the use of all that power, exclusive high-performance chassis bracing, sport-tuned Adaptive Damper System, and Brembo® front 4-piston braking system deliver handling with pinpoint precision.

### **Comfort**

Get into the sweet spot for those daily drives and long cruises. The available softer dampers and reduced engine noise make comfort mode a smooth ride with exceptional handling and satisfying efficiency.

### **Normal**

Take charge of your direct, sport-tuned ride with a firm steering feel and a heightened drive-by-wire throttle response.

### **Sport**

Unleash the full power of the TLX in sport mode. Take complete control in manual mode with paddle shifters and experience a more assertive shifting algorithm.

### **Individual**

Customize up to five vehicle performance settings to dial in shifting, throttle response, available damper settings, and available ambient interior lighting to your precise specifications.

### **Sport+**

A level of high-performance exclusive only to Type S that sharpens throttle response, holds gears longer, and opens up the exhaust outlet valves for a satisfying engine note.

## EXTERIOR

### Reshaping Performance

#### **Performance Styling**

The TLX commands attention. A long, sculpted hood, wider body, and a lower, athletic stance give the TLX an unmistakable road presence. The available rear spoiler and exposed dual exhaust finishers only heighten its performative character.

#### **Jewel Eye® LED Headlights**

The TLX commands attention. A long, sculpted hood, wider body, and a lower, athletic stance give the TLX an unmistakable road presence. The available rear spoiler and exposed dual exhaust finishers only heighten its performative character.

#### **A-Spec® Styling**

The A-Spec® celebrates performance with design detail that levels up your drive. The enhanced sport seats with black Ultra-suede®-trim, piano black spoiler, flat-bottom sport steering wheel and LED fog lights give the A-Spec a more aggressive edge.

#### **Premium Paint**

Complete your TLX with a premium paint finish in Performance Red Pearl, Majestic Black Pearl, Platinum White Pearl or Apex Blue Pearl. This durable pigment is applied in a series of tinted clear coats for brilliant chromatic color that has a deep, rich finish.

#### **Type S**

The Type S is designed to direct airflow for maximized performance. The lower front splitter helps generate downforce for more traction while the Open Surface Diamond Pentagon Grille feeds air into the powerful turbo V6. The rear spoiler and lower diffuser work together to smooth airflow and reduce lift. Sculpted for speed, the TLX Type S demands to be driven.

# INTERIOR & COMFORT

## Design With Purpose

### Precision Craftsmanship

Immerse yourself in precision craftsmanship. The TLX is refined with high-grade materials like leather and real metal accents. A wrap-around cockpit puts the driver at the center of our performance-forward design.

### Performance Design

Inspired by the Acura Precision Cockpit Concept, the TLX holds driver experience above all else. The centrally placed Dynamic Mode dial, paddle shifters, available sport pedals, and available flat-bottom steering wheel enhance the already aggressive supercar-inspired character of the cabin.

### Leather-trimmed Interior

Premium Full-Grain Milano leather trim provides an ultra-refined feel that befits a high-end sport sedan. The ergonomic sport seats are well-bolstered for both comfort and support and are available with Ultrasuede®-trim for a performance look you can feel.

### Authentic Materials

Designed to exceed the desires of today's premium sport sedan enthusiasts, the TLX is loaded with authentic, high-grade materials. Real aluminum accents and available full-grain Milano leather surround you in the driver-focused craftsmanship.

### Type S

Premium Orchid leather seating surfaces, exclusive to the Type S, create a boutique feeling interior that elevates the driving experience. Performance-focused Ultrasuede®-trim helps grip you in the seat during spirited drives. Experience the elevated refinement of the TLX Type S.

## AUDIO & CONNECTIVITY

### A Symphony Of Tech

#### **Apple CarPlay® Compatibility**

Every TLX comes with Apple CarPlay® compatibility, so you have access to your phone right on your vehicle's center display with the True Touchpad Interface™. Send and receive messages, listen to music, and get directions by voice via Siri® with your compatible iPhone®.

#### **Android Auto™ Compatibility**

Connect your compatible Android phone to your TLX so you can use Android Auto™\* for music, texting, and navigation. Appearing seamlessly on the upper 10.2-inch full HD center display, Android Auto™\* is easily controlled with the True Touchpad Interface™.

#### **ELS STUDIO 3D®**

Your TLX plays host to an audiophile's paradise. The available critically acclaimed ELS Studio 3D® Premium Audio System delivers beautiful, music studio level sound quality from a 17-speaker surround system, including 4 ultra-slim Highline™ overhead speakers.

#### **True Touchpad Interface™**

This ergonomic touchpad uses absolute positioning to let you easily control the 10.2-inch HD display. Every spot on the touchpad corresponds to a specific spot on the screen, to help you stay focused on the road.

# AUDIO & CONNECTIVITY

## Advanced Connections

### Wi-Fi Hotspot Capability

Your TLX can be a Wi-Fi Hotspot for up to seven devices at once for streaming, browsing and staying connected.

### Wireless Charging

Enjoy the convenience of available Qi-compatible wireless charging to keep your smartphone charged up.

### AcuraLink® Connected Services

AcuraLink® helps you stay connected to your Acura through your smartphone. Enjoy convenient features like Remote Start, Find My Car, Automatic Collision Notification, and Enhanced Roadside Service during your three-year complimentary trial. Learn more about the full list of available features at [acuralink.com](https://acuralink.com).

# SAFETY & ASSIST TECH

## AcuraWatch™

### **Collision Mitigation Braking System™ (CMBS™)**

CMBS™ helps alert drivers when it determines potential frontal impact is possible and can even apply the brakes to help avoid or reduce the collision impact.

### **Road Departure Mitigation (RDM)**

RDM alerts the driver to an unintentional departure from a detected lane or roadway. The feature is able to apply steering torque and braking to help keep the vehicle on the roadway.

### **Adaptive Cruise Control (ACC) with Low-Speed Follow**

ACC helps maintain a set speed and interval behind the vehicle detected ahead. The low-speed feature can bring the vehicle to a complete stop if the detected vehicle slows to a stop.

### **Lane Keeping Assist System (LKAS)**

LKAS applies steering assistance at higher speeds, helping to keep your Acura centered in the detected lane.

### **Pedestrian Detection**

System is part of CMBS and is used to help detect pedestrians and alerts the driver with audio and visual warnings. It may apply the brakes if needed to help avoid a collision.

### **Traffic Sign Recognition**

Can detect speed limit signs and display that information on your dash and the available head-up.

### **Traffic Jam Assist**

Can aid with steering at low speeds and bring your vehicle to a complete stop then resume travelling again with traffic.

### **Blind Spot Information System**

Monitors the rear and sides of your TLX to help you detect vehicles in the alert zone of adjacent lanes.

### **Rear Cross Traffic Monitor**

This feature helps to detect vehicles approaching from either side when the Integra is in reverse.

# SAFETY & ASSIST TECH

## Driver Assist Technologies

Alongside AcuraWatch, additional available driver-assistive technologies help enhance overall driver awareness from all sides of the vehicle.

### Surround-View Camera

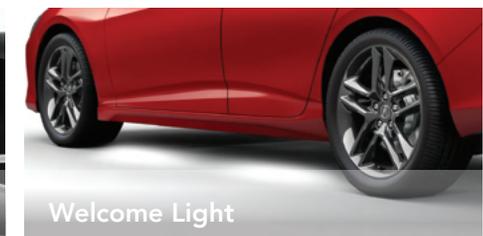

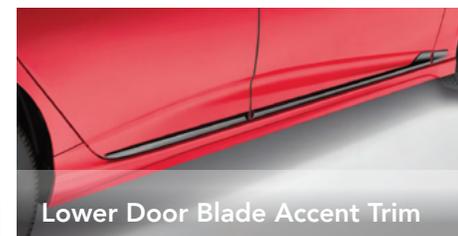

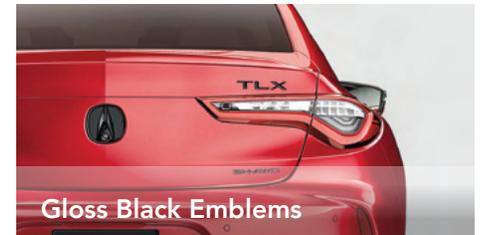

The TLX gives you a 360 view of the space immediately around the car through the navigation display. Guidelines appear in your rear camera view to help you get in and out of tight spots.
