

# THE 2025 MAZDA CX-30

# DESIGN

## GO IN STYLE

The Mazda CX-30 creates a constantly shifting S-curve along the doors, capturing the interplay of light and shadow and reflecting a sense of movement—even at a standstill.

## COMFORTABLE SEATS

From available perforated leather and premium stitching to sophisticated color palettes, our supportive seats are designed to enhance your drive.

## AERO GRAY COLOR

The graceful powerful form of this vehicle is accentuated by the new Aero Gray exterior color, available for the CX-30.

## AVAILABLE TURBO MODEL

CX-30 2.5 Turbo model feature eye-catching accents including a Black accented grille and durable Black roof rails for more cargo carrying options.

## I-ACTIV AWD®

Standard i-Activ AWD® responds to changing conditions and delivers power to the right wheels at the right time to give you responsive performance.

## SKYACTIV-G 2.5L TURBO ENGINE

The graceful powerful form of this vehicle is accentuated by the new Aero Gray exterior color, available for the CX-30.

## G-VECTURING CONTROL PLUS

G-Vectoring Control Plus responds to steering inputs with subtle engine torque and braking adjustments, providing enhanced stability for a smoother drive.

- Smart Brake Support - Reverse
- Cruising and Traffic Support

# TECHNOLOGY

## INTEGRATED SOLUTIONS

Stay connected and focused with technology that enhances your driving experience like an available 10.25-inch infotainment screen and the intuitive Commander Control knob.

## ALEXA BUILT-IN

Connect to your maps, climate control, music and more—using just your voice. Available Alexa Built-in allows you to focus on the road and what's ahead of you.

## MAZDA CONNECTED SERVICES

Remotely start your engine, check status reports and more through the MyMazda App with Mazda Connected Services, complimentary for one year.

# SAFETY

## SMART BRAKE SUPPORT - REVERSE

This available feature can alert the driver of objects and/or pedestrians in the vehicle's reverse path and activate automatic emergency braking if a potential collision is predicted.

## SMART BRAKE SUPPORT - REAR CROSSING

When reversing at low speeds this available feature can provide automatic emergency braking addition to the audible and visible alerts of Rear Cross Traffic Alert when an imminent collision with vehicles crossing from either side is detected.

## BLIND SPOT MONITORING

This standard feature can detect vehicles in the driver's blind spots and provide visual alerts. If the driver signals a lane change while a vehicle is in their blind sport, an additional audible alert can activate.

## LANE KEEP ASSIST

When traveling above about 40 mph, this standard feature can provide momentary steering assistance if it detects the driver might be deviating from their lane without signaling.

## LANE DEPARTURE WARNING SYSTEM

When traveling above about 40 mph, this system can give audible and visual alerts when it detects that the driver might be deviating from their lane without signaling.

## CRUISING & TRAFFIC SUPPORT

Once engaged, this available feature can provide headway support of adaptive cruise control, maintaining the following distance from the vehicle ahead, while also providing lane centering assistance under certain conditions from 0 mph up to highway speeds.

# SAFETY

## VEHICLE EXIT WARNING

When stopped, this standard feature can detect vehicles or bicycles approaching from the rear and provide warnings to alert exiting occupants.

## DRIVER ATTENTION ALERT

When traveling above about 40 mph, if the driver's steering pattern or lane position indicates fatigue or inattentiveness, this standard feature can encourage the driver to take a rest by activating audible and visual alerts.

## 360 VIEW MONITOR

For this available feature, cameras positioned around the vehicle's exterior create a 360 degree view visible on the Mazda Connect screen to give the drivers a greater awareness of their surroundings when navigating small spaces or parking.
