

2023 Audi Q8

Performance

Engine.

With a turbocharged 3.0-liter V-6 that makes 335 horsepower and 369 pound-feet of torque. It pairs with an eight-speed automatic transmission and Quattro all-wheel drive.

Hybrid.

A 48-volt hybrid-assist system aids stop-start operation, which creates a smooth and luxurious driving experience.

Interior

Comfortable inside.

The Q8 stands out in the segment for the precise fit and finish of its cabin. Materials include fine-grain wood, plush leather, and sleek piano-black surfaces. The SUV's quiet cabin provides plenty of elbow room for five passengers and is loaded with high-end features such as premium sound systems and multiple USB ports. Many of the Q8's three-row rivals can handle more cargo, but the Q8 puts up respectable figures for a two-row SUV, with 30.5 cubic feet of cargo space and 60.7 cubic feet when the rear seats are folded down.

Infotainment and Connectivity

Virtual cockpit plus.

The Audi Virtual Cockpit Plus offers a personalized digital instrument cluster, delivering essential information directly within your line of sight through an impressive 10.1-inch upper touchscreen and 8.6-inch lower touchscreen.

MMI Touch Response.

The MMI touch response offers smartphone-like ease with driver-centric features, haptic feedback, and handwriting recognition. Stay connected on the road by wirelessly linking your smartphone to Apple CarPlay and Android Auto for added convenience.

Driver Assistance

Adaptive Cruise Control.

The system sustains a predetermined distance to the vehicle in front while ensuring alignment within the lane. The hands-on detection steering wheel facilitates an integrated driving experience.

Topview Camera System.

Enhance your view of the vehicle's surroundings using the optional top-view camera system with Virtual 360. Seamlessly switch between 3D camera perspectives and swipe to explore various angles, all from the convenience of the driver's seat.

Intersection Assist.

Optional feature on the 2023 Q8, Intersection Assist employs sensors to detect cross traffic when navigating an intersection. It can intervene by applying brief braking to alert the driver of a potential collision.

Head-up display.

The available head-up display on the 2023 Q8 offers all the relevant information you want to be projected safely and conveniently within your field of vision.
