

2025 Audi Q3

Standard

quattro

Seating capacity

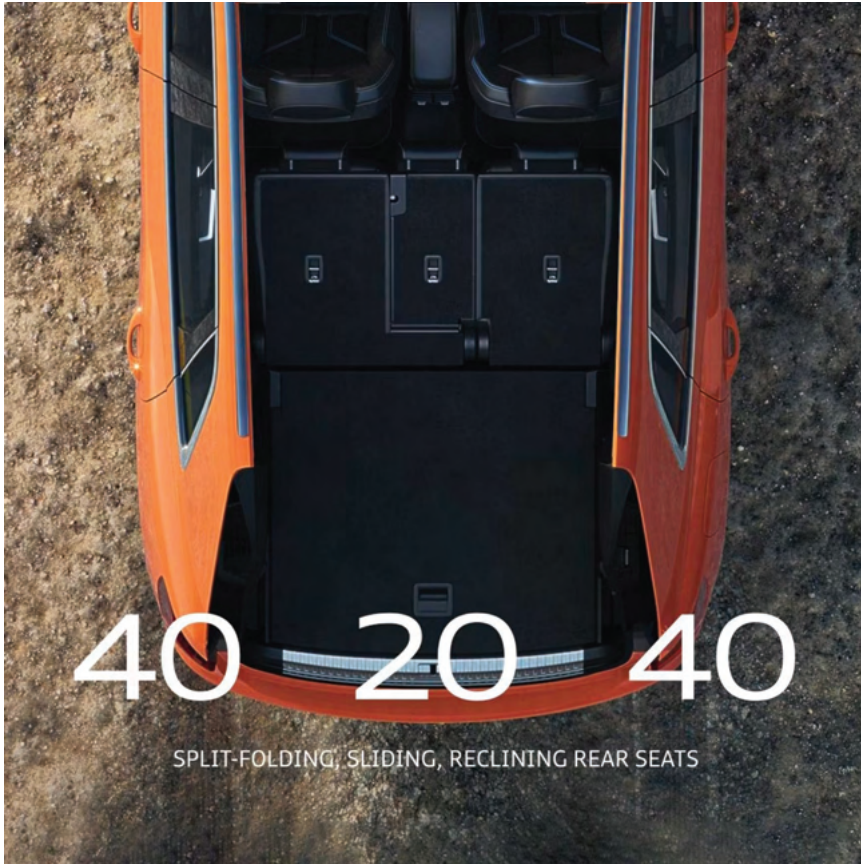

5

Cargo volume

48.0 cu-ft

With rear seats folded

Design

Split-folding rear seats.

The Audi Q3 features split-folding rear seats that slide and recline, offering many options for passengers and cargo.

LED interior lighting plus package.

Standard on the Premium Plus trimline, the LED interior lighting plus package makes your Audi Q3 truly unique to you. Choose between 30 vibrant colors.

LED headlights & taillights

Standard on all trimlines, the full LED headlights on the Audi Q3 features sophisticated daytime running lights. The dynamic LED taillights illuminate in sequence—adding a premium touch.

Black optic plus package.

Add a sleek look to your vehicle with the optional Black optic plus package, featuring high-gloss black exterior trim, black Audi rings and badges, black roof rails, and 19" 7-spoke-rotor design wheels. Sporty touches inside include sport front seats with red stitching and carbon inlays. For an even bolder statement, opt for the 20" 5-V-spoke star design wheels.

Performance

Horsepower

228 HP

Torque

251 lb-ft

0-60 mph in

7.1 sec

Always obey all speed and traffic laws

Quattro.

Iconic quattro all-wheel drive offers an enhanced driving feel—constantly optimizing acceleration and handling as you drive.

Powerful powertrain.

The turbocharged 2.0-liter engine on the Audi Q3 boasts a lively 228 HP.

Audi drive select.

Whether you're driving around town or on dirt roads, Audi drive select adjusts the engine, transmission and steering to best fit your driving preferences.

8-speed Tiptronic.

The 8-speed Tiptronic transmission delivers the ultimate in driving dynamics. With manual control and steering-wheel-mounted paddle shifts, the gearbox is always ready to thrill.

Progressive steering.

Combined with speed-sensitive power assist, progressive steering provides a more direct connection to your Audi Q3 by gradually quickening the steering ratio as the wheels turn further in. The result is enhanced driving feel and improved steering response at higher speeds, while also reducing driver effort during low-speed maneuvers.

Technology

Wireless front charger and rear seat USB ports.

Charge your smartphone wirelessly using the integrated wireless phone charging pad—optional on Premium and standard on Premium Plus. Rear seat USB ports offers passengers a convenient way to charge their devices.

Audi MMI touch display.

The MMI touch display offers acoustic feedback with every command, plus crisp graphics on a customizable screen. Access your contacts, messages, and more with just a touch, scroll or swipe—just like a smartphone.

Wireless Apple CarPlay or Android Auto.

With optional Wireless Apple CarPlay or Android Auto, access your phone to connect to your favorite apps, music, maps, messages, and more

Audi connect CARE.

Experience fully integrated assistance tools with Audi connect CARE including functions such as remote vehicle services and security features that help offer peace of mind.

Driver Assistance

Traffic sign recognition.

Detecting speed limits and select road signs, the available camera-based traffic-sign recognition system alerts the driver via the Audi virtual cockpit. It can be adjusted to provide visual warnings when the vehicle exceeds the speed limit indicated on the traffic signs.

Top view camera system.

Park with confidence. By combining the information gathered by the vehicle's camera's, the available top view camera system shows the car's position in relation to its surroundings with a virtual overhead view.

Adaptive cruise assist with lane guidance.

With adaptive cruise assist with lane guidance, the hands-on system maintains a time-distance setting to the vehicle ahead and helps keep you centered in your lane.

Audi pre sense front.

Audi pre sense front scans the road ahead and gives you a series of warnings in case of a potential accident. If there is no response, the vehicle can brake automatically to avoid a collision or reduce the severity.

Side assist with rear cross traffic assist.

Audi side assist alerts you of vehicles in your blind spots while in motion. When you're in reverse, rear cross traffic assist alerts you of an oncoming vehicle and intervenes with a brake jolt if needed.
