Available leather seating surfaces with ventilated front seats

Heated leatherette-wrapped, multi-function steering wheel

Cargo

35.9 cu ft of Cargo Capacity with Rear Seats Folded

With rear seats folded, the Volkswagen Taos opens up to ample cargo room, more than enough to inspire the adventure ahead.

Displays

VW Digital Cockpit

8" infotainment display

Audio

Available VW Premium Audio System

We won't tell you what to listen to, you probably already know someone who will. We did load up the Taos with an available 400-watt amplifier plus eight speakers and subwoofer, so whatever it is, we've made sure it sounds good.

Exterior

LED Projector Headlights

Available Illuminated Grille

LED Taillights with Rear Light Bar and Illuminated VW Logo

Available Remote Engine Start

Fire up your Taos before you hop in, and tap into the full potential of the most personal compact SUV on the road.

Safety-Enhancing Technology

A lot goes into every Volkswagen before you—and the ones you love—do. Safety is one of our core values, and while we can't predict everything you might encounter, we can (and do) spend long hours trying to help you prepare for it. Here's how.

Rear View Camera System

Stay Focused.

Benefit from the view of a wide lens while you're reversing. It can help you see obstacles when backing up. It's a little extra help where you want it.

Intelligent Crash Response System (ICRS)

Intelligent by design.

In the event of a collision that deploys the airbags, the ICRS can, in certain circumstances, turn off the fuel pump, turn on the interior lights, unlock the doors, and activate the hazard lights. It helps react if you might not be able to.

Six Stability-Enhancing Systems

Equipped for peace of mind.

From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which can adjust engine throttle and apply corrective forces to the wheels that need them most, your vehicle is equipped with a total of six stability-enhancing systems.

Safety Cell

We've got a firm attitude about safety.

Front and rear crumple zones help absorb crash energy, while a rigid safety cell helps distribute forces away from the driver and passengers.

Automatic Post-Collision Braking System

We like to think ahead.

Not every collision brings a car to stop. That's why our vehicles include the Automatic Post-Collision Braking System. It can also help slow the vehicle down after a collision, helping reduce the chance of any additional impacts.

Driver Assistance

Light Assist

When driving at 18 mph or faster and your surroundings get dark, the Light Assist driver assistance feature turns on to help make sure the road ahead is lit, and when your speed slows to 12 mph, it turns off. You can set the high beams into “auto” mode, so they’ll automatically activate when there’s low light, and turn off when there’s an oncoming vehicle, or you enter an area that’s well lit by the environment or by traffic conditions.

Park Distance Control with Maneuver Braking

The available Park Distance Control helps take the guess work out of parking your car, while Maneuver Braking helps apply the brake automatically to help mitigate the chance of a collision with stationary objects while reversing into a spot. With Park Distance Control’s audio beeps and visual support, you can know if you’re getting too close to detected obstacles in front of or behind your car. It can also share additional information on your display, so you can see what’s behind your car as you reverse within a parking spot.

Dynamic Road Sign Display

From traffic signs to speed limits, when you need a reminder about the signs on the road, the available Dynamic Road Sign Display helps share the information you want. It also features warnings for speed, restricted traffic zones and more, so you can remain focused on the road ahead.

IQ.DRIVE

Drive peace of mind with driver assistance technology that helps enhance safety.

Discover the confidence that comes with driver assistance technology that helps enhance safety. No matter your destination, enjoy the drive from A to B without much of the stress, thanks to IQ.DRIVE.

Features:

- Travel Assist
- Adaptive Cruise Control (ACC)
- Active Blind Spot Monitor
- Rear Traffic Alert
- Front Assist
- Emergency Assist (automatic transmission only)
- Lane Assist

Connectivity and Digital Technology

Volkswagen vehicles, like the Taos, come loaded with features that help you stay connected—and in control.

Device Charging

Power up, on the go.

Our 45-watt USB port charging and available wireless smartphone charger for compatible devices won't leave you—or your passengers—without a charge. Even if you forgot your charger.

App-Connect

The smart way to use your smartphone.

App-Connect enables secure and convenient use of select apps on a compatible smartphone in your Volkswagen, allowing you to access music, news, maps, and audiobooks directly through the vehicle's infotainment system display.

In-Vehicle Premium Plan

Elevate every journey.

Take your in-vehicle experience to the next level with an In-Vehicle Premium plan. Enjoy features like 4G LTE Wi-Fi, generative AI enhanced voice control (if equipped), and more, all for one annual price.

myVW Mobile App

Making VW ownership even easier.

The myVW mobile app makes ownership even easier by providing essential tools and information like model-specific resources, active vehicle coverages, and maintenance alerts. Manage your vehicle's services, access remote commands, and personalize your experience.
