

BONIPLAS OUTDOOR LIVING COLLECTION

Stylish and Durable
Composite Decking and Cladding

TRANSFORM YOUR OUTDOOR SPACES

Boniplas® composite decking and cladding is lightweight and made from durable material including a combination of recycled plastic, wood and bonding agents.

It provides many benefits, including low maintenance and long service life with no required painting, staining or sealing.

This provides a longer-lasting look with low upkeep compared to traditional cladding.

Composite decking and wall cladding comes with lots of advantages when compared to timber including increased durability, low maintenance and improved resistance to UK weather conditions, providing more stable colour consistency over the years.

CONTENTS

P.4

COMPOSITE DECKING

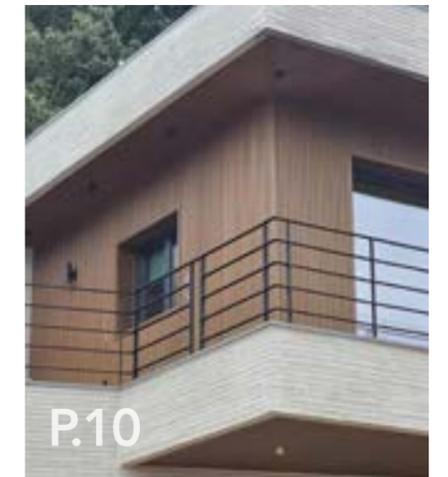

Boniplas® composite decking utilises a specifically designed structure that makes the boards sturdy and long lasting. Each composite decking board is reversible, with one side featuring narrow grooves for low-slip properties and the other side featuring a Woodgrain Effect.

P.8

BONICLAD® COMPOSITE SHIPLAP WALL CLADDING

Shiplap cladding combines traditional looks with modern style, featuring sleek lines and a flawless finish providing a versatile and attractive choice for any building's exterior.

P.10

SULCADO® EXTERIOR SLATTED WALL CLADDING

Slatted cladding offers a stylish and lightweight solution, ideal for those seeking a contemporary look with minimal effort.

DECKING ACCESSORIES FOR THE PERFECT FINISH

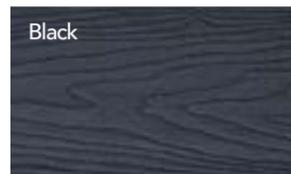

BULLNOSE EDGE BOARDS / 3.6mtr x 140mm x 25mm / 2.9mtr x 140mm x 25mm

Our bullnose edge boards are manufactured with one smooth side. This allows them to be used at the edge of your decking and on steps. The bullnose boards can be installed with start/end clips that connect to the slot on the underside of the board or by using screws.

FASCIA BOARDS / 2.9mtr x 140mm x 12mm

Fascia boards fit around the border of your deck. The fascia hides the joists underneath the deck and gives you a polished look. The fascia board provides an aesthetic finish that also protects the joists and may cover the exposed ends of the deck boards.

SULCADO® EXTERNAL SLATTED COMPOSITE CLADDING

Sulcado® external composite cladding is an eco-friendly, long lasting and low maintenance cladding which is made from recycled plastic and wood fibres.

Additionally, our composite cladding has a durable polymer outer shell that encapsulates the board, which forms an impermeable layer that protects from scratching and fading.

Benefits of Sulcado® External Composite Cladding

Low maintenance

Composite cladding doesn't need to be stained, treated or painted and is naturally resistant to rot and mould

Aesthetics

Available in a wide range of colors, Sulcado® composite cladding mimics natural wood and offer a modern, sleek look, enhancing the overall aesthetics of a buildin.

Easy Installation

Sulcado® composite cladding is relatively lightweight and easy to install, potentially reducing installation costs and time

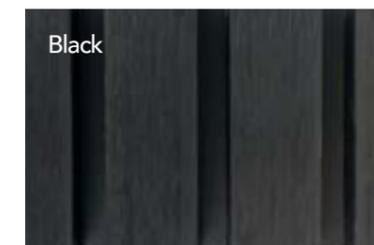

Property Value

Whilst the initial outlay on Sulcado® composite cladding is worth it, even if you're not planning to sell, it's good to know it will add value by increasing the aesthetic appeal of your property.
