

Big Village CARAVAN Economic Poll

05/03/23 - 05/05/23

This data was collected using Big Village's Online CARAVAN® omnibus survey. Approximately 1,000 adults (18+) selected from opt-in online panels were surveyed. The results are weighted based on gender, age, education, race, and ethnicity. Weighting targets are based on the most recent results from the Census Bureau's American Communities Survey. The average margin of error is +/- 3.1% for Adults.

Big Village developed a proprietary 'Consumer Sentiment Index' with the benchmark wave collected March 19-21, 2021, following passage of the American Rescue Plan Act of 2021. To date, our index has produced a high-water mark of 106, during the period of April 2-4, 2021.

The Consumer Sentiment Index is intended to measure the degree of confidence that Americans feel about their current financial status and their expectations of change for the better or worse in the near future. The Short-Term Sentiment Index measures how confident Americans are feeling right now about their current financial situation. The Long-Term Sentiment Index American's expectations of change for the better or worse in the near future.

Consumer Sentiment Index

	Adults	Male	Female	Gen Z (18-25)	Millennials (26-41)	Gen X (42-57)	Baby Boomers (58-76)	Demo- crats	Repbu- licans	Ind/ Other
