What Braswell's Can Provide for You

- Over 200 base recipes available, recipe creation and custom product development.
- Two research and development professionals and two chemists with experience in Good Manufacturing Practices, HACCP, and third party audits.
- State and Federally inspected.
- AIB audited.
- Certified testing by Microbac and Siliker.
- Flexible production and run capabilities to accommodate the needs of both small specialty stores and large volume customers.
- Small batch production capabilities to ensure the highest level of consistent quality, as well as, high-volume equipment to ensure keeping costs down and delivery on time.
- Product sourcing- labels, caps, glass, boxes and ingredients; our tenure in the specialty food business makes Braswell's a valuable resource for your private label/co-packing needs.

Quality Assurance

- Our staff of QA/QC technicians ensures the highest quality of each product we pack.

In addition to numerous checks in each production we offer:

- Extensive product sampling, testing and documentation.
- In-house laboratory for shelf life, microbiological and quality control testing.
- Routine and random inspections.
- Comprehensive quality program including sanitation, GMP's, SOP's, HACCP, allergen program, label review, ect.
- Inspected by Ga. Depart. Of Agriculture, FDA and independent agencies of AIB as well as leading industry retailers.

Private Label Production

Our full time staff of technicians makes production as well as design changes quick and painless. We private label for some of the biggest brands in the industry...and we are ready to work with you.
