

## 4000AE FLATBED FACTS THAT GIVE YOU AN ADVANTAGE

### ADVANTAGE:

Weighs less than some all-aluminum flatbeds, at a combo price

Utility has again defied the status quo with the next-generation high-strength 4000AE aluminum/steel combo flatbed trailer.

Here's a few points to know:

1. The 4000AE introduces a patented design that enabled a breakthrough in weight reduction while increasing track-tested performance.
2. It weighs the same or less than some competitive all-aluminum trailers without compromising strength and load capacity.
3. The 4000AE comes standard with a coil package and 6,500 WLL pipe spools.
4. It costs thousands less than an all-aluminum trailer.

**CERTIFIED WEIGHT**

**8,835 LBS**  
ON STOCK 48' TRAILERS

**9,429 LBS**  
ON STOCK 53' TRAILERS
