Super-V3 LD

SCOOP, STRAIGHT, OR V, HAVE IT YOUR WAY

Why let the big guys have all the fun? We know your 1/2-ton pickup is capable of the toughest jobs, which is why we created the Meyer Super-V3 Light Duty (LD). With a plow spanning 7'6" in length, the Super-V3 LD has trip-edge moldboards for more efficient and shock-absorbent plowing. Plus it features industry-leading ground clearance, self-diagnostics and Hands-Free Plowing (HFP). 1/2-ton trucks don't seem light at all with a Meyer Super-V3 LD plow attached.

Quick Facts:

- Type: Bottom-Trip
- Vehicle: 1/2-ton trucks
- Construction: Steel
