On/Off Switch with Adjustable Motion Sensor 12V

PRODUCT NAME	On/Off Switch with Adjustable Motion Sensor 12V 5A 60W
SKU	LC-LF-15DIM
PRODUCT URL	Click Here
DESCRIPTION	This adjustable motion sensor on/off LED Light switch is truly a unique product. No more fumbling around in the dark for light switches. With three adjustment settings you can set the detection range from 1-20ft, sensitivity to lighter or darker environments, as well as the amount of time your LED Lights will stay on from 30 seconds to 9 minutes. The sensor is more sensitive to motion across the front of the unit and will detect motion within a 100° radius. The detector senses heat in motion and possibly heat sources that change temperature quickly, avoid placing in areas aiming at heaters, air conditioners or any other sources of hot or cool airflow. This product comes with 2 screws and drywall anchors for easy wall mount installation.
CONTROLLER TYPE	On/Off Switch
SUPPLY VOLTAGE	12VDC constant voltage
OUTPUT	1 channel
DIMENSIONS	3.75" Diameter, 7" Lead Wire (95mm Diameter, 178mm Lead Wire)
OUTPUT CURRENT	< 5A per channel (1 channel)
