12" Resharpenable Fiberglass Scissors

The #2735-A is a bent shear that provides extra leverage and comfortable for cutting large amounts of material. The extremely sharp cutting edge can easily cut through carbon fiber, fiberglass, and other thin reinforcement fabrics and fibers.

These trimmers have rubber coated handles that provide additional control. The blades are hardened and chrome-coated for resharpening again and again. They are the best scissors for reinforcement fabrics that you will ever use!

Product Features

- Chrome-coated, high-carbon steel blades maintain a sharp cutting edge
- Hardened metal is designed to be sharpened over and over
- Comfortable rubber-coated handles
- Professionally-honed cutting edge, made in the USA
- Designed for industrial use
- Overall length: 12"
- Cut length: 6"
- Sold per unit (each)

Caution

These scissors are extremely sharp, take special care while cutting. Do not allow children to use unsupervised.
